What to do ?\n3.How can i stretch answer ,in which i have limited data with own ?\n4. After seeing question ,data is coming in my mind but i am confused what to write first ,how can i synchronise\n	• For old recorded lectures of a specific batch/educator, please check that educator's profile page — past, present, and future classes are listed there. • For grammar/sentence formation: read newspaper columns (Indian Express/The Hindu) daily for at least four months to build vocabulary and sentence sense, and read The Hindu Book of Editorials for well-structured writing. • To stretch an answer with limited data: use your own logical reasoning, examples, and multi-dimensional angles (economic/social/political/environmental) around the core

18/07/2026 02:31:45	D8968	Aadil Rza	Sir me hindi medium se hu notes hindi me mil jayege or mere liye hindi english mix krke padna kesa rhega	A 100% pure Hindi handout isn't possible at present due to time/staff constraints, and economy as a subject becomes much harder to follow in pure Hindi. A 50:50 English-Hindi mix also isn't feasible — it would unnecessarily increase page length and make revision harder. Subjects like Economy, S&T, and Anthropology are inherently better understood in English — for example, a term like "liquidity ratio" translated into Hindi often becomes an awkward, longer phrase that confuses more than it clarifies, rather than the crisp English term. Also consider: whichever Plan-B path you eventually take — banking exams, SSC, State

date	sr	name	Q.	ANS.
				PSC — will require English. Avoiding it now only delays a skill you will need regardless. Important keyword translations are already given in the handout. To build your Hindi vocabulary for Economy, read: Class 11 NCERT India's Economic Development, Yojana magazine's chief editor's preface, Jansatta newspaper, Economic Survey Hindi introductions/conclusions, and Raghuram Rajan's "Breaking the Mould" (available in Hindi). 18/07/2026 11:05:25	D8974	Syed Mohammad Laraib	Hello Sir,\n\nI don't have a background in economics, so I'd like to ask how I can build a good understanding of the Indian economy. Since you'll be teaching strictly according to the PYQs, I'm wondering how I can effectively follow your upcoming Indian Economy classes without first having a solid grasp of the Indian economy and the fundamentals of economics.\n\nCould you please suggest how I should prepare beforehand??	No need to worry about not having an economics background. My course covers everything — from NCERT-level basics to advanced theory, current affairs, budget, schemes, and PYQs. You do not need a prior grasp of Indian economy or economics fundamentals before starting; the course itself builds it up from the ground. 18/07/2026 11:23:34	D8976	Prashant Thakur	Mera pass last attempt hi sir or muje iss bar IPS ke liya qualified karna to aap muje thoda Gide kar digiye	Complete the entire course and entire handout with a minimum of three revisions — that is the real foundation, regardless of which service (IPS or otherwise) you are targeting. Service preference is decided at the DAF stage based on your rank and choices, not by preparing differently in advance.

date	sr	name	Q.	ANS.
				Give the weekly tests honestly and track your PYQ accuracy subject-wise. Focused, complete preparation gives you the best shot at a rank that allows IPS — there is no separate "IPS-specific" strategy at the Prelims/Mains stage.

18/07/2026 12:16:58	D8980	Pradyumna Kumar	I m a Qualified CA in Nov,2025 attempt. I m aiming for UPSC 2027 and thinking of taking Commerce and Accountancy. Will it be beneficial Sir	If you're a qualified CA, why not take Commerce and Accountancy as your optional? It also helps in State PSC exams for commercial tax inspector / excise assistant commissioner / accounts officer Class-1 roles.

date	sr	name	Q.	ANS.
				Known devil is better than unknown devil. In CSE-2020: toppers with Commerce = 27/210 = 13% success rate; toppers with PSIR = 154/1863 = 8% success rate; toppers with Philosophy = 20. With your CA background, you already have a strong head-start over most Commerce optional candidates. Commerce is a decent-scoring optional overall. The choice of optional subject has no bearing on your service choice — even for Foreign Service preference, the interview panel won't grill you for 30 minutes on unrelated topics; they'll ask other questions from your biodata too.
18/07/2026 12:27:47	D8981	Harsh Gupta	I have done btech in cse from MMMUT 2022-26. I am facing issues in selecting optional and have not decided yet. I am comfortable in any subject.I hated computer science in my school and even left it after 4 months in class 11 and took physical education for 12th boards but went on doing CSE with 7.99 cgpa.I can manage every subject thus facing difficulty since I don't have any favourite.\n Also sir I am thinking to do masters from ignou, so kindly guide me if I should do it and if yes then what subject should I choose? I was thinking for MA	On optional subject: since you say you can manage any subject without a strong pull toward one, at least shortlist 2-3 optional subjects based on syllabus length, coaching availability, and scoring trend, then come back with this question again. The 16th July first lecture dealt with this — https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R (timestamp 1h58m). On IGNOU MA Economics: this is your personal call on career/qualification building, not

date	sr	name	Q.	ANS.
			economics. Kinldy guide me sir	something that materially affects your UPSC preparation either way. If you have the bandwidth alongside your UPSC prep, MA Economics can be a reasonable Plan-B/backup qualification, but do not let it eat into your core UPSC study time.
18/07/2026 12:36:39	D8982	Saniya khan	First, good morning sir\nI am indeed thankful to you for promoting me best 🙏\nI have one doubts sir is that?? \nHow I managed Indian economy class within the physical geography and Indian Geography\nShould I need to take class before completing half of Indian geo sir?? \nAlmost one or two days i need to complete Indian geography overall so, I attend ur recorded class yet, but, from today I'll surely connect with you in live classes and I attend the leaderboard, quizzes and many more thing's \nDue to some issue I wasn't able to join ur class live upto two day's\nSorry for joining ur classes live sirr🙏🙏\nYou re great sirr☺️\nThanks for all clear my doubts in both two classes 🙂\nWHAT WE HAVE TO CHASE and WHAT WE HAVE TO AVOID FOR CRACK THE UPSC ???Seriously 😊	Thank you for your kind words. You do not need to complete Geography fully before attending the Economy live class — these are separate tracks running in parallel as per the planner. Attend Economy live as scheduled, and continue your Geography self-study/recorded classes alongside it; there is no dependency between the two.
18/07/2026 12:57:05	D8983	Rovo Roy	Sir, do you recommend taking printouts of the handouts and studying them or studying directly through the PDF? Which one would be better to lean on? \nAlso, I have graduated with an MSc in biotechnology, so would	Either printout or PDF works — follow whichever you retain better and can revise faster with. Many students read the PDF for the first pass and print selectively for weaker chapters closer to revision.

date	sr	name	Q.	ANS.
			anthropology align correctly as optional?	With an MSc Biotechnology background, Anthropology is a good fit as an optional — its biological/scientific components (physical anthropology, human evolution, genetics) will feel more familiar to you than to a pure humanities candidate. Go through the syllabus and a few PYQs before finalising: https://unacademy.com/content/optional-educators/
18/07/2026 13:56:27	D8984	Prince kumar Bhagat	I m so confused between geo and pol science to choose optional	Geography optional requires a lot of memorisation because they ask you to mark places on the map. Both Geography and Political Science are good optional subjects, with ample coaching/notes available. See PYQs of both — if you're comfortable with the map-based memorisation load in Geography, stick with it; else Political Science may suit you better. 18/07/2026 14:07:28	D8985	Tauseef shahidi	Good morning, Sir. My name is Tauseef Shahidi. I am currently entering my third year of Computer Science Engineering. Alongside my engineering studies, I am preparing for both GATE and the UPSC Civil Services Examination. I wanted to seek your guidance. Is it realistically possible to prepare for both simultaneously and crack the UPSC CSE 2028 while also managing GATE? If I study	It is realistically possible, but demanding — GATE and UPSC CSE have very different syllabi and question styles, so you are effectively preparing for two separate exams in parallel, not one shared effort. If you can consistently dedicate focused daily hours to GS and your optional alongside GATE prep, and you complete the UPSC syllabus with proper revision rather than rushing,

date	sr	name	Q.	ANS.
			consistently every day and dedicate time to GS and my optional subject, would that be sufficient? I am willing to work very hard, but I would appreciate your honest advice on whether this is a practical approach. Thank you, Sir.	it is doable by 2028 — you have reasonable runway. But be honest with yourself on time allocation as GATE exam dates approach; UPSC preparation should not get compressed into leftover time during that period.
18/07/2026 14:18:48	D8986	Amar Awasthi	Hello sir I am Amar Awasthi..sir as a plan B I choose Be.d to be teacher ..I am keen interested in pol science but in my area pol science have so many teachers it have so much competition but economic don't have so I wanted to do master this subject i know it's big line to say about any subject I want to do learn as much as I can give my best tutelage to my student..it might be 2nd plan but I don't want see this as backdrop..and sir the issues are rising in intermediate school they have microeconomics ..and sir when I start to do alone I scared to see that big equation sir is that anyway by which I can learn effective	not my area of exertise to advice u which PG subjects u should take

18/07/2026 15:26:42	D8988	himanshi-shivhare	Sir other than your class and win series we have to watch nothing for economy current affairs	Correct. My economic courses (Prelims-PCB16 and Mains-QEP9) cover both theory and current affairs for the relevant parts of the economy syllabus. There is no need to separately prepare economy current affairs from any other magazine, PDF compilation, or newspaper. All important annual economy current affairs are also covered for free every year in the Win## series.
18/07/2026 15:29:31	D8989	Vidhya Patel	No question right now	Noted, thank you.
18/07/2026 15:42:51	D8990	Sahabiya Bano	1) I had done msc in chemistry I am confused in optional selection I want to take chemistry wrt my background in this but confused about its study material and coaching \nI am also good in biology and that's why I find anthropology easy to understand so my doubt is what optional should I choose if I am comfortable both of these subjects \n2) from where I can buy your economy book	Since Chemistry is your own MSc background, it is the stronger and safer pick — you already have the foundation, and it saves time and money compared to starting Anthropology from scratch. Do not switch away from your own postgraduate subject only because Anthropology is also comfortable to you. Go through the syllabus and PYQs of Chemistry before finalising — that will also answer your material/coaching concern, since Chemistry as an optional has fewer coaching options and you may have to rely more on your own MSc-level notes and standard reference books.

				Since your subscription ends December 2026 and your concepts are already clear from before, re-attempt the course is not compulsory — you can revise from your own notes and handouts instead of re-watching everything. Use the classes only for topics where your notes feel weak. There is no need to feel low-confidence about doing this again — multiple attempts with a proper revision cycle is a normal part of this exam.

PCB16 (Prelims) runs 16 Jul-14 Dec 2026 and QEP9 (Mains) starts 27 Aug 2026 — both are explicitly designed to serve the 2027/28/29 target cohorts jointly, so you do not need to wait for a separate future batch just because your target is 2029. After finishing PCB16/QEP9, you get free annual updates every year via the Win## series (Win27 in Feb 2027, Win28 in 2028, and so on) — no need to watch a fresh full economy course again. The real deciding factor for course timing is your subscription duration, not target year: if your subscription comfortably covers you till 2029, you may also choose to wait for a more recent/updated course closer to your attempt and use the interim to focus on other subjects — either approach is fine.

I also have other courses, such as Polity, which are expected to continue until December as well.\n\nSince I am planning to study two subjects per day, I am a little concerned about how I should manage my time. If I devote most of my time to completing these ongoing courses, how will I be able to complete the remaining subjects of the UPSC syllabus within the required time?\n\nI started my UPSC preparation only in June and I am still a beginner. Therefore, I would be grateful if you could guide me on how I should plan my preparation and manage the ongoing courses along with the remaining subjects so that I can complete the syllabus properly without rushing.	Please go through my advice in the PCB16 Orientation Class (16th July 2026): • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job, too many daily lectures • 28m: Which subject to complete first Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Limit total lectures across all subjects (Economy + Polity + others) to 5 hours/day combined — use the remaining time for reading and self-study, not more video-watching. No, your background will not negatively impact your UPSC result. UPSC does not evaluate your college pedigree or 12th percentage — it evaluates your Prelims, Mains, and Interview performance directly. Do not add another course just to "develop a skill" — that time is better spent on your UPSC syllabus itself. Your BA (Hons) Political Science from DU SOL is a perfectly fine background; Political Science also helps directly with GS Paper 2 (Polity/Governance) and is a common, credible optional subject choice. 				series next year for economy. • Additionally, you can take help of the monthly current affairs magazines such as this https://unacademy.com/content/upsc/downloads/ • for completing the current affairs of earlier months.ideally for pre-2027, u should read from 1/1/2026 onwards ke magazines (=two calendar years). • there is no need to make a Notes out of current affairs as such because most of the free monthly magazines will be covering it. However, if you find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? 19/07/2026 00:38:03	D9059	Priyanshu	Sir, i have completed my graduation(3year course) .should i continue my preparation along with pg or should i take drop?	This depends on how demanding your PG program is and your family's financial situation. If your PG has a manageable workload and family support allows it, you can run UPSC prep alongside PG — many students do this successfully, since PG doesn't require the same 10-hour daily commitment that UPSC does at full intensity. If your PG is heavy (regular attendance, exams, projects eating into study time) and you can afford a dedicated year, a drop year for focused prep is also a valid choice — it depends on your own bandwidth, not a universal rule. Just don't let PG become an excuse to slow down your core UPSC syllabus completion.

Legal tender specifically means money that a creditor is legally bound to accept when a debtor offers it in settlement of a debt — that is Option 2, the correct answer. Options 3 and 4 describe other forms of money (bank/chequable money, and metallic money) but don't define legal tender itself.

19/07/2026 17:32:22	D9086	Siddheswar Das	Sir, I don't understand the logic behind an optional subject being the gatekeeper. In the Orientation lecture, you said that if there are 1000 seats, that's not the original vacancy or competition. The actual fight is for 150 seats only (approx) for a popular optional subject. So I want to ask how an optional subject plays a crucial role in selection. I don't understand the logic.\nI have choosen Anthropology as my optional subject. I have done my Graduation in Zoology (2019) and post gradution in Life Sciences (2021) and currently in a state govt job (Group C). I choose Anthro because the syllabus didn't feel alien. It has overlapping section with Zoology and Life Science.	You can download the annual UPSC reports to find out the average number of people qualifying from each optional subject. Basically, its scaling system filters out the number of people that will reach to the Interview stage from each subject based on how many of the students are appearing with that subject? And as a result, popular subject will have more number of Toppers, but even they will not have 1000 Toppers because of the same formula and gatekeeping. You can take Anthropology material is easier to find than zoology.Anthropology booklist: please go through the subject teacher's free classes on their profile. 19/07/2026 19:40:05	D9089	Ayushi Singh	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	I have already checked this. As per RBI, the Re.1 note and all coins are legal tender issued under the Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.

Ideally make these notes with pen and paper — this also builds writing stamina, which will help later with Mains answer writing.

				However, these live notes are a supplement, not a substitute for the handout. Don't try to extract every fact live during class — that isn't the goal. In the notes, capture only the structure/outline and keywords as cues; the facts themselves you still memorise separately from the PDF handout during your revision, since that is where the complete, exam-ready material lives. 19/07/2026 23:10:39	D9107	Muskan kumari	Sir how to revise ppt , because digital rivision is more challenging than notes.	PPT revision is meant to be quick — it is not meant to replace handout revision. Use it only to jog your memory of the outline/structure and keywords of a topic; the actual facts to

				memorise still come from the PDF handout, not the PPT. If digital revision itself is not working for you, take pen-and-paper notes from the PPT/handout during your first reading — this is the same live-notes-making initiative from class, and it also builds writing stamina useful for Mains later. 20/07/2026 07:07:44	D9114	dibya Swain	sir for ca i am doing mothly mgazine and ucan sessions is it enough	> How to approach current affairs for UPSC? Please go thru my advice at the 14m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R then, • Your first priority should be to complete the subjects such as economy, polity, history, geography, environment and science. • All the good teachers already incorporate large amount of current affairs inside their course it self for example my economy course. • So beyond that, very fractional amount of current affairs need to be prepared by yourself. and even that is covered free of cost through special classes e.g. my win27 free series next year for economy. • Additionally, you can take help of the monthly current affairs magazines such as this https://unacademy.com/content/upsc/downloads/ • for completing the current affairs of earlier months.ideally for pre-2027, u should read

				from 1/1/2026 onwards ke magazines (=two calendar years). • there is no need to make a Notes out of current affairs as such because most of the free monthly magazines will be covering it. However, if you find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? Unacademy is like five star hotel so it provides all the facilities depending on the requirement of the customer. For example, welcome drink is given in the lobby and you're not thirsty, then you don't have to drink it. If you're thirsty, you should drink it. Similarly, a repeater student who has already completed the theory subjects and only wants to update himself with daily current affairs. He may be requiring daily current affairs

20/07/2026 10:30:23	D9119	RANJAN R TELAGAVI	so sir i have giving lot of time for the plan b, from past 2 months i have been preparing for my karnataka police constable and stopped	Your plan is fine - focus on Central government UPSC preparation as the primary track, and treat Karnataka Police Constable as a separate Plan-B requiring its own separate study

			preparing for upsc meanwhile now i have restarted from your lecture, so i have decided that i will be preparing for upsc and giving only central govt exam that's it because for karnataka exam i have study separatly like kartaka history geo budget. so my question is how should i go about dealing with plan b and upsc preparation\n	(Karnataka history, geography, budget etc., as you've correctly identified), not something to blend into UPSC prep. Do not let Plan-B preparation eat into your core UPSC syllabus completion time. Keep them clearly separated - UPSC subjects (economy, polity, history, geography etc.) get your primary daily hours, and Plan-B specific material gets handled separately, ideally closer to when that exam is actually due.
20/07/2026 10:44:07	D9120	TanushreeMahato-0708	Sir, i have a doubt regarding printing currency notes by RBI.\nI understood the if RBI printed huge amount of notes then inflation increases but why don't RBI print more and more currency for repayment of loans by international organisations like WB.IMF etc. instead of inflow in market.\n\n	This is explained in Pillar 1A1 (Money lectures) - watch that peacefully again. One-line essence: RBI cannot simply print more rupees to repay international loans (WB/IMF etc.) because those loans are denominated in foreign currency (USD), not rupees - printing more rupees does not create more dollars. RBI would still need to buy dollars from the market using rupees, which itself pushes up demand for dollars and depreciates the rupee, and the extra rupees released in that process add to inflationary pressure regardless. This level of mechanism detail (specific FX-settlement process for loan repayment) goes beyond what is required for the scope of our exam - the core UPSC-relevant point is simply that printing more currency indiscriminately fuels inflation, which is already covered in the

				handout.
20/07/2026 11:11:09	D9121	padmaksh sharma	jai hind sir , I NEED YOUR GUIDENCE IN SELECTING AN OPTIONAL SUBJECT FOR UPSC CSE .I AM a COMPLETE BEGINNNER AND COME FROME A COMMERCE BACKGROUND .COULD YOU PLS SUUGEST WHICH OPTIONAL WOULD BE THE BEST ME AND WHY ?	Since you're a Commerce background student, Commerce is a strong optional to consider - known devil is better than unknown devil. In CSE-2020, toppers with Commerce optional had a 13% success rate (27/210) versus 8% for PSIR - Commerce is a decent, well-scoring optional overall, and enough guidance/material is available today even if you didn't study it seriously in college. It also helps as a Plan-B for State PSC exams (commercial tax inspector, excise assistant commissioner, accounts officer Class-1 roles), and you can pursue UGC NET afterwards for a college professor career as another Plan-B. The choice of optional has no bearing on your service choice either - even for Foreign Service preference, the interview panel asks about your full biodata, not just your optional subject. What should my overall study plan and timeline look like? Please go through my advice in the PCB16 Orientation Class (16th July 2026): • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job, too many daily lectures • 28m: Which subject to complete first • 1h13m: Mock test doubts - why finishing theory + PYQ first is a prerequisite before full-length mock tests Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R If you can finish GS and CSAT syllabus within the December-end deadline discussed there, full-length mock tests and topic-wise PYQ practice should begin only after theory is complete, ideally March to May. Shifting exclusively to Prelims-mode revision also falls in that same February-onwards window - see the revision flow discussion at the same Orientation Class.
20/07/2026 15:52:14	D9124	Siya	Sir note kaise banau	This is a new initiative in PCB16 (Prelims) classes to help you memorise the outline of each topic and stay engaged during the lecture - attention deficit while watching long online classes is a common problem, and structured note-taking during the lecture helps with that.

				Ideally make these notes with pen and paper - this also builds writing stamina, which will help later with Mains answer writing. However, these live notes are a supplement, not a substitute for the handout - you still have to read the PDF handout, since it contains all the facts required for the exam.

20/07/2026 16:39:40	D9128	Adityachaudhary01	NAMASTE SIR ,\nI HAVE A ENGINEERING BACKGROUND , CSE AS A CORE \nI AM CONFUSED IN BETWEEN PSIR AND ANTHROPOLOGY \nCAN YOU PLEASE HELP \nAND SUGGEST GOOD TEACHER \ nAND STUDY MATERIAL AND HOW TO PREPARE FOR OPTIONAL .	Between PSIR and Anthropology: PSIR is vast, current-affairs-heavy, and answer writing needs strong conceptual clarity plus regular updating - not ideal unless you enjoy political theory and are ready to put in serious time. Anthropology has a more fixed, compact syllabus, is scoring for science/engineering background students, and requires less continuous current-affairs updating.

				For an engineering/CSE background with no prior humanities exposure, Anthropology is generally the easier, more time-efficient pick between these two - but go through the syllabus and a few PYQs of both before finalising. However I do not enjoy these theoretical portions of commerce subjects. At the same time , I have a keen interest in anthropology. As my goal is to become an IAS officer and clear the upsc exam in my first attempt . Kindly advise me on whether anthropology or any other optional subject would be the best choice considering my educational background, strengths.	"Since you enjoy the numerical/practical side of Commerce (taxation, accountancy) but not its theory portions, and have a genuine pull toward Anthropology, it's worth comparing properly rather than defaulting to Commerce just because it's your degree. Anthropology has a compact, largely fixed syllabus, is scoring, and doesn't need continuous current-affairs updating - a good fit if the theoretical grind of Commerce doesn't suit you. Commerce, on the other hand, is still a known devil for a B.Com graduate with decent success rates (13% among CSE-2020 toppers) and helpful for plan-B exams like State government accounts officer. 20/07/2026 20:55:32	D9139	Bhivya	Respected sir, \nI have done post graduation I.e Aacharya in bharatiya darshan and I want to take philosophy optional for mains . But I can not decide from where should I take coaching and don't know how to cover syllabus what are the book resources etc.Mostly available coaching are too much expensive. No live coaching on unacademy also. I just started preparing for upsc 2027 in July 2026. Can i go with this optional? Please guide me regarding this matter.\nThank you.	Given your postgraduate background in Bharatiya Darshan, Philosophy is a strong, directly-matching choice for you - there is no need to overthink this further. Since live coaching isn't available for Philosophy on Unacademy: do topic-wise analysis of the syllabus, take a printout of topic-wise PYQs, and show it to the head of the Philosophy department at a reputed college near you - seek their opinion on booklist and answer-writing style. Start with PYQ-based answer writing first. Themes in Philosophy tend to repeat across years, so this PYQ-first approach will serve you well.

				Ultimately, for a competitive exam, you have to work through the syllabus regardless of subject - there is no optional where you'll enjoy every topic.
20/07/2026 21:02:24	D9140	Ayesha	Sir mera 2027 mai mera first attempt hai but mere age 26 hai mai gradute hu mujhe dout hai sir kiya mai pass hungi upsc mai ya phr mai London ya canada chali jaau job karnay koi bhi I have no brother and sister and no father single parent I have mujhe samjh ni Ara sir kiya karu plz help	You are 26, a graduate, and this is your first attempt in 2027 - there is no reason to doubt whether you can clear this. Focus your energy on syllabus completion rather than this worry. On London/Canada versus UPSC: this is a real decision only you can make based on your family's financial situation and how much runway you genuinely have. If going abroad for a job would ease pressure at home given you are the sole support, that is a legitimate practical option - it does not mean giving up on UPSC forever, plenty of people prepare while working. If you have at least one focused year available without immediate financial strain, use it fully for UPSC first. 20/07/2026 22:12:22	D9142	Kajal Yadav	Sir main economics ke liye kya padho sir main Hindi medium Se Ho	You do not need to study anything additional for Economics separately - my PCB16 course covers the entire syllabus from basics to advanced theory, current affairs, budget, and schemes, in Hindi-medium-friendly format with important keyword translations included in the handout. Just follow the course, its handout, and the weekly tests - that is sufficient. There is no need for NCERT or any other book beforehand.
20/07/2026 22:20:31	D9143	Harshit Mahar	Sir I am doing Btech CSE, currently in final year at a NIT. My college has good placements but I have not prepared for it, I am confused	If your family circumstances can support one focused year without a job, skip placements

			whether to prepare for placements first, get a job, then prepare for UPSC CSE, or should I skip placements completely and directly prepare for UPSC CSE. Preparing for placements and then joining will take my 1 year while skipping placements will give me much more time. I do not like coding at all.	and prepare for UPSC CSE directly - you'll get a full year's head start compared to doing placements first. Keep some other Plan-B in mind (State PSC, banking, etc.) that doesn't require you to work in a field you dislike, in case UPSC takes longer than expected. Plan-B plz see 26 min onwards https://youtu.be/t4oivH9xI4o?t=1570&si=xZ4FDDW04Bszy8vd
20/07/2026 22:22:49	D9144	@Ritesh21112006	sir due to some technical reason i can not attend class . i attend you class next morning this is correct or not	Yes, that is correct - if you cannot attend live due to a technical issue, watch the recorded lecture the next morning.
20/07/2026 22:43:23	D9145	shuhim111	Sir, I am studying your PCB15 batch and have completed 13 lectures so far. I want to finish the course as early as possible. Would it be okay if I continue and complete the entire course with PCB15 instead of switching to PCB16?	PCB15 is a finished/completed batch - it will not receive any further live lectures or updates going forward. Please switch to PCB16, which is the current live course, from wherever PCB16 has now reached. If PCB15 already covered a topic you've completed, you can treat that as done and move to PCB16 from the corresponding point onward - the syllabus structure is the same, only current affairs/examples are refreshed.

20/07/2026 23:03:08	D9147	Himanshu	Sir, aapki new updated book kab tak aayegi	My next edition of the printed book (Prelims economy only - Mains stays handout-only) is expected on Amazon in Late-August 2026.
20/07/2026 23:04:50	D9148	khushi patel	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016.

				that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
20/07/2026 23:06:37	D9149	Shiv	Ap jab fast padhate to mujhe kuch topic samjhane me problem ati h other teacher bhi nhi padhna kaha samjh aayega	The pace is intentionally fast because the entire syllabus has to be completed within a fixed window - if I taught slowly, either the syllabus would remain incomplete or the course would run far longer than what's fair to fee-paying students who also have other subjects to cover. Coping technique: read the handout the next morning after the lecture. If a specific point is still unclear, watch just that 5-minute portion of the video again, pause, read/write it out for 5 minutes, then move on - repeat this cycle rather than trying to keep up with the full lecture speed in one sitting. If you are a mid-batch joiner, please start from Lecture 1 rather than the current live lecture - the pace increases progressively through the course, so jumping in midway without the earlier foundation will make it unmanageable.
20/07/2	D915	Shadab	Sir mera 2027 me first attempt hoga\nMere	• Geography syllabus does have more current-affairs overlap, but if you've already opted

026 23:51:58	0		kuch doubt hai\n1. Sir mera m.a h geography me lekin uska syllabus or current se related rehta isliye mai sociology opt ki hu kya shi rhega??\n2. Sir current affairs k liye mai pdhi nhi hu av tak kya uske notes bnaun\nAv se kaise start kru?\n3. Sir subscription khtm hone k bad jo class av mai kr rhi hu ya save ki hu wo dekh skte h?\n4. Science and tech nd current affairs k liye exam se pehle kya pdh kr ja skte h?? source??\nQki mera av tak syllabus complete hua nhi h\n5. Sir answer writing kaha check krwa skti hu?\n	Sociology, no need to second-guess unless you have real difficulty with it. Sociology remains a solid, well-supported optional either way - go through PYQs and syllabus to confirm you're comfortable, else revisit Geography. • Beginners should not waste time on daily current affairs lectures - focus on theory first. Majority of MCQs are theory-based or 2-5 year contemporary issues, not fresh daily current affairs. You don't need to make separate notes - most of it is covered in the free monthly Unacademy Articulate magazine: https://unacademy.com/content/upsc/downloads/. Only note down something unique specifically relevant to your optional, interview, home state, or Ethics/Essay. • No - downloaded videos get blocked by the app once your subscription ends. Only downloaded PDFs/HDTs/PPTs remain accessible. Download everything you need before expiry. • For S&T: teacher list Suggest me teacher for “X” subject in “Y” medium?
