Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।
1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice.

		Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what

		RBI said in press release vs what UPSC asked…. There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	"For M0 to M4, What was the important for exam is explained in class. Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "

1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts? 3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this. 3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December

1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image showing Shaktikanta Das . Please sir rectify.	I have already issued the clarification on top of 1A2-B handout ke this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.
1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆️ hoga to inflation auto!atic ⬇️ hoga. But at current hardly some cases of being dependent of	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary

	loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly. Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations…please move to next topic, if u value ur time.
1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right? so the net amount that the banks had with them would stay the same,	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.

	wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ
1C	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in

	not consier facebook as an angel investor ??	exchange for equity or convertible debt — done outside of any formal company structure. Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.
1C	SDF (Special Drawing Facility) should be classified as secured loan? Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	Page 187 (PCB16)- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. so, There is no need to fuzz over this pedantry too much. you've to tick based on what is asked in the options. if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense. if they specifically ask in context of a particular instrumental, then you have to tick accordingly There is no need to read every line like some kind of Supreme Court lawyer to find the faults and exceptions in every word. Otherwise, you will get the answers wrong.

WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt.

				• If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa
D9651	12/08/2026 20:09:34	Tushar	Hi sir, this side Tushar. I started preparing in August 2023. I first prepared my optional that is History and in 2024 I lost my elder brother.So 2025 was not a good year for me I tried but not able to study consistently and another reason was I got misguided that first prepare mains till december and in mid feb 2026 I realised that my basics are not good.I asked my parents also that I want to skip this attempt but they said may luck favours you.\nAfter 2026 attempt I discussed about the exit plan(CAT)but I did not give my best.So,I Said to myself that I will give 2027 attempt(3rd) but I want to change my optional.PSIR or sociology. \nI am confused because psir will take more time than sociology. Kindly guide me. \nThankyou sir\n	Sorry to hear about your brother. That must have been very difficult, and it is understandable that 2025 did not go as planned. On the optional subject x is lenghy and y is shorter = myth and course selling gimmicks hai. You should observe the syllabus, previous question and some sample books before taking decision. Focus now on completing the syllabus honestly for this attempt. All the best.

D9652	12/08/2026 20:12:25	Gunjal Vanzara	Sir recently i am pursuing M.A. in Economics...sir question is to uhh that Dec 2026 i want to give UGC NET and targetting jrf for my further financial stability...and also want to cover upsc syllabus simultaneously...\nAccording to your guidance what should i do sir?? This stage is very confusing for me..and there are also some family financial problems please sir guide me🙂\n	This is a valid Plan-B combination. UGC NET/JRF and UPSC preparation overlap significantly for a subject like Economics, so you are not really riding two horses here — the same conceptual base serves both. given MA Econmics u should also prepare for Indian economic service Exam of UPSC. all the best.
D9653	13/08/2026 08:26:16	Khushboo Kumari	Hello Sir, I need your help regarding my Unacademy subscription extension. The team is refusing the 6-month extension because I didn't appear for Prelims. I had filled the form and had my admit card, but I didn't attempt the exam because my preparation wasn't sufficient. This condition was never clearly informed to me; otherwise, I would have attempted the exam. I was told that my subscription would be extended by 6 months if I couldn't clear UPSC CSE 2026. I kindly request you to please consider my situation and help me get my subscription extended. I would be really grateful for your support.	I've forwarded your matter to the concerned team. D9658	13/08/2026 21:27:58	Divya	Sir like some people pay home insurance for their convenience during house related issue but what if anything never happen to their house?	This is the basic nature of insurance — you are paying for risk protection, not for a guaranteed payout. If nothing happens to the house, you don't get anything back (unless it is a specific return-of-premium plan, which costs more). The value is in protection against a low-probability, high-loss event — not in getting your money back.

D9660	13/08/2026 22:01:50	Sourav Asija	Sir , I have gone through your recorded class not live that too in 2022 PCB 6 and prepared notes as well .I am working in TCS and 27Y old and given 1 attempt unluckily in 2026 and got 58 marks (gen category) . I have completed my sociology optional and notes are also ready , My doubt is , can you guide me whether shall i see your live classes or recorded class at 1.25x because it make my discipline and gives me a target to watch and appear in weekly test . I tried to read handouts and gave Weekly test , marks were not good 50 percentile and now if i am watching lecture and revising handout i am getting good score and getting more confidence . What do you suggest shall i watch each lecture or seldom watch lecture and focus on other subject ?\nmostly my job working hours are 10am to 7:30 PM and weekend off	Since watching the lecture + revising the handout is clearly giving you better scores and more confidence than handout-only reading, stick with that — do not force the self-study shortcut just because it feels more time-efficient on paper. The 20-min-read rule (R42) is meant for students who have a strong foundation since the school time and are already scoring well without lectures; that is not your current situation. Given your work hours, live class at night may not be practical — recorded class with the weekly test as your discipline anchor is a sound approach. Keep doing what is working.

Please sir give me some strategies to improve my learning. My target year is 2029.	On learning in one reading: this is common and expected in the first pass. The process is Reading1 (morning after lecture) → Revision1 (before weekly test) → Revision2 (Mega Test at course end) → further revisions closer to your exam. You are not meant to retain everything from the first reading — retention builds through the revision cycle, not the first pass. With your 2029 target, you have ample time for this to settle in properly. रिवीज़न ज़्यादा कीजिए।

D9667	14/08/2026 10:51:09	Lalbabu Yadav	Mujhe sir notes chaiye aapka hindi me	A 100% pure Hindi handout is not possible right now due to time/staff constraints, and economy as a subject becomes harder to follow in pure Hindi. A 50:50 English-Hindi version is also not feasible — it would increase page length and make revision harder. Important keyword translations are already included in the handout. Only note down something if it is uniquely relevant to your optional subject, your domicile state, Ethics, or Essay — otherwise skip it. On UP PET (Lekhpal, Group C, 12th-pass exam): this is quite different in scope from UPSC CSE. If your priority genuinely is financial stability, it is fine to attempt it, but go through its previous question, so that you have better idea of how much separately you need to prepare.

D9671	14/08/2026 20:04:10	Harsh Verma	Sir i have started my preparation from 16 july,2026. Sir i wanted to ask ke handout kis tarike se padhe/learn kre ke exam mein maximum question correct kre. That is sir handout is lengthy, kya hume each every point,year,date and examples learn krne hai ?i mean which topics to be thoroughly learned and which topics to read single time sir how do i decide.	You don't need to memorise everything word-for-word, date-for-date. The lecture gives you the overview; the handout has the facts to memorise — but focus your memorisation effort on core concepts, schemes, numbers, and PYQ-tagged portions (PYQs are given at the bottom of each section for a reason — they show you what UPSC actually asks). One-off examples or illustrative anecdotes don't need memorisation, just understanding. With revision (Reading1 → Revision1 before weekly test → Revision2 at Mega Test → further rounds later), you'll naturally start distinguishing what's core vs peripheral.

What strategy should I follow at this stage? Also, I'm in my third year of a BA. Which degree should I pursue now? At first, I thought I should do an M.A., but then I feel I should also have a Plan B in case I don't clear this exam. I am very confused—please tell me what I should do?\n\n	No need to prepare current affairs separately from any monthly magazine or newspaper compilation for economy — it's covered in the course. For general UPSC current affairs, the free Unacademy Articulate magazine is sufficient: https://unacademy.com/content/upsc/downloads/. Daily newspaper habit (30 min) is still useful for vocabulary, not for note-making. On MA vs Plan-B: this is your own call, but generally — if you can manage financially, complete graduation (BA) first, and decide on MA only if it genuinely helps a specific Plan-B (like UGC NET/teaching). Don't pursue MA purely as insurance if it eats into serious UPSC prep time.

Once you've narrowed to 2 options and your gut instinct picked one, do not keep re-reading and second-guessing unless you find a specific factual reason to change it. With more revision and practice, this overthinking naturally reduces — it is not a permanent flaw, just an early-stage habit.

Initially question dekhte hi lagta hai ki X option correct hai, but phir overthinking ki wajah se Y bhi correct lagne lagta hai. End mein hum apna initial answer change karke Y mark kar dete hain, but test check karne ke baad pata	This is the classic overthinking trap — changing a correct first instinct to a wrong one after unnecessary second-guessing. Once you've eliminated 2 options and picked one based on your initial reading, don't flip it unless you spot a concrete factual reason. Trust the elimination logic over a vague 'feeling' that creeps in on a second look. This improves naturally with more practice and revision — it is not a permanent flaw.

Given your health constraints and reduced time, don't try to do everything (class revision + notes + PYQ + answer writing + PIB) in parallel — that is what's causing the overwhelm. Prioritise in this order: (1) revise your existing notes, (2) do PYQs pillar-wise as you revise, (3) start Mains one-pager/answer-writing only after Prelims revision is in a reasonable place — don't chase a fixed 'by when' deadline for Mains notes; let it follow after Prelims. 				On your low score (30/98) despite revising the handout: it's not enough to read the handout — the score gap usually means the reading isn't converting into recall under exam conditions. Go through 'your attempts' → 'view solutions' for this test, identify the specific pattern of mistakes (concept gap vs recall failure vs silly mistakes), and revise that specific gap rather than re-reading the whole handout again. > I'm getting very poor scores in the weekly economic test on Wednesday. Please tell me how to improve it? • It takes some time to get used to the way MCQs are formed in UPSC. It basically involves changing of certain keywords and going to elimination method. • Once you get a hang of it becomes very fast to tick or skip the answers. • Those getting poorer scores are because • a) Not revising properly → Then solution is obvious =you have to revise more • b) Overthinking / Birbal ki Khichdi/engaging in hairsplittery/lawyer-LLB type mentality/ thinking outside the photo frame. • c) Not reading the words carefully • d) Silly mistakes like Incorrect statement is asked but they are taking the correct statement • e) Mind is stuck elsewhere in WhatsApp Telegram Netflix , fight with siblings/parents, love affairs & breakups. so person is reading the handout / MCQ but he/she's not absorbing it properly. I am sure you will do well. Just focus on the lecture, revise the handouts and give the weekly Tests in regular fashion and rectify mistakes.

D9704	17/08/2026 01:21:19	Bhagya Shree	I am currently working as a Group-B Government Officer in the State Government, with an engineering background. Although my job does not require extensive preparation for General Studies, I have relatively limited exposure to the GS subjects outside the examination-oriented preparation.\nI will be turning 32 in June next year. As a General Category candidate, UPSC CSE 2027 is likely to be my last eligible attempt, subject to the eligibility conditions applicable in the official notification.\nI started preparing for the UPSC Civil Services Examination for the first time this year, from 16 July 2026, through the AAGAZ-2027 batch. My tentative target is to complete the entire GS syllabus by February 2027 and Sociology Optional by December 2026 at the latest.\nAlongside UPSC, I also want to appear for State PSC examinations. Although the	Given your relatively flexible work schedule and the amount of study time you're describing, continuing seriously with UPSC CSE 2027 as your primary goal is a reasonable and worthwhile decision — this is not a case where I'd suggest shifting primary focus to State PSC. Keep State PSC as a genuine parallel option (it overlaps significantly with GS preparation), but do not let it dilute your UPSC-focused time. On the workload: Sociology by December 2026 and full GS by February 2027 is an ambitious but achievable target if you protect consistent daily hours — the household responsibilities and job will always compete for time, so the discipline is in ring-fencing a fixed daily block (e.g., mornings) purely for Optional/answer-writing, since that tends to get squeezed out first. Given this is your last eligible attempt, treat that ring-fencing as non-negotiable rather than flexible. 			particular work culture in my office is relatively flexible and allows me to study for most of the day. Therefore, I have a reasonable amount of time available for preparation despite being a working professional. Still ,I am currently finding it difficult to effectively manage Optional preparation and answer writing along with household responsibilities, attending 2–3 GS classes every day, and revising previously covered topics.\nConsidering that I have a relatively flexible work environment and can devote most of my working day to studying, I am trying to assess whether I should continue with UPSC CSE 2027 as my primary goal. At the same time, since this is my last attempt and I am starting my preparation relatively late, I am concerned about whether I will be able to complete the GS syllabus, Sociology Optional, answer writing, revision, and test practice to the required level within the available time.\nI also want to keep State PSC examinations as an alternative/parallel option. Therefore, I would appreciate an objective assessment of whether it is practically feasible for me to continue seriously with UPSC CSE 2027, particularly considering the additional demands of Mains Optional and answer writing, or whether I should shift my primary focus towards State PSC examinations, which may be comparatively	Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube.

Please go thru my advice at the 14m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R then, • Your first priority should be to complete the subjects such as economy, polity, history, geography, environment and science. • All the good teachers already incorporate large amount of current affairs inside their course it self for example my economy course. • So beyond that, very fractional amount of current affairs need to be prepared by yourself. and even that is covered free of cost through special classes e.g. my win27 free series next year for economy. • Additionally, you can take help of the monthly current affairs magazines such as this https://unacademy.com/content/upsc/downloads/ • for completing the current affairs of earlier months.ideally for pre-2027, u should read from 1/1/2026 onwards ke magazines (=two calendar years). • there is no need to make a Notes out of current affairs as such because most of the free monthly magazines will be covering it. However, if you find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it

				down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? Unacademy is like five star hotel so it provides all the facilities depending on the requirement of the customer. For example, welcome drink is given in the lobby and you're not thirsty, then you don't have to drink it. If you're thirsty, you should drink it. D9711	17/08/2026 14:11:38	Vishal Raghwan	Stable coin Libra jo ki gold price ke saath chalta hai aur RBI Soverign Gold Bond Me kya antar hai ?	Libra-type stablecoins are private, non-government-backed digital tokens designed to track an asset's value (e.g., gold or a currency basket) — they carry counterparty/regulatory risk since they're issued by private entities, and most jurisdictions including India do not recognise them as legal currency. RBI's Sovereign Gold Bonds (SGBs), on the other hand, are government-backed securities denominated in grams of gold, issued by RBI on behalf of the Government of India — they carry sovereign guarantee, pay periodic interest, and are a recognised investment instrument. The key difference: SGB is a regulated government liability; Libra-type stablecoins are private, unregulated, and not government-backed.

Yes, the same principle applies to economics — briefly go through all options in a PYQ even after you've found the correct one, since UPSC often recycles the incorrect options as separate questions or statements in future years. It doesn't need to be a deep dive — just enough to recognise the concept if it resurfaces.

D9721	19/08/2026 06:57:45	Dipak Raut	Good morning respected sir \nOptional ko le kar tension me hoo sir kya kro kisi subject me intrest hi nhi aa pa raha hai koi chhota sa optional bata dijiye \nHindi medium ho \nKya kroo kuchh samajh nhi aa raha hai sir please	At least shortlist 2-3 optional subjects and then come back with this question again — even a rough sense of what mildly interests you is enough to start. 16th July first lecture dealt with this problem: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: 1h58m — optional subject selection tips. For Hindi medium specifically, Geography and Sociology tend to be better-supported options with more Hindi-medium material and coaching availability — you could start exploring these two first.
D9722	19/08/2026 12:49:25	samridhi suman	\nHello Sir,\n\nMy subscription is going to end after this week, so before that, I just wanted to sincerely thank you for everything. I am genuinely very grateful to you, Sir.\n\nThe way you teach is truly amazing. Your teaching style, the effort you put into every slide, and the way you explain even difficult concepts are honestly top-notch. Through Unacademy, I have completed around **860 lessons**, and 900 test and i will continue this test series until i clear upsc cse your classes have played a very important role in my preparation.\nThere is one thing about you that has always inspired me beyond academics — your discipline.\n\nI still remember when you were unwell, but you still	Thank you so much for your kind words — genuinely glad the classes and the discipline have helped you on difficult days. All the best. On how to proceed: with 860 lessons and 900 tests done, you clearly have a strong base. From here- depending on how long is the family paticence and support, either continue targeting 2027 prelims or focus on other exam exams like RBI, EPFO, NABARD, statePSC etc.along with Mains/optional till Dec'27 and then Resume to pre-centric revision. .

			came and taught us for 45 minutes without taking a leave. That stayed with me. Whenever I feel very low or don't feel like studying, I remind myself of that and at least get up and study for 45 minutes. It has helped me on many difficult days.\n\nI also really admire the way you follow your schedule and maintain consistency. It has taught me that discipline is not about feeling motivated every day; it is about showing up anyway.\n\nSir, I wanted to ask you one important thing before my subscription ends:\n\nHow should I proceed with the rest of my UPSC preparation? How should I revise the topics I have already completed, and what should I focus on from this point onwards?\n\n\n\nI genuinely want to follow your guidance and do whatever you suggest.\n\nThank you so, so much, Sir, for all your efforts, guidance, and for inspiring us not only through your teaching but also through your discipline.\n\nGod bless you and your family always. ❤️\n\nThank you once again, Sir.\n	
D9723	19/08/2026 12:58:21	Vishal	(1)If CRR and SLR were already in place as regulatory requirements, why was CRAR introduced? What additional purpose does CRAR serve?\n\n(2)There was already a 90-day NPA classification rule in place. Then why was the Insolvency and Bankruptcy Code (IBC),	• CRR/SLR are liquidity and monetary-policy tools (control money supply, ensure banks hold safe/liquid assets) — they don't measure a bank's ability to absorb losses. CRAR (Capital Adequacy Ratio) is a global std set by BASEL committee specifically ensures a bank holds enough capital relative to its risk-weighted assets to absorb unexpected losses without collapsing — a solvency measure, not a liquidity one. Different purpose entirely.

			2016 required? What additional purpose did the IBC serve?	• The 90-day NPA classification rule only identifies that a loan has gone bad — this definition is meant for diagnosis, not treatment. it doesn't provide a time-bound resolution or recovery mechanism. therefore we have separate laws such as SARFAESI and IBC as medicines high blood pressure is means 130/80 mmHg or higher. Then why do we have medicines when we already have the definition "130/80 mmHg "? Because medicine meant to solve that problem, which is diagnosed by that definition "130/80 mmHg ".
D9724	19/08/2026 19:58:22	SAHIL	Sir Mere Test me Negative marks ki wajah se Marks down ho rha , Sir Mein 6 questions mein Doubt mein tha ki attempt karu yaa nhi , Usme se 3 sahi hue or 3 galat hue or sir Mein Kuch questions mein 50:50 Par aa jaata hu but Woh bhi Sahi kam hi hote h sir ky karu ?	This is a common pattern, not a flaw in your knowledge — it's an elimination/confidence issue. For genuine 50:50 doubt-questions where you have zero information edge, skipping is statistically safer under negative marking, since your hit rate is below the expected-value breakeven (need >expected value from partial elimination to justify attempting). Only attempt a 50:50 if you can eliminate down to it using strong domain logic — not a pure guess. With more revision, some of these 50:50s will convert into confident answers over time; until then, be more selective about which ones you attempt.
