Mrunal’s Books vs Handout

No need to buy the book, unless facing eye strain in reading pdf on screen.

Book edition	Contains	What free updates do i need to get from Mrunal.org/win26
PCB12	Theory Plus updates till Dec’24	BOTH Win25 + Win26 updates needed Win26 to start from feb’26. Stay tuned to page Mrunal.org/win26 **single combined PDF of Win25 you can download from DROPBOX LINK**
PCB13	Theory Plus updates till May’24	ONLY Win26, starting from Feb’26. No need for Win25/24 etc older update packs. See page Mrunal.org/win26
PCB14 release skipped	Theory plus updates till Nov’24	ONLY Win26, starting from Feb’26. No need for Win25/24 etc older update packs. See page Mrunal.org/win25 **and** Mrunal.org/win26 ---- not releasing this in book format.

Book edition	Contains	What free updates do i need to get from Mrunal.org/win26
PCB15	Upto Apr'26	अभी सिद्धा इसका ही प्रिंट निकालने का प्लान है with few updation as per prelim-2026 paper.... in Sept month, aim to publish this in book format. So u've latest material.

Mrunal's Win## update series for ex-learners.

- Your batch number is written **at bottom footer of each handout.**
- It is for ex-learners. Free updates so they don't have to buy course again.
- You can find this free lecture/material at Mrunal.org/win26

Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।
1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice.

		Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what

		RBI said in press release vs what UPSC asked…. There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	"For M0 to M4, What was the important for exam is explained in class. Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "

1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts? 3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this. 3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December

1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image showing Shaktikanta Das . Please sir rectify.	I have already issued the clarification on top of 1A2-B handout ke this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.
1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆️ hoga to inflation auto!atic ⬇️ hoga. But at current hardly some cases of being dependent of	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary

	loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly. Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations…please move to next topic, if u value ur time.
1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right? so the net amount that the banks had with them would stay the same,	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.

	wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ
1C	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in

	not consier facebook as an angel investor ??	exchange for equity or convertible debt — done outside of any formal company structure. Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.
1C	SDF (Special Drawing Facility) should be classified as secured loan? Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	Page 187 (PCB16)- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. so, There is no need to fuzz over this pedantry too much. you've to tick based on what is asked in the options. if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense. if they specifically ask in context of a particular instrumental, then you have to tick accordingly There is no need to read every line like some kind of Supreme Court lawyer to find the faults and exceptions in every word. Otherwise, you will get the answers wrong.

FAQ_PCB16_W3_D9725_20_AUG_to_27_AUG

dt	name	sr	question.	ANS
20/08/2	tanya04	D972	Hello sir, just to give you a little context before I ask my doubt. I'm 27 and a general category	First, all the best for the leap you've taken

026 **09:17:40**		5	candidate. I was working abroad for past 3 years, quit my job and moved back to India to prepare for the exam. I had a decent, well paying job and I've taken up a big gamble by jumping into this journey where the outcome isn't guaranteed. All this to tell you, that I'm a serious aspirant who is willing to give her best and honest 1-2 attempts. I'm not looking to spend 6 years of my life on this exam. So, I want to be strategic about how I approach it rather than make mistakes for years and learn from it. There is no substitute for hard work, which I'm willing to do. My concern is about note-making. Almost all topper interviews I've heard say by the time they went for the exam - they made the same notes almost 3-4 times. Sir, I'm keen on putting my time to understanding and retaining but also don't want to spend most of my time making the same notes with 1000 iterations. What is the way forward when it comes to this? How can I be efficient in notes making, hopefully 1-2 version, while spending major chunk of my time learning and revising rather than spend my life just making notes. Apologies, for the long message. Thank you, sir	— that clarity of purpose (1-2 honest attempts, not 6 years) will actually help your decision-making. On notes-making: toppers making the same notes 3-4 times is usually describing revision rounds, not literal rewriting from scratch each time. You don't need to chase that pattern deliberately. For my Economy course specifically, there's a live notes-making exercise built into PCB16 (Prelims) lectures — pen-and-paper, meant to keep you engaged and build writing stamina, which helps later with Mains. But this is a supplement, not a substitute — the handout itself contains all exam-relevant facts and remains your primary revision material. Practical note-making efficiency: don't make separate notes out of current affairs — the monthly magazine and course itself cover that. Only note down something from a newspaper if it is uniquely relevant to your optional subject, interview biodata,

				domicile state, Ethics, or Essay. Your actual revision cycle should look like: first reading next morning after lecture, revision before weekly test, revision at the mega-test (course end), revision again April-May, and a final index-glance before Prelims. That structured repetition — not additional note iterations — is what builds retention. Now shift focus to actually completing the syllabus; over-engineering the notes system this early is not the highest-value use of your time.
20/08/2026 17:40:00	Chirag	D9726	Sir, My medium for mains 2027 is Gujarati. I need Gujarati toppers' Tests answer copies for GS & Essay . I don't belong to SPIPA . How can i arrange ?? Sir help me if it is possible to find any source of it. Thanks Sir.	sorry, I don't have a specific arrangement or source such thing, but u may email brijeshdpatel.patel@gmail.com former core-faculty at SPIPA, in case he is able to help.
20/08/2026 20:40:19	ARPIT BAJPAI	D9727	Q1. The principle of subrogation in insurance allows \n(a) investment of policy amount\n(b) refund for insured and insured's insurance company\n(c) auto-renewal of policy\n(d) indemnification of the insured \nHow is it related to refund for insured? Can option 4 be answer?	Subrogation means: once the insurance company pays your claim (indemnifies you), it steps into your shoes and gains the right to recover that amount from the party actually responsible for the loss. so based on that interpretation, answer should be B.
21/08/2026	Arshee Rizvi	D9728	Sir, I need your guidance on making a final decision between Mathematics and Anthropology as my UPSC CSE optional subject. My primary objective is to select the optional that gives me the	Regarding the specific pointed questions, you have asked for each of these optional,

02:06:37			highest realistic probability of scoring maximum marks, rather than making an emotional or convenience-based decision.\n\n@ My Current Situation\n\nI have shortlisted two optionals:\n\n1. Mathematics\n2. Anthropology\n\nI have gone through the PYQs of both subjects and attended a few classes for both. Based on my initial assessment, I feel that I may be able to perform better in Mathematics than Anthropology.\n\nI am still juggling between the two and want to make a final decision based on aptitude, scoring potential, preparation time, syllabus completion, availability of quality resources, and my overall UPSC preparation timeline.\n\n@ My Case for Mathematics\n\nI studied Mathematics around **12 years ago during my engineering education**. I therefore need to rebuild the subject and regain problem-solving speed and familiarity with the concepts.\n\nI have attended classes of a Unacademy educator for Mathematics. However, I do not feel that I am jelling up with those classes. I have also explored other coaching options, but the fees are quite high and I have not found their course structure sufficiently convincing to justify the cost. Therefore, I am currently not planning to join another expensive coaching programme.\n\n@ My questions regarding Mathematics are:\n\n1. Can I realistically rebuild Mathematics through NPTEL/quality online lectures + standard books/resources + PYQs + regular problem-solving + test series/mocks, without joining an expensive coaching programme?\n2. Is this combination sufficient for UPSC Mathematics Optional, or is structured coaching necessary?\n3. If I choose Mathematics, how much additional time should I realistically allocate for rebuilding concepts and achieving sufficient problem-solving practice?\n4. How important is specific Mathematics Optional answer-writing technique, given that the subject is largely problem-solving based?\n5. What would be the most efficient resource and preparation strategy for someone who studied Mathematics 12 years ago but believes they have a strong aptitude for it?\n\nOne of my biases towards Mathematics is that I have historically performed well in Mathematics and have seen from my academic record that I can score well in the subject. Therefore, I feel that my expected scoring potential may be higher in Mathematics than Anthropology. However, I want to verify whether this is a rational assessment or simply my personal bias.\n\n@ My Case for Anthropology\n\nFor Anthropology, I would need to develop:\n\n* Conceptual understanding\n* Subject-specific terminology\n* Answer-writing skills\n* Diagrams and flowcharts\n* Proper structuring of Paper I and Paper II answers\	either the subjects topper or subjects Educator can reply. my generic answer is as follows: both are among the top-5 performing optionals, and decent amount of Coaching is available for each of them, So, you cannot go wrong with either of them. Just take one based on which ever you like. Lengthy syllabus is a myth invented to sell courses. Only subject, I would reject on account of account of being lengthy history. Q2) regd. OBC-NCL it is tied to your parents' income. it is not tied to yours and not ur spouses income q3) answer is uploaded in the pdf file in the course page of PCB16.

			n* Ability to reproduce relevant examples, thinkers, theories and case studies\n\nHowever, I believe that developing answer-writing skills will anyway be part of my preparation for GS and other papers, so this may be a relatively manageable gap.\n\nAnthropology may also allow me to complete and consolidate the syllabus faster than Mathematics.\n\nTherefore, my dilemma is:\n\nShould I choose Mathematics because I believe I have stronger aptitude and potentially higher scoring capacity in it, despite the longer preparation time, or should I choose Anthropology because it may be comparatively faster and more manageable to complete?\n\n@ My Background\n\nPlease consider the following factors while advising me:\n\n* Age: 30 years (2 prelims attempt without any sort of preparations)\n* Category: OBC-NCL\n* Education: M.Tech, IIT Bombay\n* Currently a working professional (Lead AI/ML)\n* I can manage my time reasonably well for preparation.\n* I am getting married towards the end of this year (court marriage).\n* I am targeting the 2027 UPSC CSE serious attempt.\n* I am not looking for the easiest optional. My objective is to maximise my final UPSC score.\n\n@ My Attempt and Age Window\n\nI am also confused about my actual UPSC CSE attempt and age window.\n\nI currently have a concern that I may have only around two years or a limited number of attempts available. However, as an OBC-NCL candidate, I want to understand the applicable age relaxation and attempt limit correctly.\n\nPlease clarify:\n\n1. How many attempts do I realistically have remaining?\n2. Does my OBC-NCL category depend on my father's income only or mine or my spouce's income as well?\n3. If I have additional attempts available, should that influence my decision to choose Mathematics and invest more time in rebuilding the subject?\n\n\n\nMy objective is to maximise my marks and overall probability of selection. I am willing to put in additional effort if Mathematics has a significantly higher expected scoring potential for me.\n\nIf you recommend Mathematics, please also give me a practical self-study roadmap using NPTEL/online lectures, standard resources, PYQs and mock tests, including how I should address the gap in Mathematics-specific answer writing.\n\nIf you recommend Anthropology, please explain why its expected score and preparation efficiency outweigh the aptitude and historical scoring advantage I believe I have in Mathematics.\n\n\nAlso, please let me know, how you will provide these answers? In class or via email. As i am watching your recorded lectures.\n\nThank you. \n	

21/08/2026 10:56:04	Nidhi Hindu	D9729	Sir , I am a very serious upsc aspirent . I have just completed my graduation with Pcm, now I am totally focused for my upsc 2027 but problem is that there is less time for me .\nI started with unacademy from June 2026 .\nI am seriously taking all lectures but sir \nI am doing 3 gs sub and optional together\nDue to this study time about 13 hour and even 14 hour \nSo , my efficiency has reduced to some extent , in case of focus \nSo should I maintain this strategy to complete my sallybus and then multiple sallybus \nIs this problem with everybody or with me alone \nAt the last hour I feel irritated , frustrated and like that no more now . \nPlease help me with my strategy sir .	13-14 hours of lectures daily, especially juggling 3 GS subjects plus optional together, is unsustainable — the frustration you're feeling by the end of the day is the direct result, not a sign that something is wrong with you specifically. This is common, not unique to you. Please go through my advice in the PCB16 Orientation Class (16th July 2026): • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job, too many daily lectures • 28m: Which subject to complete first Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Key correction to your current approach: limit lectures to 5 hours/day maximum, use the remaining time for reading and self-study rather than watching more videos. If you can learn a topic in 20 minutes by reading, skip the 40-minute video meant for weaker students. Running 3 GS subjects and optional simultaneously at full lecture

				pace is what's pushing you to 13-14 hours — cut the video hours, not your subject count.
21/08/2026 14:18:04	Axsh Sathwara	D9730	I have a question about IPOs. For instance, if Unacademy is getting listed on the main board per lot price is ₹15,000. There is a lot of demand, so many people apply and the IPO gets oversubscribed.\n\nImagine we have 100 applicants in this scenario. The Grey Market Premium (GMP), which is the expected profit from listing, is ₹5,000. Here's the deal I'm proposing to these 100 individuals before the shares listing in the secondary market, I'll give each of them a guaranteed ₹1,000, which is 20% of that expected profit. If someone doesn't get an allotment, they still get the ₹1,000 from me. But if they do get an allotment, they'll need to hand over the entire listing profit to me. They'll keep their initial investment of ₹15,000, but that ₹5,000 profit? That goes to me. So, in the end, a successful applicant effectively pays me a net amount of ₹4,000 (that's the ₹5,000 profit minus their ₹1,000 guaranteed share).\n\nNow, suppose 25 out of these 100 people successfully secure an IPO allotment and hand over their profits. My financial calculation would be as follows:\n\nTotal payout: \nI pay ₹1,000 to all 100 people = ₹1,00,000.\nTotal recovery: I receive ₹5,000 from each of the 25 allotted winners = ₹1,25,000.\n\nNet Profit: ₹1,25,000 - ₹1,00,000 = ₹25,00, earned without investing my own capital in the applications.\n\nMy questions are: Is this practice legal in India? If it is not legal, what are the specific reasons why? Also, if you were an investor in this scenario, would you sell your IPO application to me for a fixed ₹1,000, considering that the allotment chances are very low due to oversubscription?\n\nAlso requesting you to present this question in a class to gather the opinions of other aspirants if possible. U are free to refuse this, but i will be happy if you do that.\n\n If you have any doubts or need clarification on this logic, email me at axshsathwara@gmail.com. I have just got the sold my IPO and get come fixed returns That's why i'm asking to u sir.\n	Not important for exam after seeing PYQ. थोड़ा-पढ़ो-आगे-बढ़ो.
21/08/2026 20:21:40	Shreya	D9731	Sir, I have PCB 12 notes, which all Win series should i watch	Ref to top section of this FAQ PDF titled "Mrunal's Book vs Handout"
22/08/2	Vinod	D973	Hello Sir, First of all Thanks a lot for making Economics easy & well directed.\nI am corporate	Your academic background, both are

026 06:19:54	Hembram	2	employee with MBA & Mechanical Engineering background.\nPrima facie, I prefer PubAd as optional, but confused with Anthropology.\nPls suggest challenges with both the optionals.	suitable for you- MBA - Public Administration had some overlapping chapters related to organisational behaviour, leadership, motivation, et cetera and the mech/sci Will also help absorbing Anthropology faster. so, go by interest and go through PYQs and a few demo lectures of both before deciding. Optional Teacher List: https://unacademy.com/content/optional-educators/
22/08/2026 14:04:20	Zala Hitraj sinh	D9733	sir , due to financial reasons i need to appear in municipal accountant exam . but i confused that i should stick to preparation or i should jointly do the preparation of accountant ? can you guide me sir ?\n	हाँ तो उस केस में आप सबसे पहले ये म्यूनिसिपल अकाउंटेंट वाली परीक्षा पर ध्यान दीजिए और नौकरी द्वारा अपनी आर्थिक स्थिति को बुलंद कीजिए। इस प्रकार की छोटी परीक्षाओं में भी सफलता आपको बड़ी परीक्षाओ क लिए मेहनत करने का आत्मविश्वास जगाएगी।

				तो इसमें कोई अपराधबोध महसूस करने की ज़रूरत नहीं है। all the best. दोनों की परीक्षाओं की तैयारी साथ साथ हो सकती यदि आप पहले से ही UPSC का बहुत कुछ पध चुके हैं। वरना इसमें कठिनाई होगी तो अगर आप एकदम शुरुआती विद्यार्थी है तो पहले म्यूनिसिपल वाली परीक्षा पर भी ध्यान दीजिए क्योंकि उसका सिलेबस छोटा होगा।
22/08/2026 16:41:57	Ravindra	D9734	Sir \nAs you told in the ppt that SDF(Special Drawing facility)can only be given to state government but in the next pyq after the topic it was mentioned as State/UT/centre government how can that be correct\nthis is the doubt sir	yes SDF only for states and not for union. You have to go by the elimination method and pick less bad option in those PYQs
24/08/2026 11:46:05	Pathan	D9735	Sir apne. PM-Jan Aroygya Yojana: salient features, benefits?\n«All pre-existing disease are covered. Fr apne pyq mein isko wrong kha apne kha (4. Pre-existing diseases are not covered.)plz solve	pm-JAY mein Pre-existing diseases are not covered = wrong statement. Which are the benefits of the Pradhan Mantri Jan Arogya Yojana? 1. Free treatment available at all public and empanelled private hospitals. 2. Cashless and paperless access to quality health care services 3. Government provides health insurance cover of up to ₹ 5 lakh per family per year 4. Pre-existing diseases are not

				covered. WRONG\r Select the correct answer using the code given below.\r a) 1 and 3 only\t\t\tb) 1 , 2 and 3\r c) 2 and 4 only\t\t\td) 2, 3 and 4\r answer is B-123
24/08/2026 22:56:23	Miss khan	D9736	Sir, I have my UPPCS Prelims on 6th December. All my subjects are completed. How should I cover UP Special Current Affairs? For UPSC, I cover current affairs through the Unacademy magazine. Where should I study UP-specific current affairs from?	You may have to search internet for some current compilation for this. outside my area of expertise.
25/08/2026 18:46:22	Arya Sahu	D9737	सर मैं हिंदी मीडियम का स्टूडेंट हूं और आपके रिकॉर्डेड क्लास कर रहा हूं सर आपके हैंडआउट हिन्दी में नहीं है क्या?	A 100% pure Hindi handout is not possible at present due to time/staff constraints — economy as a subject also becomes noticeably harder to follow in pure Hindi. A 50:50 English-Hindi mix isn't feasible either, since it would unnecessarily increase page length and make revision harder. Important keyword translations are already given within the handout itself. To build your Hindi vocabulary for Economy, read: Class 11 NCERT (India's Economic Development), the chief editor's preface of Yojana magazine, Jansatta newspaper, and the introductions/conclusions of the Economic

				Survey in Hindi. Line-by-line translation of every sentence isn't the actual goal either — for your Mains answer writing, you ultimately need the ability to express concepts you've learnt in English in your own words in Hindi, not a pre-translated script.
25/08/2026 19:23:53	Dipanshu Patel	D9738	Sir maine sare test diye pillar 1 ke usme approx 85 to 90 percent marks aa rhe hai .lekin jab main analyse krta hun test ke bad to aisa lakta hai ki main aur accha la sakta tha ,lekin jab dusre test do phir bhi 2 se 3 silly mistake ho jati hai . test ke time lagta hai ki nhi ye sahi ans tick kr rha hun . aur sir aapne bahut aacha padhaya hai economy thank you sir	85-90% on Pillar 1 tests is a genuinely strong score — no need to be hard on yourself here. The gap between what you know and what you're ticking under test conditions is a very common, fixable pattern — it comes down to (c) not reading the statement carefully enough and (d) genuine silly mistakes (e.g. picking the correct statement when the question asked for the incorrect one). Watch this video for more on why these slip-ups happen: https://www.loom.com/share/c86d3597b8e144d5a5163910dbdcf2a4 After each test, go to Your Attempts → View Solutions and specifically flag where

				you knew the concept but still marked wrong — that pattern (not the concept itself) is what you need to fix through slower, more careful reading during the exam, not more revision. Thank you for the kind words — glad the course is helping.
26/08/2026 09:31:01	anmol7	D9739	Hello Sir,\n\nI wanted to seek some guidance regarding my preparation strategy. I started preparing for 2027 around 20th June and, being a working professional(~12PM - 9PM), I am finding it difficult to balance classes, revision and optional.\n\nCurrently, I am doing Sudarshan Sir's Geography and your Economy classes, along with Anthropology optional. However, I have not been able to keep up with Anthropology for roughly the last 3 weeks, and the backlog is now becoming difficult to manage alongside the ongoing GS classes.\n\nSir, should I temporarily slow down/pause live classes and focus on clearing the backlog and revision first, or continue with the ongoing classes while gradually covering the backlog?\n\nI would really appreciate your guidance on how to balance GS, optional and my job at this stage.	When in doubt, always give first priority to optional subject over general study subject. You can also try for putting an entire block of a subject on hold if it is not that much important in the grander syllabus or PYQ/MCQ trend. e.g. pillar5 infra in economy. That free of your 1-2 weeks. I cannot comment on other subjects, but make some smart decision accordingly, on what exactly you want to put on back burner and what you want to attend live. beyond that, I am overwhelmed by lectures, I'm too much worried about current affairs, i've time management problems, i've backlogs, I do not know which subjects to complete

				first and so forth. All this enquiry, my answer is: Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb:

				• If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like

				managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa
26/08/2026 14:02:31	Tanmay Raj	D9740	Sir can you recommend the ethics teacher on Unacademy	Please check the GS Teacher list for Ethics educators on the platform: https://unacademy.com/content/gs-educator/ If you have an active Plus/Iconic subscription, you can access their Ethics course from that list without any additional payment.
26/08/2026 14:20:32	Mangal kharara	D9741	Sir mujhe economics bahut tough lagti hai kuchh smajh hi nhi aata... Mujhe pata hi nhi economics ke baare mi kuchh bhi. Economics ka E bhi nhi aata mujhe.. kaise kya karu. Jaise chhote bachhe ko ABCD se suru karte hai vaise mujhe bhi economics bilkul zero se suru krna	No need to worry — you are not alone in this, and my course is designed to handle exactly this starting point.

			hai. Taki basic understanding ban paye	Watch the 4-minute timestamp of the Economy Intro & FAQ class (17th July 2026): https://unacademy.com/class/economy-intro-faq-about-course-1a1-money-vs-barter/WWV5NS89 You have to finish the entire course, Prelims and Mains, till December. Everything is covered from absolute basics to advanced theory, current affairs, budget, schemes, and PYQs — there is no need to study NCERT or anything else beforehand. Just follow the lectures in sequence from Pillar 1 and trust the process; the "zero to ABCD" starting point you're describing is exactly who this course is built for.
26/08/2026 22:37:09	Manisha	D9742	Sir mene 1c2 tak kar liya sham tak 1c complete ho jaega to me kya kal Wali mains ki class lesakti hu.	yes welcome to sit. but please try to 1D-prelims before Monday bcoz on Monday we'll be studying 1D ka mains.
