Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।

1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice. Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria	in the museum if u find a demonetiized ₹500-1000 note

	also that something which is demonetized will not remain fiat money or there is no such thing???	it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what RBI said in press release vs what UPSC asked.... There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong

		statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this

		Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	"For M0 to M4, What was the important for exam is explained in class. Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "
1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a

		text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts? 3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this. 3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December

1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image	I have already issued the clarification on top of 1A2-B handout ke

	showing Shaktikanta Das . Please sir rectify.	this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.
1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆ hoga to inflation auto!atic ⬇ hoga. But at current hardly some cases of being dependent of loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly.

		Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations...please move to next topic, if u value ur time.
1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right?	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.

	so the net amount that the banks had with them would stay the same, wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act

		by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ

Economic lecture is going well due to your perfect timing. How	One month is early days - editorial reading naturally feels slow at first as you're still building vocabulary and context; this will speed up. 			to cover the rest subjects?	approach: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R • Limit lectures to 5 hours/day; use remaining time for reading/self-study • If you can learn a topic in 20 min by reading, skip the 40-min video for topics you're already comfortable with • Use office breaks for newspaper reading; mornings for subject study • Beginners should prioritize core theory subjects (economy, polity, history, geography) over daily current affairs videos For optional, carve out dedicated daily time separately - it is 500 marks in Mains and cannot be an afterthought.
D9152	Palak Bagul	21/07/2026 07:36:53	Good Morning Sir\n Sir me aapse ye puchana chahati thi ki aap itni 4 5 mahine ki planning kaise kr lete he aur vo bhi itni sarik ki jyada kuch aage piche nahi hota ,me agar mere 7 din ka study plan karu to bhi wo nahi ho pata mtlb ye nahi he ki me nahi karna chahti bs bich me kuch na kuch problems aa jati he jo meri taraf se nhi universe hi mere against ho ase . me gharse padhai kr rahi hu isi vajah se to ye nhi hota ? Please sir mujhe bhi bata dijiye aapka time management ka secret formula	There is no secret formula - plans not working out exactly as scheduled is normal, not a sign anything is wrong with you or your approach. D9156	Priyanka	21/07/2026 12:45:49	Sir mera graduation complete ho gya hai aur mai exam 2028 me dungi to kya mujhi PG karna chahiye ya nahi, thankyou sir.	If you have just completed college and your family is supporting you fully, finish one year fully dedicated to UPSC preparation and coaching first rather than starting PG now.

sr	name	dt	q	ANS.
				If you are unable to clear the exam in the first attempt, then in your second attempt you may explore post-graduation or a job, if your family/financial situation requires it - by then you'll have already completed the syllabus and coaching, so you can manage studies alongside PG/job with discipline.
D9157	Kirti Jarwal	21/07/2026 13:36:42	Hello sir good afternoon, sir mujhe 2027 ka exam dungi or is year bhi appeared hui thi me but sir mera time manage nhi ho rha gs k sub pdne me hi alomst sara din chla jata h or night tak to revision bhi nhi 1 2 sub ka or pcs ka exam bhi dungi optional k liye time nhi mil rha .sir ab kuch smjh nhi aa rha confusion hota h.	Please go through my advice from the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job, too many daily lectures • 28m: Which subject to complete first Optional subject is 500 marks in Mains and very lengthy - you must carve out dedicated daily time for it, do not keep deferring it in favour of only GS. Target completing optional by December 2026. Also: limit lectures to 5 hours/day, use remaining time for reading/self-study; if you can learn a topic in 20 minutes by reading, skip the 40-minute video. If PCS is genuinely competing for your time and your UPSC prep isn't yet solid, prioritise UPSC syllabus completion first - PCS can be attempted once you have more bandwidth.
D9158	Arpit Bajpai	21/07/2026 15:24:17	Good evening Sir, currently i am working in a Grade B job in Central Government. I have given 3 prelims not cleared yet scores were 50,65,62. I have overview of syllabus and able to eliminate 1-2 options but remain stuck after that. Earlier, I have studied from unacademy for my second attempt. I am not able to decide where i am lacking, shall i rely on classes or	Make an Excel sheet PYQ analysis of your last 3-5 Prelims papers with columns: Q | Subject | Difficulty | Source-mapping | Theory/Current. This will automatically show exactly where you are lagging - whether it's a specific subject, a specific question type, or the elimination stage itself. Getting stuck after eliminating 1-2 options usually comes down to either (a) not having memorised the handout facts deeply enough to distinguish

The PYQ analysis will tell you which subjects are weakest - focus your revision there rather than generically "relying on classes" or "content enrichment," since without knowing the exact gap, either approach is a guess. Familiarise yourself with the last 5 years' UPSC PYQs as your benchmark for what's actually being tested, and revise + practice with honesty for 2027.

	MALHOTRA	16:58:55	material check kiya—1st: PCB15-Powerhouse (Pre - approx 1200 pages) aur 2nd: QEP7-Economy (Mains - approx 700 pages).\n Mera yeh doubt hai ki kya Pre wale course ke 1200 pages mein hi Mains ka portion bhi covered hai, ya phir Mains ke liye humein alag se yeh 700 pages print karwane honge? Kya Pre aur Mains ka content alag-alag modules mein separated hai?\n Main abhi hi PDFs print isliye karwana chahta hoon kyunki mera subscription December mid mein khatam hone wala hai.	Prelims and Mains are separate handouts — the Prelims economy handout (PCB course) does not include the Mains portion, and vice versa. So yes, you will need both sets separately if you want both. Since your subscription ends mid-December, download and print the latest PDFs from the current PCB16/QEP9 batch rather than the older PCB15/QEP7 ones — you get the most updated content that way. Also make sure to download all handouts and PPTs before your subscription expires; downloaded videos get blocked by the app after expiry, only PDFs/HDTs/PPTs are worth downloading.
D9162	Pooja Yadav	21/07/2026 17:17:12	Sir handout hindi m bhi de.do please bhot problem aa rhi h	A 100% pure Hindi handout isn't possible at present due to time/staff constraints, and economy as a subject becomes much harder to follow in pure Hindi. A 50:50 English-Hindi version also isn't feasible — it would unnecessarily increase page length and make revision harder. Important keyword translations are already given in the handout. To improve Hindi vocabulary for Economy, read: Class 11 NCERT, Yojana magazine chief editor's preface, Jansatta, and introductions/conclusions of the Economic Survey in Hindi. D9163	Priyanshi Vishaliya	21/07/2026 17:33:38	Good Evening sir ji 🙏\n 1) How I prepared Notes for Economy ?\n 2) Indian Economy ki book hai unacademy ki side se ush mein se learn karna hai?	Ref to top section of this FAQ PDF titled 'Mrunal's Book vs Handout'. For notes: the live notes-making done in PCB16 class is a supplement, not a substitute for the handout — make these with pen and paper, it also builds writing stamina useful for Mains later. But you still need to read the full PDF handout, since it contains all the facts required for the exam. My Prelims Economy handout already contains both theory and current affairs — no need to read any separate 'Indian Economy' book.
D9164	Neha Sharma	21/07/2026 17:54:30	Mera 2027 me first attempt hai...maine may se preparation start ki hai . I have completed geography polity. Mains answer writing ki tyari kaise kru...mains me current affairs related questions kitne aate h ... current affairs related questions karne me fayda h ya pyq krne me🙏	Good pace — Geography and Polity done already. For Mains answer writing: first complete the syllabus of Prelims and Mains, do 2-3 revisions with adequate spacing, and read newspapers for 4-6 months before you start real answer writing. Directly attempting answers without this groundwork leads to shallow, fact-listing answers rather than genuine analytical writing. On current affairs vs PYQ: PYQs should be your first priority — majority of Mains questions are theory-based or 2-5 year contemporary issues, not fresh daily current affairs. My Mains economy course (QEP9, starting 27th August) covers both theory and current affairs together — no need to prepare them separately. 				most of the free monthly magazines will be covering it. However, if you find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? Unacademy is like five star hotel so it provides all the facilities depending on the requirement of the customer. A 50:50 English-Hindi version is also not feasible — it would unnecessarily increase page length and make revision harder for everyone. Subjects like Economy are actually better understood in English — many technical terms sound more confusing when force-translated into Hindi than when read directly in English. For example, a term like 'liquidity ratio' translated word-for-word into Hindi becomes clunkier and harder to retain than the English original with its Hindi meaning noted alongside, which is exactly what the handout already does. Also think ahead: whichever Plan-B exam path you eventually take — banking, SSC, State PSC — will also require working comfort with English. Avoiding it now only postpones the problem. For Hindi vocabulary building specifically: Class 11 NCERT, Yojana magazine chief editor's preface, Jansatta, Economic Survey Hindi introductions/conclusions, and Raghuram Rajan's 'Breaking the Mould' (available in Hindi). PIL stands for Public Interest Litigation — a legal mechanism in India allowing any individual or group to approach the court on behalf of the public interest, not just for their own personal grievance, typically used to enforce fundamental rights or address issues affecting a larger section of society.

D9202	dhruvipatel1716	21/07/2026 23:13:50	Hello Sir \n Do we have to memorize all the full forms of agencies and the year they were formed/created?	No, you don't need to memorize every full form and formation year for every agency. Focus on knowing the full form, core function, and any recent current-affairs relevance for the important/frequently-referenced agencies — that level is sufficient. Exact formation years for minor/less-referenced agencies are not important for the scope of this exam.

Ancient History via recording can run in parallel since it's self-paced. UNACADEMY provides geography optional prepration . Sir what should I do ? I targeting 2029 attempt . Sir I completed Geography physical and Indian by Sudarshan sir, polity & governance from Sidharth Sir and currently watchin your daily lecture Economy pcb16 and modern History from Arti maam . optional subject contains 500 marks in mains paper which is very importan Sir please help me to decide my optional . JAI HIND , SIR YOUR FAITHFULLY	If you're a commerce graduate/student, why not take Commerce as an optional? It also helps in State PSC exams for commercial tax inspector / excise assistant commissioner / accounts officer Class-1 roles. Known devil is better than unknown devil. In CSE-2020: toppers with Commerce = 27/210 = 13% success rate; toppers with PSIR = 154/1863 = 8% success rate. Even if you're not fully confident in the theory portion right now, enough guidance/material is available today, and Commerce is a decent-scoring optional overall — your low confidence at 2nd year is normal and fixable with the right teacher and structured study, not necessarily a sign you should switch. The choice of optional subject has no bearing on your service choice, so don't factor that in. Also, you can go for UGC NET and explore a career as a college professor as Plan-B. That said, go through the syllabus and a few PYQs of both before

Yes, the preparation method and process stays the same regardless of when you start — complete the syllabus for Prelims and Mains, revise 2-3 times with adequate spacing, and build up newspaper reading and answer writing practice progressively. Starting 6-7 months later for a 2028 attempt still gives you a reasonable runway; just make sure you complete the milestones (most of GS by Feb/March of the year before your attempt, optional by December of the year before) on your own adjusted timeline.

sr	name	dt	q	ANS.
			am a postgraduate in Life Sciences and have been in government service for the last two and a half years.\n \n\n I have been a civil services aspirant since 2021, immediately after completing my post-graduation. At that time, however, I lacked the confidence to prepare exclusively for UPSC because of the uncertainty associated with the examination. Therefore, I decided to secure my career first by preparing for SSC and other State Government examinations. In 2023, I cleared one such examination and joined government service in 2024 in my home district.\n \n\n Although getting a government job brought financial security and stability, it never gave me the sense of fulfilment I had expected. Somewhere deep inside, I always felt that I had chosen the safer path while leaving behind the dream that truly mattered to me. That thought has stayed with me ever since.\n \n\n During these two and a half years, I have served at three different offices. I was initially posted in ICDS, then at the District Collectorate, and presently I am posted at the Zilla Parishad as the Stenographer to the CDO-cum-EO. Every transfer has brought new responsibilities and new learning opportunities, for which I am grateful. However, with every passing year, I have also realised how difficult it is for me to pursue UPSC preparation alongside the demands of my job.\n \n\n Initially, I believed that I could	passing frustration — resigning is a defensible choice, especially since you already have Odisha Civil Services as a strong backup given the syllabus overlap and six attempts remaining there. Financial security from a government job is real, but so is the cost of never giving your primary goal an uninterrupted attempt. That said, this is not purely an emotional call — it should be a calculated one. Before resigning: (a) ensure you have enough savings to sustain at least 12-15 months without income, (b) have a clear, honest self-assessment of how far your fundamentals actually are, not just intent, and (c) discuss with your parents not as a request for permission but as a plan with numbers — savings runway, backup exams, timeline. All the best.

			balance both. Like many aspirants, I thought I would manage office work during the day and prepare before and after office hours. In reality, it has been far more difficult than I had imagined. Long working hours, increasing responsibilities, mental fatigue and the unpredictable nature of administrative work leave me with only a handful of productive study hours. As someone who is still building his fundamentals, I honestly feel that I require sustained and uninterrupted study time to prepare at the level that UPSC demands. I am not saying that clearing UPSC with a job is impossible, because many extraordinary people have done it. I am only acknowledging my own limitations and the stage of preparation I am currently in.\n \n\n This has led me to a difficult crossroads.\n \n\n For the last several months, I have been seriously contemplating resigning from my job and preparing full-time for UPSC. This is not an impulsive decision arising from frustration or temporary dissatisfaction. It is a thought that has evolved after repeatedly evaluating my priorities, my capabilities and the opportunities that still lie ahead.\n \n\n I am 28 years old and have three UPSC attempts remaining. If I continue in my present situation, I fear that I may remain comfortable enough to continue my job and perhaps even clear a State Civil Services examination someday, but I may always regret not giving my	

sr	name	dt	q	ANS.
			UPSC dream my absolute best. On the other hand, resigning from a secure government job is an extremely bold decision. It carries financial uncertainty, social pressure and the possibility of failure. That reality scares me as much as the thought of living with lifelong regret.\n \n\n To ensure that this decision is not reckless, I have also thought about realistic alternatives. Odisha Civil Services remains my primary backup because its syllabus substantially overlaps with UPSC and I still have six attempts remaining. Apart from that, I have considered options such as UGC NET and other competitive examinations. These alternatives give me some confidence that even if things do not unfold exactly as planned, I will still have meaningful career options.\n \n\n The biggest challenge, however, is convincing my parents. Both of them retired as Group B officers, and naturally they find it difficult to accept the idea of leaving a secure government job at this stage of my life. I completely understand their concerns because they come from experience and genuine care for my future. At the same time, I cannot ignore the persistent feeling that if I never give myself one wholehearted attempt, I may spend the rest of my life wondering what could have been.\n \n\n Sir, this is precisely why I am writing to you.\n \n\n I am not looking for reassurance. I am looking for an honest opinion from someone who

			has guided thousands of aspirants and has seen both success and failure from close quarters.\n \n\n If you were in my position, would you resign and prepare full-time for the remaining three UPSC attempts, or would you continue with the job and prepare alongside it? At what point does leaving a secure job become a calculated risk rather than an emotional decision? Based on your experience, what factors should I evaluate before taking such a life-changing step?

If it doesn't work out, your State PSC attempts and current seniority remain intact. Resigning makes sense only when the secure backup itself is weak or exhausted — that is not your situation.
D9232	Pooja Yadav	23/07/2026 07:54:34	Sir handout out hindi m bhi de dijiye please 🙏	A 100% pure Hindi handout isn't possible at present due to time/staff constraints, and economy as a subject becomes much harder to follow in pure Hindi. 50:50 English-Hindi also isn't feasible — it would unnecessarily increase page length and make revision harder. Important keyword translations are already given in the handout. To improve Hindi vocabulary for Economy Mains, read: Class 11 NCERT India's Economic Development, Yojana magazine chief editor's preface, Jansatta, and introductions/conclusions of the Economic Survey in Hindi. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, since most MCQs are theory-based or 2-5 year contemporary issues. • First priority: complete core subjects — economy, polity, history, geography, environment, science. • Good teachers already incorporate most current affairs into their courses — my economy course does this. • Beyond that, a small fraction needs self-preparation — covered free via my Win27 series. • Use the monthly current affairs magazine to cover earlier months: https://unacademy.com/content/upsc/downloads/ — for pre-2027 target, read from 1/1/2026 onwards. • No need to make separate notes — the free monthly magazine covers most of it. Note down only unique points relevant to your optional/interview/domicile state/Ethics/Essay. • Read newspaper columns for at least four months to build vocabulary — pick one: Indian Express or The Hindu (English) / Jansatta (Hindi). • How to handle the newspaper effectively: https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG On daily current affairs videos: Unacademy is like a five-star hotel — it provides all facilities depending on what the customer needs. First complete a subject's syllabus through lectures/handout/book once. PYQ and syllabus analysis becomes meaningful only after you have basic familiarity — at that point, going through PYQs shows you which parts of the syllabus are tested more and in what depth. Trying to analyse PYQs cold, with zero prior exposure, will only confuse you further. Sequence: study once → then PYQ analysis → then targeted revision. • Yes, you can write Pre and Mains in English but give the Interview in Hindi — Mains medium and Interview medium are separate choices, you can mix them. However, my advice: give the Interview in English if at all possible. Even broken/टूटी-फूटी English scores better on average than Hindi in the interview. You have the entire year ahead — use it to improve spoken English rather than defaulting to Hindi out of current discomfort.
D9249	Ghanisth	23/07/2026 18:51:41	Good evening, Sir.\n \n\n My name is Ghanisth. I am planning to appear for the UPSC CSE in 2028, but I am a little confused about choosing my optional subject.\n \n\n I have a strong interest in Political Science and International Relations (PSIR). However, due to the unavailability of PSIR at my college, I had to pursue a B.A. with History as my major. I am currently in my third year of graduation.\n After graduation, I am planning to pursue an M.A. in PSIR. As a backup plan, I also intend to pursue an LL.B.\n Considering my academic background, interests, and future plans, would you kindly guide me on whether choosing	Since your genuine interest is in PSIR and you have a clear path toward it — planned MA in PSIR after graduation — this is a reasonable choice despite your current BA History background. The MA will directly build the subject depth PSIR needs. That said, do not wait for the MA to begin preparing — start PSIR optional syllabus and PYQs now, in parallel with your History degree and MA plans, rather than treating it as a future-only subject. Your History background will also help with certain PSIR sections (political thought, modern Indian political history) even before the MA formally begins. D9252	Jareen Shabnam Ahmed	23/07/2026 20:04:59	Hello Sir,\n \n\n I hope you are doing well.\n \n\n I am preparing for both UPSC CSE and State PCS. I joined Unacademy Plus on 9th June, but unfortunately I had to undergo mouth surgery soon after. During my recovery, Assam was also severely affected by floods, which disrupted my studies and left me with a significant backlog.\n \n\n Last year, I was attending offline coaching for UPSC and State PCS and appeared for the Prelims, but I could not clear it. So, I decided to restart my preparation from scratch.\n \n\n Initially, I had a huge backlog in World History, so I discontinued that batch and joined a fresh Unacademy Plus batch on 20th July to begin again.\n \n\n The problem is that I have not completed the NCERTs for any subject yet, and I feel confused about how to structure my preparation	Given the health and flood-related disruptions, restarting fresh with PCB16 was the right call — no need to feel behind for that decision itself. Sequencing from scratch: do not try to complete NCERTs separately before starting coaching classes — for economy specifically, my course covers everything from basics to advanced, no separate NCERT needed beforehand. For other subjects (History, Polity, Geography), follow the same principle with their respective Unacademy educators — the paid course itself is designed to take a beginner through fundamentals. Please go through my advice in the PCB16 Orientation Class (16th July 2026): • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job/backlog situations • 28m: Which subject to complete first Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R

Current affairs: no need for separate current affairs preparation right now — focus on core theory subjects first; my economy course and Unacademy's other GS courses incorporate current affairs already.

I belong to the ST category. Is it too late for me to seriously pursue UPSC preparation, and do I still have a realistic chance of success?	It is not too late at 26, with your graduation and post-graduation already complete and two attempts of experience behind you — you still have a realistic chance, especially factoring in ST category age relaxation (5 years), which gives you meaningfully more attempts and time than general category candidates at the same age. Weather to leave the job or not depends on financial savings, family support, loan burden, et cetera

This applies across all your subjects, not just economy. On Hindi Sahitya (Hindi Literature) as optional: it can work well specifically for candidates who already have a strong Hindi-medium academic background or degree in Hindi literature — if that is your background, it is a reasonable, well-supported choice with decent scoring history. If you do not have that specific background, go through the syllabus and PYQs first before deciding, since literature optionals reward deep prior familiarity with the subject.

On job vs UPSC: this depends on how much savings you have to sustain yourself, and whether you can realistically rejoin a career path later without heavy loss if you step away now. D9274	Akshara Jain	23/07/2026 23:26:14	What is the difference between IPP and AANI of UAE because in handout both are written as UPI like tech?	Sufficient to know they are related to UAE's digital payment technologies. This level of granular distinction between two payment systems is not important for the scope of the exam. Both IPP and AANI are UPI-like fast payment systems -- knowing that broad classification is sufficient; the specific technical differences between them are not tested.
D9275	Dev pratapsrivastava	24/07/2026 04:22:07	Hello sir ,Sir i am having 2 doubts (1-) Sir do i make a separate copy for the wrong questions that deducted my marks in the weekly tests or should i just add on those questions in my class notes only. (2-)Sir can i study another gs portion along with economics? will there be any problem in that if i am managing both my college and lecture times accordingly . I had started the indian society portion of gs1 what i was thinking is to cover small small gs portions along with the economics class so, sir will it be okay na?	• You don't need a separate copy -- add the wrong-question corrections directly into your class notes near the relevant topic, so revision stays consolidated in one place. • Yes, that's fine -- as long as you're managing college and lecture timing well, covering small portions of another GS subject (like Indian Society) alongside Economics is a reasonable way to make parallel progress. Just don't let it eat into your Economy lecture/handout time.

D9280	Kumkum Patle	24/07/2026 09:27:10	Namaste sir\n My graduation coarse was b.com, but I don't want it as my optional subject. I am interested in geography subject but because it is lengthy I am confused about it apart from that I am considering taking anthropology or sociology . Sir please help me in choosing the subject🙏	Geography optional requires a lot of memorisation because they ask you to mark places on the map. See PYQs, and if you're comfortable with that demand, stick with it; else explore Anthropology or Sociology from your list. Between Anthropology and Sociology, both are good optional subjects with ample coaching and notes available -- pick based on your interest, go through PYQs and demo lectures from the Optional Teacher List to decide: https://unacademy.com/content/optional-educators/

				Not wanting Commerce despite your B.Com background is fine -- optional choice should be interest-driven, not forced by graduation subject alone.
D9281	SONYA	24/07/2026 10:10:24	I had completed all four major subjects once, bt from may onwards m doing one slot of mahor subjects again and one new slot of other gs subjects but, my optional, csat is not even started .what should be my strategy because i need lectures even for my revision purposes to clear my concept much better? What should be the slot becoz csat and optional, gs will become heavy	Since your four major subjects are already covered once, prioritise starting optional and CSAT now rather than deepening the second revision slot further -- optional carries 500 marks in Mains and cannot keep being deferred. Split your daily lecture time: one slot for optional, one slot for CSAT, and use your existing revision-slot time for GS subjects instead of a fresh full re-watch -- read the handout directly for revision rather than re-watching lectures wherever possible. Limit total lectures to 5 hours/day; use the rest for reading and self-study.
D9282	Suhasni Sharma	24/07/2026 11:21:03	I got 92.06 marks in the test held on Wednesday and my rank was 604. How do I improve my rank?	That is a reasonable score for someone who is attempting it for the first time. For economy, the revision flow should be as follows Reading1: morning after the last night class Revision1: before weekly test Revision2: before the mega Test (100 MCQ from all the handouts.) at the end of course Revision3: April-May Revision4: before Prelims- glance over index pages of each chapter. Only you cannot remember something then go through the actual content. If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects.

				Make plan for other subjects in similar fashion. So that it fits into the topic wise test, full length test et cetera as well.
D9283	@UJJWAL3273	24/07/2026 11:22:49	Sir maine 12th{PCM} aur graduation B.A. in Defence Studies se kiya hai , mera interest Geography or History dono m hai Geography smjh aati hai aur history khudse padhne ka jyada mnn krta hai lekin usme date time yaad krne m dikkat hoti h , Sir inhi dono subject m decide nhi kr pa rhe kaunsa choose kre..	Both are good optional subjects with ample coaching and notes available. But since you've mentioned difficulty remembering dates -- note that History also carries a real memorisation load, including timeline-based and map-based PYQ content, similar in demand to Geography's map-marking requirement. This isn't unique to Geography. Since you've said Geography is easier for you to grasp while History only appeals on interest, go with what you can sustain consistently over the next year -- Geography. Go through PYQs of both before finalising: https://unacademy.com/content/optional-educators/

You do not need to do Sudarshan sir's foundation NCERT class in addition -- continue directly with my Geography and Economics classes. On your course-repeat question: PCB16 and QEP9 are explicitly designed to serve the 2027, 2028, AND 2029 target cohorts together -- you do not need to wait for or repeat a separate course closer to 2029. Since your subscription runway is long, you also have the option to wait for a more recent course nearer your attempt if you prefer, using the time in between for other subjects -- but joining now and continuing is equally fine. Either way, free annual updates come every year via the Win## series regardless of which course cycle you sit in.

D9298	Sanskar Singh	24/07/2026 22:12:48	Sir You said M3 is Currency + Deposits and money multiplier is directly proportion to M3.\n but You also said cash withdraw or cash kept with public reduces money multiplier like in graph of 2020 corona times . So these to statements are creating confusion	Both statements are correct and not contradictory -- they describe different variables in the same formula. Money Multiplier = M3/M0. So yes, M3 (Currency + Deposits) moving up generally moves the multiplier up, all else constant. But cash withdrawal by the public doesn't just add to Currency -- it directly reduces the Deposits sitting in banks, which is the base banks use to create further credit through lending. Less deposits with banks means less credit creation, which pulls the multiplier down -- even though M3 itself (Currency+Deposits combined) may look roughly similar. This is exactly what happened in 2020: panic cash withdrawal shrank bank deposits and credit creation, so the multiplier fell even as overall money supply figures moved. The multiplier depends on the *mix* between currency and deposits, not just the total M3 figure.
D9299	Vedanshi Barot	24/07/2026 22:15:10	Sir, Every time do we have to consider CU = 0 i.e no cash in hand and all deposited all money kept in deposits in concept of Money Multiplier ? why ?	No -- CU (currency held by public) is not zero in real life. In my example CU=0 is only a simplifying money multiplier formula to make the concept easy to grasp first.

What you're describing -- overthinking, comparing yourself to others, feeling behind despite genuine effort -- is a common experience for students living away from home in a new city, not a sign that something is uniquely wrong with you. The comparison trap with peers 'having more fun' is one every serious student battles; it resolves with time and focus, not by matching their pace.

D9312	nish m	25/07/2026 02:36:51	Namaste Sir Ji,\n \n\n 1. Mera first UPSC attempt 2028 me hai. Main 2024 se full-time preparation kar rahi hoon. Normally main 12–13 hours padh leti hoon aur week me 1–2 din 14 hours bhi ho jate hain. Mujhe physically koi problem nahi hoti \n \n\n \n\n 2. Agar main kisi din 12–13 hours se kam padhti hoon, to mujhe overthinking aur tension hone lagti hai. Lekin jis din 12–13+ hours achhe se padh leti	There is no universal correct number of study hours — it depends on the individual's grasping power, health, and how efficiently those hours are used. However, If you're daily spending from 8 AM to 3 AM. That means you are not getting enough sleep. Then you will mentally and physically get fatigue/burnout by 2028.

			hoon, tab mujhe satisfaction hota hai ki maine honestly padhai ki hai. Jab log alag-alag advice dete hain to main bahut overthink karne lagti hoon. Isi wajah se us din main achhe se padh bhi nahi paati. Kya ye normal hai ya mujhe apni approach change karni chahiye?\n \n\n \n\n 3. Sir, kal kisi ne mujhe kaha ki "itna padhne ki zarurat nahi hoti", "zyada padhne walon ka selection nahi hota" aur "itna padhoge to health issues ho sakte hain." Is baat ki wajah se main aur tension me aa gayi. ,, long study hours continue karna sahi hai?\n \n\n \n\n 4. Kya daily din me nap lena bhi theek rehta hai? Ya mujhe study hours kam karke kisi aur approach par jaana chahiye?\n \n\n \n\n 5. Sir, ek aur doubt hai. Main apni padhai subah 8:00 AM se start karti hoon aur raat 3:00 AM tak complete karti hoon. Isme Optional, 2–3 lectures, Newspaper, Revision aur Answer Writing sab include hote hain. Main din me bhi padhti hoon aur raat me bhi. Raat me lagbhag 3:00 AM se 7:50 AM tak soti hoon aur din me nap lekar apni total sleep 7–8 hours complete kar leti hoon. Lekin kisi ne mujhe bola ki mera schedule hi galat hai aur mujhe raat me nahi padhna chahiye, sirf din me padhna chahiye. Kya agar meri total sleep complete ho rahi hai aur main is routine ko comfortably maintain kar pa rahi hoon, to kya	And then when real exam comes near, there will be a sense of complacency that I have already done everything.

Kya mujhe wahi routine continue karna chahiye jo main lagbhag 1.5 saal se follow kar rahi hoon, ya ab usme koi changes lane ki zarurat hai? Agar changes karne chahiye, to aap kya suggest karenge? \n thankyou

It is true that in the last few years law optional did not deliver good results, but 2025 onwards, it seems they have changed the scaling system, so now law and all other such low-profile options — whether law or medical science — are also doing well in terms of number of toppers produced. So ignore the negativity around this. Between Law and PSIR for you specifically: Law is your graduation subject, so you save significant time and money on new books, and it comes with concrete Plan-B value — specialist officer (legal) roles in Bank/RBI, judicial services exam, and corporate/private practice. PSIR is a strong optional too, but you'd be starting fresh on unfamiliar material despite having a genuine interest in it. Ultimately, for a competitive exam, you have to mug up the material either way — no need to overthink the scoring-percentage comparison. Go with Law.

(2) On optional: Economics as an optional subject comes with its own thinkers, theories, graphs, and maths — which can feel far less accessible than GS-level economy topics like Repo rate or GST. Since Economics is your graduation subject and already scores well for you, it remains a strong candidate — but go through the syllabus and a few PYQs yourself before finalising, rather than deciding based only on your GS-level comfort or others' opinions about it being tough. PSIR remains a fine alternative if, after that syllabus check, Economics still feels too heavy. Optional Teacher List: https://unacademy.com/content/optional-educators/

In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist.

				• Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa

For law i am not getting any educator in Unacademy. And i don't want to change my platform.	Between Law and PSIR: since you already have a Law degree and a stated interest in public policy and constitution, Law remains the stronger practical choice — it saves time and money on new books, and the constitutional law component overlaps directly with your public policy interest. On no Law educator being available on Unacademy: this isn't unusual for lower-popularity optionals. For such subjects, do a topic-wise analysis of PYQs, take a printout, and show it to the head of the department at a reputed law college for their opinion on booklist and answer-writing style. Start with PYQ-based answer writing first — themes in law optional tend to repeat. Better to follow one doctor at a time — if you want to do this course, do this course only, instead of riding two horses. There is no need to prepare current affairs separately from any other notes, magazine, or compilation — my economy course covers both theory and current affairs for the relevant parts of the syllabus, and all important annual updates are covered free through the Win## series every year. So use my classes as your primary source going forward rather than combining with the 2024 notes.

You can complete your whole course from PCB15 recordings — the syllabus structure is the same across batches, only current affairs and examples get refreshed in PCB16. Since you've already completed Pillar 1 and started Pillar 2 in PCB15, continue straight through PCB15 rather than switching mid-way

				to wait for PCB16 to catch up. Once you finish PCB15 in full, you can update yourself with the latest current affairs and any changes via the Win27 series (starts Feb 2027).

Please go thru my advice at the 14m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R then, • Your first priority should be to complete the subjects such as economy, polity, history, geography, environment and science. • All the good teachers already incorporate large amount of current affairs inside their course it self for example my economy course. • So beyond that, very fractional amount of current affairs need to be prepared by yourself. and even that is covered free of cost through special classes e.g. my win27 free series next year for economy. • Additionally, you can take help of the monthly current affairs magazines such as this https://unacademy.com/content/upsc/downloads/ • for completing the current affairs of earlier months.ideally for pre-2027, u should read from 1/1/2026 onwards ke magazines (=two calendar years). • there is no need to make a Notes out of current affairs as such because most of the free monthly magazines will be covering it. However, if you

				find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? Unacademy is like five star hotel so it provides all the facilities depending on the requirement of the customer. For example, welcome drink is given in the lobby and you're not thirsty, then you don't have to drink it. If you're thirsty, you should drink it. Similarly, a repeater student who has already completed the theory subjects and only wants to update himself with daily current affairs. He may be requiring daily current affairs classes.

On the Hindi-medium concern: this is manageable. My handout gives Hindi translations for important keywords, and with a subscription till 2028 you have adequate runway to build English comfort steadily while covering the syllabus — no need to switch your writing medium away from what you're comfortable in for Mains. Focus first on completing core GS subjects (Economy, Geography, Polity, History) since you're at the beginner stage — that foundation serves both UPSC and CAPF equally well. Q2) on CDS/CAPF prep ## 🐯💂 Economy- CDS/CAPF Exam how to approach? • Learner should focus more on Class 11-12 science ke NCERTs for theory Qs. • More focus on physical geography. • More focus on 1-liner-GK about government schemes and then objectives. • Prepare microeconomics also ref: https://unacademy.com/course/mrunals-micro-economics-for-upsc-prelims-2023-raftaar-fastrack-edition/XR7DPX8N

D9344	Pragati Upadhyay	25/07/2026 23:32:09	Good Evening Sir, I hope you are fine Sir I am feeling that my efforts are going nowhere because even after taking classes then reading the notes I am unable to remember the facts .I am not at my initial stage of preparation but when I write answers the common mistake is that I mention wrong facts , my language is not good even after reading for several hours I am unable to memorise it later or in questions .I am able to memorise the stories but not facts. \n Sir,This may be due to the open book system in my college which has affected my memory retention.Sir right now I am like abhimanyu and you are krishna so please help me in coming out of this chakravyuh.\n (Note : I don't use any social media app don't even use youtube there is no problem in sitting for studying the problem is in the pattern of study)\n I am ready to do whatever you will guide and will be helpful for me .\n Please help me out sir.\n Sorry to bother you!\n I hope you consider my request.\n Thankyou	It is not enough to complete the video classes or even read the notes once — you have to actively memorise the handout through repeated revision. In the lecture I only give an overview of the topic; the specific facts you're missing in your answers need to be memorised separately from the handout. On mixing up facts while writing: this usually means the revision gap between reading and recall-under-pressure (like in an answer) is too long. Reading once and expecting to reproduce facts weeks later during writing practice won't work — you need Reading1 (next morning after class), Revision1 (before weekly test), and further rounds before facts genuinely stick. No need to overthink the open-book college system explanation — focus instead on rebuilding a proper revision cycle: read, revise before test, write from memory without looking, then check what you missed. That process itself trains recall better than any single fix.

Mere liye kaunsa optional better rahega aur optional kb se start krun .	Geography optional requires a lot of memorisation because they ask you to mark places on the map. See PYQs, and if you're comfortable with that, stick with it; else explore Sociology, which you've also shortlisted. Don't rule out Geography purely because of syllabus size — length alone isn't the deciding factor; go through both syllabi and a few PYQs of each and see which one you can genuinely sustain interest in. On timing: start your optional now, running parallel with your GS subjects rather than after — target completing the full syllabus with answer writing practice by December 2026. In the lecture I only give an overview; the specific facts needed to solve questions come from memorising the handout separately, through multiple rounds. Give the weekly test regularly, and after each one, go to 'Your Attempts → View Solutions' to see exactly which facts you're missing — that pattern will tell you precisely what to revise, rather than a general sense of "nothing coming to mind." On the printed book: my next edition (Prelims economy only — Mains stays handout-only) is expected on Amazon in Late-August 2026. Better to wait for that than reading only from phone in the meantime — in the interim, the PDF handout downloaded to your device works the same as the physical book content-wise.

In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. \n \n\n But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right?\n so the net amount that the banks had with them would stay the same, wouldn't it? \n only increase would be because of the black money maybe.\n \n\n I'd be grateful if you could provide more clarity. Ans. why my teaching speed is fast: is explained in this video https://www.loom.com/share/9b374d30a18f457c8c1ff28007c58171 In coaching industry, many Teacher teach very Slowly, but they will never complete the syllabus. They will only complete first four chapters and randomly they will end the batch, and tell you to read remaining things from the books. I don't do that. I teach everything from 1st to last chapter. But I need to finish it within the given time limit that is 3.5-to-4 months. It is inevitable that the teaching speed will be fast. If you're facing difficulties – Next morning Read handout If difficulty → open video watch for 5 minutes. Again read. रिकॉर्ड लेक्चर देखिए। पाँच मिनट वीडियो चलाओ , फिर pause करके पाँच मिनिट लिखो या handout से पढ़ो। ऐसे आगे बढ़ो। After few days, you will become adapted the language and flow, and you'll be able to process it much faster. मेरी पढ़ाने की तेज रफ़्तार को मैं कोई मेडल यह उपलब्धि नहीं मानता लेकिन धीरे धीरे चलाएंगे तो यह छह महीने तक चलेगा तो जिनसे भी fees लिए उनके साथ नाइंसाफी है क्योंकि उनको बाक़ी भी विषय पढ़ने होते हैं। "

				still if want to start from basics 🪜 step1 Read Maharashtra State Board Economy Books ke following chapters Class11: ch. 2,5,6,7,8,9 Class12: ch. 7,8,9,10 Download Link: https://books.ebalbharati.in/ebook.aspx --- if joining the batch in middle, then plz start from lecture1. Inflation = general rise in prices over time (money loses purchasing power). Deflation = general fall in prices over time. That's the basic distinction — we'll cover this in depth with causes, measurement (WPI/CPI) etc. when we reach Pillar 4E. On your test performance: it is not enough to complete the video classes and read notes the next morning — you also need to memorise the handout itself, since the lecture only gives an overview and the handout carries the facts tested in MCQs. If you're reading notes but still scoring low, the gap is usually in how the question rephrases the same fact with different keywords — that comes with practice across more Wednesday tests. Ans. why my teaching speed is fast: is explained in this video https://www.loom.com/share/9b374d30a18f457c8c1ff28007c58171 In coaching industry, many Teacher teach very Slowly, but they will never complete the syllabus. They will only complete first four chapters and randomly they will end the batch, and tell you to read remaining things from the books. I don't do that. I teach everything from 1st to last chapter. But I need to finish it within the given time limit that is 3.5-to-4 months. It is inevitable that the teaching speed will be fast. If person facing difficulties –

				Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other

				subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa

D9380	muskan verma	27/07/2026 19:00:03	Sir ,i have a doubt regarding my optional subject.\n \n\n I have shortlisted three optional: ECONOMICS, GEOGRAPHY, and SOCIOLOGY ,but I am still confused about which one i should choose.\n \n\n I am currently in the Second year of my BA [HONS.] ECONOMICS. Since my academics background is in Economics, I initially thought of choosing it as my optional. However, I am not completely sure if that's the right decision.\n And the major problem is that i have a genuine interest in all three subjects. That's why I'm finding it difficult to make a final choice.\n \n\n Could you please guide me on which optional would be the best choice for me and what factors I should consider while making this decision?	Since your academic background is BA Hons Economics, Economics is naturally the strongest fit for you among the three — it will save you time and effort compared to starting Geography or Sociology from scratch. Between Geography and Sociology as your second thought: Geography requires heavy map-based memorisation, which is a real time cost — go through PYQs and see if you're comfortable with that before leaning that way. Ultimately, for a competitive exam, you have to mug up the material regardless of subject — there is no optional where you will enjoy every single chapter. Given your background match, go with Economics. Go through the syllabus and PYQs once to confirm before finalising. Optional Teacher List: https://unacademy.com/content/optional-educators/

A 50:50 English-Hindi mix isn't feasible either, as it would unnecessarily increase page length and make revision harder. Important keyword translations are already given in the handout. Subjects like Economy are inherently better understood in English — for example, a term like 'liquidity ratio' translated into Hindi often confuses more than it clarifies, rather than helping. Also keep in mind: whichever Plan-B exam you eventually rely on (banking, SSC, State PSC) will also require English, so building that comfort now will help you either way. To improve your Hindi vocabulary for this subject: Class 11 NCERT, Yojana magazine's chief editor preface, Jansatta newspaper, Economic Survey Hindi introductions/conclusions, and Raghuram Rajan's 'Breaking the Mould' (available in Hindi). If English is a genuine struggle right now, you may also consider a Hindi-medium economy teacher (covered under your existing subscription) via the GS Teacher list: https://unacademy.com/content/gs-educator/

This is covered in Pill#1A2 (Monetary Policy) — please watch that lecture again peacefully. Two reasons — (1) you get a peer group of serious, like-minded candidates, which builds the competitive atmosphere and seriousness that solo preparation at home often lacks; (2) SPIPA gives a stipend to every admitted student, regardless of caste or income. You can continue your Unacademy subscription alongside SPIPA — many SPIPA students do this since SPIPA doesn't have faculty for every subject. ### SPIPA Ahmedabad Entrance Exam Booklist/Strategy FAQ • What should you prepare for this SPIPA entrance examination? • Finish 4 things: Theory of Geography, Economics, Polity, History, and CSAT. Assuming SPIPA entrance is in June'25, and if it is not finished from Unacademy lectures, then finish it from reading books. Laxmikant, Spectrum, etc. • Do IAS prelims ke PYQs since 2011? • In SPIPA exam, CSAT is also counted in merit list, so you have to prepare it well. • SPIPA also asks a little bit of general knowledge about Gujarat's History, Geography, and awards. So, prepare from internet or general knowledge books for GPSC. • Download their previous year question paper from their website; it will give you a better idea. • For more, watch SPIPA Entrance Exam Booklist Strategy video by SPIPA former Core Faculty Brijesh Patel https://youtu.be/3agL4E9N-BQ • SPIPA paper download https://spipa.gujarat.gov.in/previous-paper-of-civil-services-entrance-exam • SPIPA previous notification for admission https://spipa.gujarat.gov.in/downloads/Advertisement_No_SPI

Kindly guid me how to read Economy Subject in a manner!	> I'm getting very poor scores in the weekly economic test on Wednesday. Please tell me how to improve it? • It takes some time to get used to the way MCQs are formed in UPSC. It basically involves changing of certain keywords and going to elimination method. • Once you get a hang of it becomes very fast to tick or skip the answers. • Those getting poorer scores are because • a) Not revising properly → Then solution is obvious =you have to revise more • b) Overthinking / Birbal ki Khichdi/engaging in hairsplittery/lawyer-LLB type mentality/ thinking outside the photo frame. • c) Not reading the words carefully • d) Silly mistakes like Incorrect statement is asked but they are taking the correct statement • e) Mind is stuck elsewhere in WhatsApp Telegram Netflix , fight with siblings/parents, love affairs & breakups. so person is reading the handout / MCQ but he/she's not absorbing it properly.

				I am sure you will do well. Just focus on the lecture, revise the handouts and give the weekly Tests in regular fashion and rectify mistakes. When the first four pillars are over you will automatically see the big picture how everything fits together in the whole syllabus. Answer writing has real prerequisites: completing the Prelims + Mains syllabus, 2-3 revisions with proper spacing, and 4-6 months of newspaper reading. Attempting answer writing before this stage usually results in listing 5-7 easy facts rather than genuine analytical answers, which does not build real exam-ready skill. First priority: finish the syllabus and handout revision using your current duty-hour routine. Once you have more dedicated time in Ladakh, that is a good window to start your optional subject in earnest — Mains answer writing practice can begin once PCB16/QEP9 syllabus completion is closer.

UPSC allows writing GS and Essay papers in Gujarati or any regional language, while writing the Optional subject paper in English at the same time, if you prefer — this combination is permitted. Decide your medium for each paper before purchasing any optional subject books. On the Gujarati-medium angle specifically, availability of quality Gujarati material for History is thinner than for English medium, so factor that in. The GPSC-relevance angle is a fair consideration, but should not be the deciding factor over your genuine interest and comfort with the subject. • Since language comfort is a real constraint for you, prioritise optionals with stronger Gujarati-medium material availability — Geography and Sociology tend to be better supported in this regard than most other options. Go through syllabus/PYQs and sample material before deciding. Optional Teacher List: https://unacademy.com/content/optional-educators/

After each test: Your Attempts → View Solutions — identify your specific pattern and fix that. It is not enough to complete the video classes — you have to memorise the handout too; the lecture is only an overview. D9405	Shivam Kanojia	28/07/2026 19:47:13	Sir, kya notes ki jagah hum recorded class ko do baar dekh len enough rahega?	No — watching the recorded class twice is not a substitute for the handout. The lecture only gives an overview of each topic; the specific facts required for the exam are contained in the handout, not in the video. You still need to read and memorise the handout separately, even after watching the class. Otherwise, you will struggle to solve the questions in the mock test and real exam.

Your running notes are a good memory/engagement aid during the lecture, but they are a supplement — not a substitute for the handout. For economy, the revision flow should be as follows Reading1: morning after the last night class Revision1: before weekly test Revision2: before the mega Test (100 MCQ from all the handouts.) at the end of course

				Revision3: April-May Revision4: before Prelims- glance over index pages of each chapter. Only you cannot remember something then go through the actual content. If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. Make plan for other subjects in similar fashion. So that it fits into the topic wise test, full length test et cetera as well. फिर भी आपको याद नहीं रहता तो अपने शब्दों में लिख लिखकर नोट्स बनायीये। It is not really a 1000-page handout when you sit down to revise, because every chapter has 3-4 pages of index at the start. Before the exam, you don't read the entire chapter — you glance through the index, and only open the actual section if you cannot recall a topic from the index alone. Separately made short notes are not needed for this reason. The handout looks lengthy mainly because PYQs are attached at the bottom of each section — but you won't even look at those on the night before the exam.

I just wanna ask about how to revise economy (through one pagers and then PYQs, or re-reading handout or something else). if I practice PYQs once or twice, I just remember the answers whenever it comes infront of my eyes so its not too beneficial for repetitive revisions. My attempt is in 2029 and I need to retain this for a long time. Please help.\n \n\n Also, should I make detailed notes for this subject or just read from handout?	For economy, the revision flow should be as follows: • Reading1: morning after the last night class • Revision1: before weekly test • Revision2: before the Mega Test (100 MCQ from all handouts) — 14th December 2026, end of PCB16 course • Revision3/4: February to May — paced via the Win27 series (starts Feb 2027, 2 classes per month till May). Use these twice-monthly Win27 classes as the vehicle for this round of revision. • Final glance before Prelims: glance over index pages of each chapter. Only if you cannot remember something, then go through the actual content. If you do more than this number of revisions, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. Make a similar plan for your other subjects too, so it fits into topic-wise tests and full-length tests as well.

This is covered in Pill#1A2 (Monetary Policy) — please watch that lecture again peacefully. One-line essence: an increase in CRR does reduce currency available for banks to lend (since more must be parked with RBI), but the CRR hike itself does not automatically reduce currency in circulation with the public in the same instant — the net effect is a contraction in the money multiplier and future credit creation, not a simultaneous offsetting shift in M0's currency component. Overall, a CRR hike is contractionary for money supply, not neutral. If still unclear after rewatching, note the specific step that confuses you.

D9423	tanya04	30/07/2026 17:13:59	Sir, how to use the weekly quiz and its results to analyse how to course correct/change the direction of preparation	After each test: go to Your Attempts → View Solutions and study the pattern, not just the score. Identify whether your errors cluster around: (a) not revising a specific chapter enough, (b) overthinking/hairsplitting on statements, (c) not reading the words carefully, or (d) silly mistakes like flipping correct/incorrect. For a more structured version, make an Excel file with columns: Question | Subject | Difficulty | Source (theory/current) | Right-or-Wrong — across a few weeks of tests, this will clearly show you which chapters or question-types are consistently weak, so you can direct your next revision there rather than revising everything equally. If you are in the top 50 percentile in mock tests, there is no need to take too much stress.

If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or

				YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa

Once you get a hang of it, it becomes fast to tick or skip answers. Since you're skipping questions because you're unable to understand them (not overthinking) — this points to incomplete grip on the underlying concept, not an elimination-strategy problem. Reading extra books like Laxmikant separately is not the fix here — first go back to the specific handout section for that topic and re-read it along with the lecture, since the lecture only gives an overview and the handout carries the full facts. If a

				concept is still unclear after that, note the specific step where you're stuck rather than re-reading multiple external books. Just focus on the lecture, revise the handouts, and give the weekly tests regularly, rectifying mistakes as you go. I am sure you will do well.

D9434	Santi Singha	30/07/2026 23:09:37	Sir, in my free time I work on coding a small homemade robot that can bring water or food and help with simple tasks. I enjoy building it, but sometimes I find myself thinking about the project during classes and while studying for UPSC. Should I continue working on it as a hobby in a limited way, or should I completely stop and focus only on UPSC preparation? Also, if I successfully build this robot and mention it as my hobby in the UPSC interview, would it be considered a positive point by the interview board?	People write many amazing hobbies in their DAF forms, it doesn't really matter much to UPSC panel because out of 30 minute interview maybe one or two questions maybe asked from it. So, unless you have won some international or national level award/ medal for it … but even then it is not like they will give you 50 marks for it, and you will get 50 ranks ahead of others. And more importantly if you are really serious about competitive exams, you should focus more on the memorisation to pass the prelims. All these hobbies should come afterwards. Papers are getting tough. Competition is becoming very hard. You must prioritise UPSC preparation above everything else.

If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. फिर भी आपको याद नहीं रहता तो अपने शब्दों में लिख लिखकर नोट्स बनायीये। This is a completely normal experience for a beginner — you are not expected to retain a topic permanently after one reading. This structured revision cycle is exactly designed to fix that, so stick to it rather than worrying that one reading isn't enough.
D9437	ayushmehan	30/07/2026 23:24:38	I just joined the course? Can I start with 1b1 and complete pillar 1a backlog parallelly?	Ideally, you should finish those things before sitting in the future classes. Otherwise, you will struggle to understand some interlinked concepts which are already explained. Also use the two built-in breaks in PCB16 specifically for backlog clearance: 17th–26th August 2026 (pause for Mains-2026 answer-key work) and 3rd–11th November 2026 (Diwali pause) — rather than trying to catch up on a regular live-class day.

Are they both correct ?	For eye strain reading the handout on mobile for long hours: use a laptop/desktop where possible — easier on the eyes and easier to make quick notes alongside. U can also use 'dark mode' / accessibility mode' to change PDF colors (search internet for it) If mobile is your only option, take a 5-10 min break every hour. On the book: my next printed book edition (Prelims economy only — Mains stays handout-only) is expected on Amazon in Late-August 2026. Better to wait for it than doing your own printout right now. (2) Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress

D9439	Soumya Mohanty	31/07/2026 08:05:12	I am a working professional preparing for OPSC. I completed Polity and Geography a few months ago, but didn't complete the State polity and state geography and I am currently studying Economy, Modern History, and Anthropology (optional).\n How can I effectively revise my completed subjects while continuing my current studies without compromising either? When and How should I start my start related subject preparation?	Revising completed subjects while continuing new ones is a normal part of the process — do not treat it as a compromise between the two. Set aside a fixed portion of your daily schedule (roughly 1-1.5 hours) purely for revision of Polity and Geography you've already completed, separate from your current Economy/Modern History/Anthropology study time. Do first revision through quick recall of your notes/handout index rather than re-reading in full — only go deeper into a topic if you genuinely cannot recall it. For State Polity and State Geography specifically: start these only after your core GS subjects (national-level Economy, History, Polity, Geography) and optional are on track — state-specific portions are best picked up in the final few months before the state exam, since they are relatively compact and factual, and don't need early parallel tracking.
D9440	Sayani	31/07/2026 08:19:52	Sir , aap jo handout de rehe ho wski line to line padni hai ? Yea PYQ main jo puch wo padna hai hand out main se wo padna hai	You have to read the entire handout, not just the PYQ portions. In the lecture I only give an overview of the topic — the remaining facts you need for the exam are covered in the handout itself, and the PYQs given at the bottom of each section are for practice and reference, not a filter for what to study. UPSC also frequently asks questions on aspects that were never asked before in PYQs — so treating PYQ-only portions as sufficient will leave gaps.

Since you have the PCB13 book, just update it with the appropriate Win## series — refer to the table at the bottom of mrunal.org/win26 for the correct update chain (PCB13 → Win26 → Win27) to bring it current. On weak background: no issue at all, my course is designed to cover everything from basics to advanced — there's no need for prior economics background. Just follow the lectures in sequence. On notes: no need to make separate notes for Prelims and Mains right now — focus on understanding and memorising the Prelims handout first, since Mains course (QEP9) assumes Prelims concepts are already clear. Cross that bridge when you reach the Mains course.

D9445	Richik Kar	31/07/2026 16:36:30	Sir in a pyq u said when Govt. borrows money from RBI, MS increases, because Govt. will give G.Sec to RBI and as a result Asset will increase and therefore on the liability side M0 will increase .. therefore MS increase, but how can govt. give G.sec to RBI, when RBI issues Govt-sec?\n When Govt. borrow money from RBI, RBI issues Govt-Bonds and sell in primary market and that results in extraction (suck) of money from the economy ... therefore MS decreases.. Isn't this the immediate effect. in the long run if govt does welfare schemes or gives subsidies/salaries ..it will increase MS .. but that is a chain reaction not an immediate effect .. sir kindly clarify. I am doing recording class\n reference : Lecture 10. Time 30:33.	You are doing chicken egg logic, and mixing of concepts. Please watch it again. And more importantly, you have to take the less bad option rather than searching for the perfect option, which may not even be available among the given options. You are conflating two separate transactions. When RBI conducts Open Market Operations (OMO) by selling G-Secs in the secondary market to absorb liquidity, that is RBI's own monetary policy tool — it reduces money supply, correct. But when the Government borrows FROM RBI (not RBI selling bonds to the market), the mechanism is different: Government issues new G-Secs directly to RBI (this is monetised deficit financing, distinct from RBI's OMO). RBI purchases these G-Secs as an asset addition on its balance sheet, and correspondingly credits the Government's account — a liability. When the Government then spends this money (salaries, subsidies, schemes), that money enters circulation, increasing M0 and hence money supply. So there is no 'suck money out' effect here — that only happens in RBI's own OMO sales to the market, not when RBI directly finances Government borrowing. The two are different balance-sheet operations. Watch Lecture 10 again around 30:33 with this distinction in mind.

Congrats on clearing the GPSC Prelims. GPSC main is not my area of expertise. As far as the state services exams are concerned, my economy course should help in • theory • the conceptual questions related to economy • national-global level economy current. e.g. GST, WTO etc. • But in the state service exam, if they're asking very microscopic general knowledge about state-specific schemes/state-specific events or Business general knowledge like who is the MD of which bank, et cetera then my course doesn't cover that. • I would suggest you make an Excel file and do topic-wise analysis of the state service exam question. It will help you get more clarity over it. • I would suggest you make an Excel file and do topic-wise analysis of the given exam question. It will help you get more clarity over it- how much is given in your present books/how much more you've to study from internet/other books. It is difficult for me to personally analyse such exams which are not conducted on a regular basis / applied by a large number of people across India- due to paucity of time and lack of YouTube-pageviews/ad-revenue from it.

I am currently seeking your guidance on my optional subject. While I enjoy solving practical accountancy questions, I am worried that the theory and management sections of the Commerce and Accountancy syllabus might be too lengthy. Could you please advise if I should stick to this subject or pivot to another optional entirely? Additionally, if I do choose Commerce, would you recommend Ranker's Classes or another coaching institute?	Since Commerce is your graduation background, stick with it — known devil is better than unknown devil. In CSE-2020: toppers with Commerce = 27/210 = 13% success rate, versus PSIR = 8%. Even if you didn't study it seriously in college, enough guidance and material is available today, and Commerce remains a decent-scoring optional overall. On theory/management sections feeling lengthy: that is true of every optional at some stage — there is no optional subject where you will like every chapter. Mock papers and even your own notes/PDFs are not a true benchmark by themselves. For CSAT specifically not clearing — that needs dedicated, separate practice; it cannot be an afterthought alongside GS revision. Prioritise CSAT practice now as its own subject, not something squeezed in. For managing recall across many subjects/PDFs: reduce to a fixed revision cycle rather than trying to revise everything constantly — Reading1 after each lecture, Revision1 before weekly test, Revision2 at course-end Mega Test, Revision3/4 closer to the exam via index-glancing only. Stop adding new material at this stage; consolidate what you already have.

D9464	@AtmanSingh18	01/08/2026 20:12:57	Sir, I want to appear in UPSC CSE Prelims 2027 and have enrolled in your prelims economy course (PCB16) through AAGAZ 2027 batch, but I am running a little late, as the course began on 16 July 2026. Should I continue with this course and complete the previous lectures or wait for a new course to come?	Continue with PCB16 and complete the backlog lectures — no need to wait for a new course. The syllabus is being taught pillar-wise in sequence, so you can catch up on the earlier lectures while the live class continues. Also use the two built-in breaks in PCB16 specifically for backlog clearance: 17th–26th August 2026 (pause for Mains-2026 answer-key work) and 3rd–11th November 2026 (Diwali pause).
D9465	Iqra	01/08/2026 20:23:36	Sir we have to learn all dates ,years and all portals	No, you don't need to memorise every date, year, and portal name in the handout word-for-word. Focus on understanding the concept and remembering the broad chronology/context — UPSC MCQs test conceptual clarity and application far more than exact-date recall in most cases. Portal

				names relevant to a scheme are worth remembering since they can be directly tested, but excessive rote memorisation of every date is not a good use of time.

I do not teach History as an optional myself, so for live class timing, please check the Optional Teacher List for the relevant educator's schedule: https://unacademy.com/content/optional-educators/ If a live batch hasn't started yet and you don't want to wait, you can begin with a recorded class from that educator's profile page in the meantime.

D9471	Mayank Tiwari	02/08/2026 13:06:55	Respected Sir,\n \n\n I hope you are doing well.\n \n\n I have been following your classes for quite some time, and I genuinely admire your teaching style. The clarity with which you explain every topic has helped me immensely. I have a few important questions regarding my UPSC journey, and I would be deeply grateful if you could kindly guide me.\n \n\n Sir, my educational background is a Diploma in Architectural Assistantship (BTEUP Polytechnic), which I completed in 2020 through regular mode. I also completed my Class 12 (Mathematics) through the MP Board in regular mode. Later, I pursued a Bachelor of Arts (B.A.) through private mode and graduated in 2023. The only reason for pursuing the B.A. was to become eligible for the UPSC Civil Services Examination.\n \n\n Since 2020, I have been working as a Junior Architect with the Varanasi Development Authority (on an outsourced basis). During these six years, I have gained valuable professional experience. Alongside my job, I have also built a good client base and earn a decent income through my private architectural practice.\n \n\n Sir, my first question is whether my educational background—regular Diploma, regular Class 12 (Mathematics), and a private-mode B.A.—could create any difficulty at any stage of the UPSC examination or during document verification.\n \n\n My second question is regarding my career. Should I	Thank you for your kind words — glad the classes have been helpful. On your educational background: mixed regular/private mode across different stages (regular Diploma, regular Class 12, private B.A.) is not unusual. There have been higher offers with similar background. It is not a handicap in interviews. Do not let it generate any inferiority complex in You. Q2) from what you have described, if you are unmarried and do not have any loan burden, then leave the job, prepare for one year full-time if still not clearing exam the start private practice and give remaining attempts with private practice. क्योकि वैसे भी outsourced jobs Will never give you the money or respect you desire in ur life तो उसको चिपके रहने में opportunity cost will be more. Besides you have already got enough experience in client bill, so you have nothing to lose . So I wish u all the best. Q3) regarding transition from Hindi to English medium, well, if you are doing the full-time on your preparation, there is more than enough time to catch up. ## ✍🏻 How to improve English for UPSC Mains Answer Writing? • NCERT Class11-12 sociology and political science. • NCERT Class11 India's economic development. • Chief editor preface of Yojana and Kurukshetra Magazines. • Economic survey chapters' introductions and conclusions. • Columns in theHindu/ Indian express. • C.Rajagopalachari's translated Mahabharat. • (pronunciation/idioms) Palki Sharma's News at 9PM on Firstpost Youtube On the offer of Guru Dakshina — thank you for the thought, but please don't

			leave my present job and prepare for UPSC full-time, or should I continue my preparation while working? Since I have already established my career to some extent, this decision is not easy for me. I would sincerely value your guidance based on your experience.\n \n\n My entire academic journey has been in Hindi medium, and I am now gradually shifting to English for UPSC preparation. I do not come from a very strong academic background. I simply study whatever you teach, revise it repeatedly, and try to follow your guidance with complete sincerity.\n \n\n Sir, becoming a UPSC topper is not just a career goal for me; it is a dream that I genuinely wish to dedicate myself to. This aspiration comes from my own conviction, not because of any family pressure. At times, when I see the level of competition and the exceptionally capable aspirants who have been preparing for years, I naturally wonder whether I am making the right decisions. That is why your guidance means a great deal to me.\n \n\n I humbly request you to kindly share your perspective. Your advice will help me make one of the most important decisions of my life.\n \n\n Lastly, Sir, I would also like to express my heartfelt gratitude for everything I have learned from you. If you permit, I would be honoured to offer Guru Dakshina as a small token of my respect and appreciation, both now and in the future.\n \n\n Thank you very much for your valuable time. I shall	send anything; other than the message when you clear the exam.

			patiently await your guidance.\n \n\n With deepest respect,\n \n\n Mayank Tiwari	
D9472	ashu	02/08/2026 20:48:03	sir economy smjh aa jati h agr ek bar me na aaye to dobara lecture dekh leti hun but yaad nhi rhtii ab m 2nd pillar me hun but ab muhe 1st pillar ache se yad nhi hai or jo 2nd pillar kr rhi hun usme mujhse facts yad nhi rhte or consistency kese maintain kru	For economy, the revision flow should be as follows: Reading1: morning after the last night class Revision1: before weekly test Revision2: before the Mega Test (100 MCQ from all the handouts) — 14th December 2026, end of PCB16 course Revision3/4: February to May — paced via the Win27 series (starts Feb 2027, 2 classes per month till May). Use these twice-monthly Win27 classes as the vehicle for this round of revision. Final glance before Prelims: glance over index pages of each chapter. Only if you cannot remember something, then go through the actual content. If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. फिर भी आपको याद नहीं रहता तो अपने शब्दों में लिख लिखकर नोट्स बनायीये। Forgetting Pillar 1 while doing Pillar 2 is exactly why Revision1 (before each weekly test) exists — it is a small, regular touchpoint that keeps earlier pillars fresh without needing you to re-study them fully. Follow this cycle consistently and the consistency problem resolves itself.

Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough.

				• Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa

Please tell me how to improve it? • It takes some time to get used to the way MCQs are formed in UPSC. It basically involves changing of certain keywords and going to elimination method. • Once you get a hang of it becomes very fast to tick or skip the answers. • Those getting poorer scores are because • a) Not revising properly → Then solution is obvious =you have to revise more • b) Overthinking / Birbal ki Khichdi/engaging in hairsplittery/lawyer-LLB type mentality/ thinking outside the photo frame. • c) Not reading the words carefully • d) Silly mistakes like Incorrect statement is asked but they are taking the correct statement • e) Mind is stuck elsewhere in WhatsApp Telegram Netflix , fight with siblings/parents, love affairs & breakups. so person is reading the handout / MCQ but he/she's not absorbing it properly. I am sure you will do well. Just focus on the lecture, revise the handouts and give the weekly Tests in regular fashion and rectify mistakes.

				When the first four pillars are over you will automatically see the big picture how everything fits together in the whole syllabus. Watch this Video for reasons behind poor score in quiz: https://www.loom.com/share/c86d3597b8e144d5a5163910dbdcf2a4

Limit total lectures to 5 hours/day across all subjects combined, and read handouts directly for topics you can grasp in 20 minutes rather than watching the full video for everything. Also, optional subject deserves first priority in your daily time allocation, since it carries 500 Mains marks — make sure GS subjects like Economy aren't squeezing out consistent daily optional time either. If Economy backlog is building specifically, use the built-in PCB16 breaks (17–26 August, 3–11 November) to catch up, rather than trying to keep pace with the live class on a regular day.

Please go through the deadline discussion at the 20m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R • Your old YouTube-based notes are not the right thing to build your revision around now. Follow the structured PCB16 handout and its revision flow instead — Reading1 (morning after lecture), Revision1 (before weekly test), Revision2 (Mega Test at course end), Revision3 (April-May), Revision4 (index-glance before Prelims). • The live notes-making done in class is a supplement, not a substitute for the handout — it helps with engagement and memory during the lecture, and also builds writing stamina useful later for Mains. You still have to read the PDF handout, since it contains all the facts required for the exam. For revision — in Wednesday tests, monthly tests, and at exam time — revise from the handout, not the running notes.

D9487	Ridham Solanki	02/08/2026 23:10:24	Namaste sir , I have confusion how to read Economy NCERT as a Begginer , kindly help for sequence to read.	No need to study NCERT separately or worry about a reading sequence for it. My course covers everything from NCERT-level basics to advanced theory, current affairs, budget, schemes, and PYQs — you have to finish the entire course, Prelims and Mains, till December. Watch the 4m timestamp of the Economy Intro & FAQ class (17th July 2026) for more: https://unacademy.com/class/economy-intro-faq-about-course-1a1-money-vs-barter/WWV5NS89

D9489	Prashant Dwivedi	02/08/2026 23:11:43	how to revise handouts in less time	For economy, the revision flow should be as follows: Reading1: morning after the last night class Revision1: before weekly test Revision2: before the Mega Test (100 MCQ from all the handouts) — 14th December 2026, end of PCB16 course Revision3/4: February to May — paced via the Win27 series (starts Feb 2027, 2 classes per month till May). Use these twice-monthly Win27 classes as the vehicle for this round of revision. Final glance before Prelims: glance over index pages of each chapter. Only if you cannot remember something, then go through the actual content. If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. Make plan for other subjects in similar fashion, so that it fits into the topic wise test, full length test etc. as well. फिर भी आपको याद नहीं रहता तो अपने शब्दों में लिख लिखकर नोट्स बनायीये। Now shift your focus to other subjects — more economy revision beyond this point will give diminishing returns.
D9490	Laxmi	02/08/2026	How to update notes for 2027 exam	There is no separate 'notes' object to update for 2027 — your PCB16 handout

		23:20:23		itself is being updated live as per current affairs, budget, and Economic Survey through the course. Once the course ends in December 2026, further annual updates come free every year via the Win27 series (Feb-May 2027, two classes per month). Follow the standard revision flow — Reading1 next morning, Revision1 before weekly test, Revision2 at Mega Test, Revision3/4 via Win27 in feb 2027 — and your material stays current without any separate note-updating exercise.
D9491	Rockybhai	03/08/2026 00:25:34	Sir having little confusion to understand course timing. The running PCB 16 batch will run till dec-2026, and QEP-9 batch will start at 27th august 2026. So my question is will this PCB batch will get completed before QEP or both will be running together?	They're running parallel. PCB16 (Prelims) runs 16th July to 14th December 2026. QEP9 (Mains) starts 27th August 2026 and runs to 15th December 2026. So the two will run together, overlapping from late August onward — this is by design, since PCB16 and QEP9 are meant to be taken in tandem for the 2027/28/29 cohorts. However, for my economy courses specifically, you have to finish Pillar-1 of Prelims before attending Pillar-1 of Mains and its mock test (same pattern for each subsequent pillar) — so within a given pillar, Prelims comes first, then Mains.

		10:54:12	the topics using the handouts. Although I understand the concepts well, I still feel that I am lagging behind. My biggest challenge begins when I try to make notes from the handouts. I know the handouts are bulky but they are comprehensive and easy to understand. Even so, I feel inferior and anxious when I rely on them instead of preparing my own notes, which makes me question whether my study approach is effective.	making your own notes is not a weaker study approach. The handout already contains all the facts required for the exam, so re-writing it into separate notes mostly just consumes time without adding value. The live notes-making done during class is a supplement, not a substitute — it helps you stay engaged and retain the outline while watching, and also builds writing stamina useful later for Mains. But your actual revision and memorisation should be from the handout itself: first reading the morning after the lecture, then before the weekly test, then at the Mega Test, and so on. If you are understanding the concepts well and following this flow, you are not lagging — you are doing it correctly.

D9504	Abhinav Singh	03/08/2026 22:23:45	Sir, currently I'm working as an Asst. Audit Officer(AAO) (Indian Audit & Accounts Department) Under C&AG of India. Around 5 to 6 years back, I was seriously preparing for the UPSC CSE Exam, appeared for prelims but could not cleared and then due to some circumstantial issues I moved towards preparation of SSC CGL, in which later on in 2023 I got selected as AAO. Since then I'm working as AAO (around 3 and 1/2 yrs). Now, I again want to prepare for the UPSC, I'm 29 years old as of July'26. The working hours of the job is 09:00 to 05:00. Sir, I want to appear in CSE Exam 2027 and started covering the syllabus, although I've already studied all the subjects once, including my optional. Sir, I want to ask will I be able to complete the syllabus and revision...before prelims 2027. What should be my strategy, please guide me Sir(in detail).	Since you've already been through the syllabus once, you can use the 20-minute rule: if you can grasp a topic by reading the handout in 20 minutes, skip the full video and read directly — reserve video-watching for genuinely new or tricky sub-topics. Limit lectures to 5 hours/day; use office breaks for newspaper reading and mornings for focused subject study. Complete optional and most GS by December 2026, so the remaining months are pure revision, not fresh syllabus. Do an Excel sheet PYQ analysis of the last 3-5 Prelims papers with columns: Q | Subject | Difficulty | Source-mapping | Theory/Current. This will show you exactly where you are lagging and let you prioritise your limited working-hours-adjusted study time precisely.

			Thank you.

One newspaper is enough. For editorial-level vocabulary building, watching news analysis on YouTube is not a substitute for reading the newspaper editorial yourself — the reading practice itself is the point. • Yes, live sessions for each subject run again every year in the new batch cycle (e.g. PCB16 now, PCB17 later) — you don't need to attend 5-6 live classes daily. Limit yourself to 5 hours of lecture per day; use the rest of the time for reading and self-study. If you cannot attend everything live, watch recordings at your own pace. 				• Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. 			subject . And also along with economy I'm attending indian geo & world maps classes so is that right way .... to study like this.?	First focus on core GS subjects like history, geography, political economy. Optional-completion deadline for you: December 2027 (December of the year before your target year, not the generic Dec-2026 milestone used for 2027 students). Use this college time for two things: (1) extracurricular activities/certificates for your interview biodata (NCC, NSS, debate, youth parliament), and (2) get minimum first class (55-60%) in your college exams — several Plan-B exams like RBI Grade-B/UGC NET require this minimum. On attending Indian Geography and World Maps alongside Economy: that is a reasonable way to study, provided you're staying within the 5-hour/day lecture cap and using the rest of your time for reading and self-study, not adding more video hours on top.
D9512	Anup Sharma	03/08/2026 23:12:26	Hello sir, main currently 4 Gs kr rha hu iss month me aur full time preparation kar rha hu filhaal, like subah 8 se 12 tak physical geo and medieval history recorded dekh rha hu latest break and rest ke saath uske baad newspaper read and your HDT, then rest and gym for 1 and half hrs use baad Polity 4.30 se 3 hr ke liye then break and 9 pm yours lecture , aur din bhar me jab time milta h revevision kr leta hu \n \n\n kya ye sahi h sir jaise ki apne bataya 5hr lecture is enough but If 5 hr then yours and Siddhart sir polity only can take 5 hr \n \n\n Sir phir main jo kr rha hu wo sahi h kya sir ??\n \n\n Thank You	The 5-hour lecture cap is meant to apply across all your subjects combined, not per subject. Looking at your schedule — recorded Geography/History in the morning, Polity for 3 hours, and my class at 9pm — that is already close to or over 5 hours of video content in a single day, even before counting revision. Better approach: pick 2-3 subjects to actively progress on video-wise each day rather than running four in parallel (Geography, History, Polity, Economy). Rotate which subjects get lecture time on which days, and use the freed-up hours for handout reading, revision, and newspaper — not more video.

And can take in backup for masters in mass media and journalism for assistant professor .And also other than that govt. exams what can i do in life for livelihood because every day in newspaper news come about exam leak like lekhpal , ssc other than that .\n Thank you Sir for respond	• Yes, you can enroll in and attend multiple subject classes across morning and evening (Geography AM, Economy PM) as long as your total lecture hours stay within the 5-hour/day cap, with the rest of the time for self-study. Since your target is 2027 if syllabus permits and 2028 otherwise, and your focus is on grasping concepts solidly rather than racing through, that approach is fine — there's no need to add World Geography right now if it stretches you thin; you can pick it up later without losing anything, since it will run again in a future batch. • With a DU Political Science Honours background, Public Administration doesn't have the same direct overlap PSIR does with your degree. Given your graduation subject, PSIR is the closer background match — you already have theoretical grounding for a good chunk of PSIR Paper 1. Go through both syllabi and a few PYQs to confirm before finalising: https://unacademy.com/content/optional-educators/ • Outside government exams, with a Political Science background and a Mass Media/Journalism Masters as backup, teaching (assistant professor via UGC NET) and journalism/media roles are reasonable options. I won't be able to give you a comprehensive non-exam career roadmap here, but your combination of degrees does keep multiple doors open — it isn't a dead end if UPSC doesn't work out.
D9517	VIVEK KARMAKAR	03/08/2026 23:30:38	Doubt Regarding OPTIONAL,\n \n\n Sir, myself Vivek Karmakar, willing to attempt in 2027 as first attempt. I started my preparation from the end of 2025 and\n I had done\n Geography (Indian, World, Environment, Maps) from Sudarshan Sir, \n Modern History from Pratik Nayak Sir\n Polity from Siddharth Arora Sir (but this one is from youtube)\n	You've named your own graduation subject (English) as a candidate, but you've also said you didn't read it well and found yourself less interested in it — that combination (weak background + weak interest) makes it a genuinely risky pick for English Literature optional, coaching or no coaching. This is not a subject where enthusiasm can be manufactured after the fact; it takes real command over literary texts and criticism.

			But sir my preparation boosted when I purchased subsription on 6th Jan 2026.\n I am confused that when should I start learning for optional paper, and which optional should I choose. My graduation's subject is English but I did not read it well in graduation and also I found myself less interested. Also I used to give home tuitions (about 5hrs daily).\n Sir I dont like to watch any youtube because the teachers of mine are more skilled than anyone there.\n \n\n Sorry Sir, I know this is one of the common doubt from every student but the only thing I expect from my best teacher to guide me.\n Thanks Sir, Aapke HDT aur teaching style maine first time dekha hai aur mai bhi aapke ish organised way ko khud follow bhi karta hu to teach my students.\n \n\n Thank You.	At least shortlist 2-3 optional subjects based on any other interest or exposure you do have, and then come back with this question. The 16th July first lecture dealt with this problem: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R (1h58m timestamp: optional subject selection tips).
D9518	Ayushi Agarwal	04/08/2026 01:49:01	Dear Sir\n \n\n I am not getting any answer writing track for sociology optional. There are live classes, but being in Iconic subscription including optional, it would have been nice to have a separate daily answer writing with evaluation. \n \n\n Additionally, answer writing could be more organised please. One works better with a schedule and deadlines, esp those of us who have left jobs and then are preparing. The current tracks do not have a clear schedule or syllabus coverage. \n \n\n Would help a lot if we had paper wise breakup of the same \n \n\n Thanks	I will forward your feedback to the concerned officials.

D9520	Sunny_2027	04/08/2026 12:44:05	Sir when to read THE HINDU BOOK OF EDITORIALS and how much will you rate it out of 5 star for both Preliminary and Main Examination?	The Hindu Book of Editorials is a supplementary vocabulary-building resource, not a core requirement — my handout already covers the theory and current affairs content you need for both Prelims and Mains. If you have spare time and want to strengthen your language and argument structure for Mains answer writing specifically, you can read it — ideally once you're deep into Mains preparation, closer to when you're actively doing answer writing (not right now at the theory-building stage). It is not something to prioritise over completing the syllabus. I'll give it zero star for prelims, and 3-4 stars for mains.
D9521	Sunny_2027	04/08/2026 12:46:31	Madhukar Sir mentioned that his CSAT Course will start from 17 August. I am already watching 2 GS and 1 Optional classes in a day... so if I will not start CSAT now I think I will lag behind like madhukar sir mentioned if you complete in next 4 months, revision after January will make your chance.	How quickly should a person complete The Csat? depends on two factors (i) whether he is preparing for the Bank/CDS and other exams that come in the November season and (ii) is he so weak that he cannot manage it in the future CSAT Batches that usually come in December? Take decision accordingly.
D9522	Nihal Pandey	04/08/2026 12:50:09	Sir, I had attended the Sociology Optional classes at the Unacademy Centre under the guidance of Apurva Mehrotra Sir. I wanted to revise the last two chapters of Paper 2 through the recorded classes. However, since the Centre has now been closed, I am unable to access those recorded lectures on the app.\	3 day trial was available only for GS and not optional category. Check the present line up of our optional Teacher at Optional Teacher List https://unacademy.com/content/optional-educators/

			n \n\n I also tried accessing the Centre's recorded classes during the 3-day free trial, but unfortunately, the lectures were not playing even during the trial period.\n \n\n Could you please guide me on how I can access the Apurva Mehrotra Sir Sociology Optional classes for these last two chapters? I would be extremely grateful for your help, as I specifically want to revise these topics through the lectures.	Lastly, I have forwarded your matter to the concerned team. Please pick up their email, WhatsApp, or call from random unknown numbers / spam folder.

My Win series covers only Economy current affairs — it is specific to my own subject, not other GS subjects. For current affairs in other subjects, Plz check respective teachers courses/ free classes and also 1) Download the current material from https://unacademy.com/content/upsc/downloads/
D9524	Sunny_2027	04/08/2026 17:55:01	I am attending live classes Polity Course of Sidharth. But he says to watch lecture 3 times + he is also taking special (free) class for question practice. Is it necessary?	This is a call for Siddharth sir to make regarding his own course structure and teaching approach — I would not be the right person to comment on whether another educator's specific recommendation (watching 3 times, additional free classes) is necessary or not. If it fits your schedule and helps you retain Polity better, go ahead; if you're pressed for time, use your own judgment on how many repetitions you personally need.

D9526	Ashiya	04/08/2026 20:11:46	Sir humko na kuch smjh nhi aa rha ki hum kya kare avi modern history start kiye h pratik sir ka sir padhate h to chahe to unka lecture attend hoga ya fr hum unka class notes sirf bna paayenge together dono kaise handle kare \n \n\n Kya jo handout mein h use yaad Krna padega ya fr srf smjhna kaafi h \n \n\n Exam ki wajah se backlog v ho gya h IR , economy, modern history ka v in sab ko kaise manage kare sir	हर चीज़ की नोट्स बनाना ज़रूरी नहीं है। जहाँ तक आज़ादी/ आधुनिक भारत की बात है बहुत सारा मटीरियल तो स्पेक्ट्रम में दिया है। उसी को आपको रटना है। उसके ऊपर जो थोड़ा बहुत mains के लिए नया पढ़ना लिखना पड़ी उतना ही आपको नोट में लिखना चाहिए. जो चीज़ पढ़कर याद रह जाए उसको लिखने की ज़रूरत नहीं है। For your Economy backlog specifically: PCB16 has two built-in breaks you can use to catch up — 17th-26th August 2026 (pause for Mains-2026 answer-key work) and 3rd-11th November 2026 (Diwali pause). Use these windows to clear pending Economy lectures and handout reading rather than trying to catch up on a regular class day. For IR and Modern History backlog, apply the same principle — don't try to catch up during regular live-class days; use dedicated backlog-clearing time instead. I am overwhelmed by lectures, I'm too much worried about current affairs, i've time management problems, i've backlogs, I do not know which subjects

				to complete first and so forth. All this enquiry, my answer is: Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study.

				• Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa
