Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।
1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice.

		Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what

		RBI said in press release vs what UPSC asked…. There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	"For M0 to M4, What was the important for exam is explained in class. Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "

1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts? 3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this. 3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December

1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image showing Shaktikanta Das . Please sir rectify.	I have already issued the clarification on top of 1A2-B handout ke this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.
1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆️ hoga to inflation auto!atic ⬇️ hoga. But at current hardly some cases of being dependent of	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary

	loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly. Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations…please move to next topic, if u value ur time.
1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right? so the net amount that the banks had with them would stay the same,	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.

	wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ
1C	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in

	not consier facebook as an angel investor ??	exchange for equity or convertible debt — done outside of any formal company structure. Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.
1C	SDF (Special Drawing Facility) should be classified as secured loan? Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	Page 187 (PCB16)- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. so, There is no need to fuzz over this pedantry too much. you've to tick based on what is asked in the options. if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense. if they specifically ask in context of a particular instrumental, then you have to tick accordingly There is no need to read every line like some kind of Supreme Court lawyer to find the faults and exceptions in every word. Otherwise, you will get the answers wrong.

05/08/2026 13:58:23	D9531	Abhinav	Greeting of the day Sir, \nI hope you doing well!\n\nI have a doubt from Lecture 08 (PCB 16) regarding Topic 11.12.2 – Green Deposit (2023).\n\nIf the public deposits money in a Green Deposit (similar to an FD), what happens if the bank is unable to find enough eligible green projects or green borrowers to lend that money to? In that case, how does the bank generate returns to pay the depositors their principal along with the promised interest?\n\nCould you please explain this? \nThank you, Sir!\n\n	This level of operational detail / PhD-giri is not required for the scope of our exam after seeing PYQ. थोड़ा-पढ़ो-आगे-बढ़ो.

05/08/2026 15:44:41	D9533	SAHIL	Sir I read Handout Many Time but , Everytime I miss some Minor facts from handout which cost me in Mock test conduct on App ,sir I am also Writing Running notes in class	It is not enough to complete the video classes — you have to memorise the handout also. In the lecture I only give an overview of the topic; the remaining facts need to be memorised from the handout. Running notes in class are a supplement, not a substitute — they help you stay engaged during the lecture, but you still have to go back and thoroughly read/memorise the actual handout separately, more than once. Missing minor facts despite multiple reads is common at this stage — it usually means the reads are happening at a similar pace/depth each time rather than actively testing recall. फिर भी आपको याद नहीं रहता तो अपने शब्दों में लिख लिखकर नोट्स बनायीये। Give the weekly tests regularly and use View Solutions to identify your specific pattern of misses, then target that.

05/08/2026 21:35:53	D9535	Esha Gupta	when we say NARCL is 51% owned by sbi, etc does that mean 51% is owned by the govt?	No. NARCL (National Asset Reconstruction Company Ltd) is a private company — a joint venture between public sector banks and some private banks/NBFCs. SBI holding a ~51% (majority PSU-bank) stake means it is PSU-bank-owned/promoted, not government-owned. NARCL is not a government company or a subsidiary of the Government of India.
05/08/2026 22:04:44	D9536	AniruddhBhatnagar-2007	Namaste Sir, is there any difference in Money Multiplier Effect & Money Multiplier? Because aapke notes mein 'MM = M3/M0' hai par yeh bhi hai 'MM effect = 1/CRR' (ref pg59 & pg60)\n\nIf dono MM aur MM effect same hai, then:- M3/M0 = 1/CRR ..... But due to poor banking penetration and other reasons, practically MM can be lower. Toh, can we conclude that, "MM=M3/M0" is more practical measurement & "MM=1/CRR" is theoretically a best case scenario or an upper limit of money multiplier?	plz go thru the boat speed example in the lecture
05/08/2026 22:10:25	D9537	Altaf Hussain	Sir unacademy ki koi current affairs ki koi magzine aati hai kya or agar ho to kya pdf form /physical form mein available hai ?	Unacademy's Articulate magazine is available for free download: https://unacademy.com/content/upsc/downloads/ It is available in PDF form. It is better than VisionIAS because it avoids unnecessary coverage of low-profile global reports — always ask yourself how

				much of a given magazine's content you can actually memorise and how much of it is actually asked in the real exam.
05/08/2026 23:03:31	D9538	unacademy-user-X0LA1KEY37IM	Pranam SIR 🙏, \nMai abhi graduation me hoon, mai UPSC- cse ka exam 2029 me dunga, to mujhe daily ek lecture (1class)daily karna chahiye ya do lecture (2 class) karna chahiye, maine abhi 9july2026 ko unacademy ka subscription liya hoon , aur 16july se apni preparation economics se shuru kiya hoon ,abhi mujhe pura gs , essay, literature (hindi and english) , CSAT and optional (sociology)karna hai. And mera graduation (agriculture se hai) to kya mujhe agriculture related ek exam ko upsc ke sath target karne ka man(wish) hai because upsc ka exam 2026 me bahut unpredictable tha and tough tha to mind me kabhi kabhi chinta hone lagti hai agar upsc cse nhi hua to kya hoga \nPlease reply sir 🙏	Since you started your subscription on 9th July and began Economics from 16th July, you are on track — no need to worry. Lectures: 5 hours/day is the general cap; use the rest of the time for reading and self-study. Whether that is 1 or 2 classes a day depends on lecture length, not a fixed count — just don't exceed 5 hours of video per day. Since you are targeting 2029 and still in college, use the college time well: • Get extracurricular certificates (NCC/NSS/debate etc.) — useful for interview biodata. • Aim for minimum first class (55-60%) in your college exams — many Plan-B exams like RBI Grade-B/UGC NET require this minimum in the general category. On your Agriculture-graduation-linked exam idea alongside UPSC: Sociology as your chosen optional does not connect to your Agriculture background. If Agriculture (as an optional subject) is also on the table given your background, go through its syllabus and PYQs before finalising against Sociology — do not decide only on the basis of anxiety about UPSC-CSE being unpredictable. On the anxiety about Prelims-2026 being tough: this is a long exam journey with multiple attempts available to you before 2029. Focus on completing the syllabus with sincerity — that is within your control, the difficulty level of a given year's paper is not. No need to lose sleep over hypotheticals this early.

In a boom, equity gives higher returns (rising earnings/prices), so equity is preferred. In a slowdown, equity returns turn uncertain/fall, while a bond's coupon is fixed regardless of the economic cycle — so bonds become relatively more attractive for their certainty, not because bond returns rise in absolute terms. It is a preference shift driven by risk-aversion, not a rise in the bond's own payout.

Repo is secured — it requires government securities as collateral, as taught in Pillar 1A2. The "unsecured" segment classification you are seeing likely refers to Call Money / Notice Money / Term Money (interbank lending without collateral), which is a different money market instrument in the same broad less-than-1-year category, not repo itself.

In the lecture I only give an overview; the remaining facts need to be memorised from the handout. 1B1/1B2 (Banking/NBFC/NPA topics) are more factual and detail-heavy than 1A, so a dip here is not unusual — it does not mean your overall preparation has gone wrong. After each test: go to Your Attempts → View Solutions, and identify the specific pattern behind your wrong answers — revision gap, silly mistakes, or misreading statements. Fix that pattern, not the fear of the next test. Give the tests regularly regardless of mood — skipping them only delays finding out where you actually stand.

07/08/2026 16:18:39	D9560	Chirag	Sir, I have doubts related to current affairs. I just started preparation from mid-July and follow the newspaper daily. There is some buzz regarding Yojana Kurukshetra and PIB on the internet. So my doubt is, is it really helpful reading them if we talk about cost-benefit ratios? Or can I skip it and stick to any one monthly magazine? Since my target is to finish the syllabus by December, I am planning to limit my resources; hence, I asked the question. Thank you.	You do not need Yojana, Kurukshetra, and PIB separately — the return on time invested there is low compared to the effort. Stick to one monthly magazine: Unacademy's Articulate magazine is free and sufficient: https://unacademy.com/content/upsc/downloads/ For PIB specifically, if you want to glance at it at all, read only what your GS teachers are providing in their compiled notes/material — not the raw PIB feed. Since your target is to finish the syllabus by December, prioritise the core theory subjects (economy, polity, history, geography) first; current affairs is not very decisive for clearing cutoffs, as most MCQs are theory-based or 2-5 year contemporary issues. Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures —

				includes the batch vs course distinction. • 28m: Which subject to complete first? • 41m: GS subject-wise observations and booklist • 1h 13m: Mock test doubts — why finishing theory + PYQ first is a prerequisite before full-length mock tests • 1h 26m: UPSC Prelims-2026 was a tough paper — how to change your approach, secret tips • 1h 35m: CSAT observations and tips • 1h 50m: Mains-related tips — wait for the next Mains course launch in August (QEP9) for detailed nuances. 07/08/2026 16:49:35	D9561	@AnkitPTK1706	banks don't get interest on CRR, but get on SLR , How banks earn interest on SLR,??\nif they keep SLRwith themselves that mean they give interest to own	CRR is cash kept as a reserve with RBI — it is idle, non-interest-bearing by design (a pure liquidity/monetary-policy tool). SLR is not idle cash — banks hold it in the form of interest-bearing government securities (G-Secs, T-Bills etc.), which they can invest in through the normal market. So SLR earns interest because it is held as an interest-bearing security, not because the bank is paying interest to itself.
07/08/2026 18:01:59	D9562	Priyanshu sharma	Sir kya pcb 16 mein saari government schemes, budget aur survey bhi cover h naa? M Rajasthan administrative service ki preparation kar rha hu toh usme government schemes ke questions jyada aate h	Yes, PCB16 covers government schemes, budget, and Economic Survey as part of the economy syllabus. For RAS-specific relevance beyond that: I would suggest you make an Excel file

				and do a topic-wise analysis of the RAS exam's previous questions. It will help you get clarity on how much is already covered in your present material and how much more you need to study from other sources — it is difficult for me to personally analyse every state exam given the time involved.

Ultimately you need the ability to write your own thoughts in Hindi from concepts learnt in English — not a pre-translated script. Prelims doesn't require this at all since it's objective-type. On Meesho: you are mixing up the financial market classification with the physical goods seller ka classification. that is not required. दोनों ही अलग चीज़ें है।

08/08/2026 11:49:17	D9581	Rajsekhar KARMAKAR	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will not consier facebook as an angel investor ??	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in exchange for equity or convertible debt — done outside of any formal company structure.

				Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.

08/08/2026 20:33:19	D9584	Ashish Kushwaha	Capital arrangement in medium term= public deposits, so is it crowdfunding	No. Public deposits are funds directly deposited by the public with a company (a fixed-deposit-like instrument, regulated separately from bank deposits) in exchange for a fixed return — this is a direct company-to-depositor arrangement. Crowdfunding is a different mechanism — raising small amounts from a large number of people, typically online through a platform, usually for a specific project/venture, and may or may not involve equity or fixed return. Both are medium-term-ish capital sources, but they are not the same thing.
08/08/2	D958	Akash Soni	sir iss year me mera psc ka exam so can you plz tell	As far as state services exams are concerned, my economy course should help

026 21:06:15	5		me this handout is enough for psc	with theory, conceptual economy questions, and national/global economy current affairs (e.g. GST, WTO etc). But if the state exam asks very microscopic state-specific scheme/state-specific-event GK, or business GK like "who is the MD of which bank" — my course does not cover that. I would suggest making an Excel file and doing a topic-wise analysis of your specific PSC's past papers. That will give you clarity on how much is already covered in the handout and how much more you need to study from elsewhere. It's difficult for me to personally analyse every state exam given the number of them and how infrequently some are conducted.

This isn't a case of quitting out of frustration — you've done real research before deciding. On your father wanting 2 more attempts: have an honest conversation with him showing him this specific opportunity and your reasoning, not just "I don't want to try anymore." A concrete, well-reasoned alternative like this is very different from vague burnout, and most parents respond differently once they see the specifics.

09/08/2026 09:53:45	D9588	Khushboo kumari	Sir, I am confused about choosing my optional subject and would really appreciate your guidance. I did my graduation with Geography and English	Between Geography, English Literature, and Sociology:

			Literature, completed my post-graduation in English, and I am currently pursuing B.Ed. However, despite having studied Geography and English Literature academically, I would not say that I have a very strong command or in-depth knowledge of these subjects at present.\n\nI also studied Sociology in Class 12th, and I genuinely liked the subject and found it interesting. Therefore, I am considering Sociology as an optional, even though I have not studied it at graduation or post-graduation level.\n\nI have watched the 1st and 2nd lectures related to the optional, but I am still confused because I have several concerns regarding the syllabus, difficulty level, GS overlap, preparation time, and scoring potential. I am also unsure whether I should choose an optional based on my academic background, my interest, or my current level of understanding and aptitude.\n\nConsidering my background, interest, and present level of knowledge, which optional would you suggest I choose — Geography, English Literature, or Sociology? And if I don't have a strong command over my graduation/PG subjects, would it be better to choose Sociology based on my interest? Please guide me on which optional would be the most suitable and manageable for me.	Geography and English Literature — you've studied both academically but say you don't have strong command over either at present. Note that Geography optional also requires heavy map-based memorisation — go through PYQs and see if you're comfortable with that before leaning this way. Sociology — you like it and found it interesting in Class 12, but you have no graduation/PG background in it. It has reasonable GS overlap (society, social issues) and decent coaching availability, which helps if you're starting fresh. So take decision accordingly. Also, please go through some free classes here by the optional subject teachers for more insights. Optional Teacher List https://unacademy.com/content/optional-educators/

09/08/2026 20:03:12	D9596	abhishekgahan	Sir I'm pursuing graduation in physics honours.i like it,but have fear about the availability of resources(e.g. coaching)for that reason,I think that i should take geography optional not because it has resources,as I like to study geography also.\nWhat should I opt for ?	Since you genuinely like Geography too and not just for lack of alternatives, there's no harm in taking it. One caveat: Geography optional requires a lot of memorisation, including marking places on the map. Go through its PYQs and see if you're comfortable with that demand before finalising — if yes, go ahead with Geography; if the resource-availability worry was the only real hesitation, don't let it override genuine interest, since Geography has strong coaching support anyway.

09/08/2026 20:24:55	D9597	https://unacademy.com/@chandan_01	sir mera attempt 2029 hai SOCIAL JUSTICE ,IR ,Int-sec , ye subject baaki hai or sir maine aapse PCB 14 kiya hu sir us time maine ECONOMY QEP mrunal mains nahi kiya tha or sir abhi dikkat ye aa rahi hai ki jaise me CSAT,optional [hindi sahitya] kar raha hu sir me economy ka revision bhi karta hu lekin 2hr me 7-8 page hi revision ho pata hai aur ek pillar khatam karke dusra piller ka revision karta hu to pehle ka bhulne lagta hu iss karan sir pura economy ka ek baar me revision nahi kar paa raha hu orr, mera mains ka apka course reh gya hai sir isko kaise khatam kare kuch upay sujhaiyea or sir syllabus mera last hone ko hain hindi medium hai current affairs kaise/kya uske liye padhe sir kuch samajh nahi aa raha hai	You are falling into the classic revision-loop trap: spending time revising Pillar 1, then moving to Pillar 2, and forgetting Pillar 1 in the process — this happens because you're trying to over-revise each pillar individually instead of finishing all pillars once first. Correct approach: complete a first reading of each remaining pillar (not deep revision) and only start proper multi-round revision from February onwards. Doing heavy revision mid-way, before the full syllabus is covered once, guarantees exactly the forgetting loop you're describing. For economy, the revision flow should be as follows Reading1: morning after the last night class Revision1: before weekly test Revision2: before the mega Test (100 MCQ from all the handouts.) at the end of course Revision3: April-May Revision4: before Prelims- glance over index pages of each chapter. Only you cannot remember something then go through the actual content.

				If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. Make plan for other subjects in similar fashion. So that it fits into the topic wise test, full length test et cetera as well. For completing QEP Mains: since you skipped it during PCB14, you will need to go through the Mains economy course separately — QEP9 starts 27th August 2026: https://unacademy.com/course/mrunals-economy-for-upsc-mains-20272829-qep9-economy/RW7TNQZT For Hindi-medium current affairs: no separate current affairs preparation needed for economy — it's covered within the course itself. For general Hindi-medium newspaper reading, use Jansatta (free, download from their website). With Social Justice, IR, and Int-Security also pending alongside CSAT and your optional, be realistic about pace — first-reading priority, not revision, is your immediate need.

09/08/2026 21:27:09	D9600	punamabhi	Sorry to say sir, Actually I didn't understand the what's topic is running and explaining how to catch and understand what are you explaining?	The pace is intentionally fast because I have to cover the entire syllabus within a fixed window — the alternative (teaching slowly and abandoning syllabus midway) is unfair to fee-paying students who have other subjects too. Coping technique: read the handout the next morning after the lecture → if stuck on a point, watch that specific 5-minute portion of the video again → pause → read/write that portion for 5 minutes → repeat. Don't try to absorb everything in one sitting live. If you're finding the basics themselves shaky, start from Maharashtra State Board textbooks: Class 11 (chapters 2,5,6,7,8,9) and Class 12 (chapters 7,8,9,10) before returning to the lecture. If you've joined mid-batch: go back and start from Lecture 1, not the current live lecture — the pace increases geometrically through the course, so jumping in mid-way without the earlier foundation is unmanageable.

Last one year's exam trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either pure theory or 2-5 year contemporary issues, not fresh/daily current affairs. See 14m timestamp in the PCB16 Orientation Class: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R • First priority: complete economy, polity, history, geography, environment, science. • Good teachers already incorporate current affairs into their courses — my economy course does this. • Beyond that, a small amount needs self-prep, covered free via Win27 next year.

				• Use the monthly current affairs magazine for earlier months: https://unacademy.com/content/upsc/downloads/ • For pre-2027 target, read from 1/1/2026 onwards (two calendar years back). • No need to make separate notes from current affairs — the free monthly magazines cover it, unless it's unique info relevant to your optional/interview/domicile state/Ethics/Essay. • Read newspaper columns for at least four months to build vocabulary. • English medium: Indian Express or The Hindu (pick one, not both). • Hindi: Jansatta; to go further, The Hindu's book of editorials (available on their publication website). • How to handle the newspaper effectively: https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG A repeater who has already completed theory and only wants daily updates may benefit from daily CA classes — for a beginner, it's not the priority.

Focus direction, in order: Optional subject first (since it carries 500 Mains marks and is lengthy — don't keep deferring it, even while running parallel with Economy) → S&T (your only pending core GS-Prelims subject) → the remaining Mains-specific subjects (Social Justice, IR, Internal Security, Ethics). Since History, Geography, and Polity are already done, prioritise finishing S&T next so your Prelims core is fully covered, while continuing Economy + Optional in parallel as you're already doing. Social Justice, IR, Internal Security, and Ethics can follow after S&T — they're comparatively more current-affairs-driven and can be built up over a longer runway without the same urgency as core theory

Tell me what to do im thinking to finish pillarn4b from pcb 16 and 5,6 from pcb 15 pls suggest me how to doo	Before your subscription expires on 24th October, download all HDTs and PPTs you'll need — including for the pillars you plan to cover from PCB15. Downloaded videos will be blocked by the app after expiry; only PDFs/HDTs/PPTs remain usable. Your plan is reasonable: finish Pillar 4B from PCB16 (current, updated content), and use PCB15 (recorded) for Pillars 5 and 6 since you won't have PCB16 access for those by the time they're taught live. Syllabus structure is the same across both batches — only current affairs/examples differ slightly. Make sure you download PCB15's Pillar 5-6 HDTs and PPTs now, while you still have access, rather than waiting.

10/08/2026 11:45:31	D9608	9ZZAHVLZ8IQP-6192	My name is Subham Suthar. I'm b.tech in ECE and MA in Pub Adm(which i have chose optional as well). I'm prearing since 2019 but i couldn't focus entirely mostly because of unstabilty in household. I'm employed as Government teacher in rajasthan since 3 years and now i think I'm stable enough to prepare for it. You have been my inspiration since begin, i just want to hear whatever tips you have for me in this regard, Sir.	Good that you've found the stability to focus now — that's the biggest variable, and it's in your hands going forward. Since your English/writing is presumably solid given your MA and government teaching background: stick with English medium if comfortable — it saves time on material versus Hindi/Gujarati, which needs more words for the same content, leaving less room for arguments within the word limit. Full time management block: cap lectures at 5 hours/day, use the rest for reading/self-study; use NCERT audiobooks while travelling (https://ciet.ncert.gov.in/audio-books); use office breaks for newspaper reading; skip daily current affairs videos and focus on theory.

Do we need to remember all the dates and names, or should we focus only on the ones that are important from the examination perspective?	No, not all dates and names need to be memorised. Focus only on dates/names that are examination-relevant — landmark dates (e.g. major reform years, scheme launch years), names directly tied to a scheme or policy, and anything that has appeared in PYQs or is flagged as important in the handout. Peripheral/incidental dates and names mentioned only for context don't need rote memorisation.

There is no separate need to study NCERT beforehand or alongside. If lectures feel like they're going over your head coming from a science + PSIR background: that's normal at the start, not a background gap — read the handout the next morning after each lecture, and if a specific point is unclear, re-watch just that portion rather than the whole lecture again. For answer writing: complete the syllabus and 2-3 revisions first, then start with one paragraph at a time on topics you've studied — don't force full answers before you have command over the content. QEP9 (Mains) starts 27th August 2026 and will cover this properly.

This shifts the currency/exchange-rate risk onto the foreign investor instead of the Indian borrower — that's the key distinguishing feature versus a normal dollar-denominated international bond (where the Indian borrower bears the currency risk).

			nMai jab bhi economic padhti hu apne background me feel karti hu jisse mujhe sub. Nhi Lagta tha. \ nThank you sir rewatch your classes has really improved my test score.	It is normal for the pace to feel difficult on a topic the first time, especially with new terminology — good that a rewatch already helped and your test scores are improving. Keep using that rewatch-if-stuck approach rather than assuming the subject itself isn't for you.

Masala Bonds are rupee-denominated bonds issued outside India — the borrower (e.g. IFC, an international financial institution) raises money from foreign investors, but the bond's value and repayment are fixed in Indian Rupees, not dollars. This shifts the currency/exchange-rate risk onto the foreign investor rather than the Indian borrower — that is why it's called a rupee-denominated bond, unlike most international bonds which use dollars. Glad the rewatch approach is helping your scores — keep at it.

Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	page 187- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. you've to tick based on what is asked in the options.

				if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense from academic books. if they specifically ask in context of a particular instrumental, then you have to tick accordingly so, There is no need to fuzz over this pedantry too much. It depends on what exactly they ask.

11/08/2026 13:05:06	D9636	Rockybhai	Hello Sir, i have 2 doubts, in last lecture one aspirant ask question that i have but its not clear yet, So my first Question is most of teacher not providing Update series like you do, or method to improve study without teacher like you do (Like even if we dont study your update series you already told us what to read to update, like economic survey, RBI monetary meetings, etc.) so there will be no FOMO about your batch once we attend your 1 batch, but there are other subjects like environment, Polity, etc, where update is necessary so whenever new batch(Course) is coming i feel FOMO, what if they teach something new where almost 80% was repeat mostly so for 20% we attend that course and keep watching lecture and build habit of watching lectures instead of Reading and End up not remembering Data which are very important to clear Prelims/mains. how to to build new habit of reading and stop watching lectures?\nSir my second Question is How you prepared for mains? as we have so much of options, like many institute provide free ans writing series(daily one question), Unacademy's Iconic Answer writing	On update series/FOMO: for a subject like Environment or Polity, check if that specific educator has an equivalent annual/update batch, and if not, the safer approach is simply to build a habit of reading their handout alongside newspaper/monthly-magazine updates yourself, rather than repeatedly buying new full courses hoping for the 20% new content. Do not build a lecture-watching habit purely to "stay updated" . 			Programs, etc. where we write answers they check and give suggestion, we check marks, and see where make mistakes, but what about Content? its the only known by person itself, How do one knows that? and checking answer self is more efficient or checked by other is? i have written 50+ answers but barely get 5/10 or 15 marks questions, how can i improve and before mains how many answers i should have write apart from UPSC mains questions?	On Mains content quality: no evaluator, human or AI, can judge whether your factual content is accurate except you, cross-checked against the syllabus/handout and PYQ model answers — that's why completing the source material first matters before answer writing at scale. Getting 5-10/15 currently is normal early on; keep writing, cross-check your facts against the handout after each answer, and prioritise topic-completion before volume. There's no fixed target number of answers before Mains — quality of cross-checking matters more than count.

Closer to the exam, you only need to glance through the index; open the full section only if you can't recall something from the index alone. The handout looks lengthy partly because PYQs are given at the bottom of each section — you don't need to revisit those on the night before the exam either. Revision flow: Reading1 (next morning after lecture) → Revision1 (before weekly test) → Revision2 (mega-test, course end) → Revision3 (April-May) → Revision4 (index-glance before Prelims). Being in 2nd year BA now, targeting 2029 or even 2028 both work age-wise — the choice depends on your syllabus completion timeline, not eligibility. On answer writing: since you've just started, it is a waste of time to begin daily answer writing right now — daily answer writing products are meant for students who've already cleared Prelims a few times. First complete the syllabus, do 2-3 revisions, read newspaper columns for 4-6 months, then start with one paragraph at a time from what you've studied. Since you're in your final year, use free periods deliberately for this rather than passively — start today with whichever subject has the least backlog, not the most, to build momentum first. I am overwhelmed by lectures, I'm too much worried about current affairs, i've time management problems, i've backlogs, I do not know which subjects to complete first and so forth. All this enquiry, my answer is: Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first?

				# Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa

Given your PG is in Political Science, PSIR itself is still a strong background match — the issue is medium of instruction, not subject fit. Before switching away from PSIR entirely, check if any of those Hindi recorded batches are genuinely usable for your pace (many students do complete optional through recorded content). If self-study in Hindi truly isn't working and budget doesn't allow the other institutes, then switching to a subject with strong Hindi-medium live coaching support (e.g. Geography or Sociology) is a reasonable call कुल मिलाकर केवल कोचिंग उपलब्ध है कि नहीं इस पर निर्णय मत लीजिए। Suggest me teacher for “X” subject in “Y” medium? 11/08/2026 21:11:42	D9644	Mayank Tiwari	Sir, I am preparing for UPSC CSE 2027 and, in parallel, I am also preparing for the UPPSC Architectural Assistant examination scheduled for February 2027.\n\nThe Economics syllabus for the Architectural Assistant exam includes:\n\n* Indian Economy\n* Commerce and Trade\n* Poverty and Unemployment\n* Women Empowerment\n* Economic Planning\n* Economic System and Policies in the Indian context\n\nSince I am preparing Economics primarily through **Mrunal Sir’s Prelims Economics classes for UPSC**, I wanted to ask whether these classes would be sufficient to cover the above-mentioned UPPSC	This is not conducted on a regular, widely-applied basis, so I have not personally analysed the UPPSC Architectural Assistant exam's economics syllabus in detail — my Prelims Economy course is built for the UPSC CSE syllabus, and while there will be conceptual overlap on general Indian Economy topics, I can't confirm coverage of the exam's specific listed areas (Commerce and Trade, Poverty and Unemployment, Women Empowerment, Economic Planning) without seeing its actual PYQs. I'd suggest making an Excel file and doing a topic-wise analysis of Architectural Assistant's past economics questions against my handout's table of contents — that will show you precisely where the overlap is and what needs separate

11/08/2026 21:26:19	D9645	Monika	Good evening Sir I want to ask you about current affairs. Should I make notes from newspaper or somewhere else or Unacademy provide any specific course for the current affairs …. Thanks a lot for your economics lecture these are the best you make economics interesting with simple examples thank you	> How to approach current affairs for UPSC? Please go thru my advice at the 14m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R then, • Your first priority should be to complete the subjects such as economy, polity, history, geography, environment and science. • All the good teachers already incorporate large amount of current affairs inside their course it self for example my economy course. • So beyond that, very fractional amount of current affairs need to be prepared by yourself. and even that is covered free of cost through special classes e.g. my win27 free series next year for economy. • Additionally, you can take help of the monthly current affairs magazines such as this https://unacademy.com/content/upsc/downloads/ • for completing the current affairs of earlier months.ideally for pre-2027, u should read from 1/1/2026 onwards ke magazines (=two calendar years).

				• there is no need to make a Notes out of current affairs as such because most of the free monthly magazines will be covering it. However, if you find some unique information relevant for your optional-subject, interview questions related to your graduation or your domicile state or Ethics or Essay then you should note it down from newspaper. otherwise no need to note it down. • You should also keep habit of reading the newspaper columns for at least four months to cultivate vocabulary e.g. • English medium = Indianexpress/thehindu (Any single newspaper. not both) • Hindi = Jansatta. however to improve yourself, u can buy thehindu book of editorials- which is available on thehindu publication's website. • lastly, how to handle newspaper effectively? https://youtu.be/boW-QoExVsc?si=lKGnyT2BsZq-AsDG Should I watch daily current affairs videos or not? Unacademy is like five star hotel so it provides all the facilities depending on the requirement of the customer. For example, welcome drink is given in the lobby and you're not thirsty, then you don't have to drink it. If you're thirsty, you should drink it. Similarly, a repeater student who has already completed the theory subjects and only wants to update himself with daily current affairs. He may be requiring daily current affairs classes. Last, thank you for your kind feedback and words of appriciation.

			kaise cover \nsir economics ke liye timeline pls bata dijiye \n	On timeline: you don't need to read only economy till December — run other subjects in parallel alongside it, since December is the overall syllabus-completion deadline for all subjects together, not economy alone. Cap total daily lectures at 5 hours, splitting time across economy and your other pending subjects rather than sequencing them one after another. Complete economy at the pace the live PCB16 batch runs (roughly one pillar every 1-2 weeks) and use remaining daily hours for your other subjects in parallel. The 50% accuracy despite this points to a depth-of-retention issue, not a process issue. Two specific gaps: (1) The Hindu without notes, 5 days/week — fine for vocabulary, but don't expect it to add to your MCQ accuracy directly; that comes from the handout, not the newspaper. (2) Skipping your daily 1 Mains answer when time is short — don't let PYQ-solving repeatedly displace it; if short on time, shorten the PYQ session instead, since dropping answer writing entirely breaks the habit you're building for Mains. For the 50% accuracy specifically: after each weekly test, use Your Attempts → View Solutions and check whether the pattern is content gaps (not knowing the fact) or elimination mistakes (knowing it but picking wrong due to overthinking/careless reading) — the fix is different for each, and right now you can't tell which one is your actual problem without checking that pattern directly.
