Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।
1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice.

		Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what

		RBI said in press release vs what UPSC asked…. There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	"For M0 to M4, What was the important for exam is explained in class. Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "

1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts? 3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this. 3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December

1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image showing Shaktikanta Das . Please sir rectify.	I have already issued the clarification on top of 1A2-B handout ke this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.
1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆️ hoga to inflation auto!atic ⬇️ hoga. But at current hardly some cases of being dependent of	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary

	loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly. Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations…please move to next topic, if u value ur time.
1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right? so the net amount that the banks had with them would stay the same,	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.

	wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ
1C	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in

	not consier facebook as an angel investor ??	exchange for equity or convertible debt — done outside of any formal company structure. Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.
1C	SDF (Special Drawing Facility) should be classified as secured loan? Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	Page 187 (PCB16)- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. so, There is no need to fuzz over this pedantry too much. you've to tick based on what is asked in the options. if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense. if they specifically ask in context of a particular instrumental, then you have to tick accordingly There is no need to read every line like some kind of Supreme Court lawyer to find the faults and exceptions in every word. Otherwise, you will get the answers wrong.

27/08/2026 18:56:25	D9743	Ashiya	Sir agar maine aaj ka lecture kiya and next morning uski handout padh li and then us handout ko Wednesday ko test se phle revision Krna h sir kya us handout ko beech mein v revise karne ki jarurat h Wednesday se phle aur kya Wednesday test se phle sirf isi week ki handout revise krne ki jarurat h ya baaki ka padha hua v handout revise karna hoga jo hmlog previous week padhe	For economy, the revision flow should be as follows: Reading1: morning after the last night class Revision1: before weekly test Revision2: before the Mega Test (100 MCQ from all the handouts) — 14th December 2026, end of PCB16 course Revision3/4: February to May — paced via the Win27 series (starts Feb 2027, 2 classes per month till May) Final glance before Prelims: glance over index pages of each chapter. Only if you cannot remember something, then go through the actual content. If you do more than this number of revisions, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. So no — you don't need to revise mid-week separately, and you don't need to go back and re-revise older weeks' handouts every Wednesday. Revision1 before each Wednesday test covers that

Mains course will only deal with mains, and it is assumed while teaching that the student is already familiar with the concepts from the prelims course — for example, relationship between monetary policy and inflation, how GST works, etc. Mains course will not be a revision/refresher course for prelims. So first complete Pillar 1 of the prelims course fully, then attend Pillar 1 of the mains course and its mock test.

27/08/2026 21:03:51	D9746	onkarrera	I am now preparing my mains content. But it is very difficult to understand the requirement of mains content. Regarding this my only question is, what is enough content for mains and secondly how to do CA? Thank You Sir !!!!!!!	For current affairs — no need to prepare it separately from any book or magazine. My mains economy course (QEP9) covers both theory and current affairs for the relevant parts of the syllabus. Beyond that, current affairs is covered free every year through the Win27 series. On "what is enough content for mains" — this is too broad a question to answer in one line. Complete the mains course syllabus first with its handout, and content sufficiency will become clear pillar by pillar as you go. Please ask again with a specific pillar or topic if a particular area feels thin.
27/08/2026 21:04:44	D9747	Vishal Gautam	Hello Sir,\n\nI wanted to seek your guidance regarding my preparation and the way I am approaching it.\n\nI started my preparation on 16 July, and since then I have been trying to give my best and involve myself more deeply in the preparation. Along with my main classes/material, I have also been reading books for different subjects so that I	You are overthinking this. Your plan (syllabus by January 2027 with two revisions) is reasonable — the actual problem you've described is burnout from an unsustainable daily routine (11-12 hours for 10-12 days, then a crash), not a planning gap.

date	sr	name	q.	ans.
			can develop a better understanding and stay more involved with the subjects.\n\nHowever, I feel there are a few things that are becoming obstacles, both mentally and in my preparation.\n\nThe first is the vastness of the syllabus. My target is to complete the syllabus by January 2027, along with at least two proper revisions. I also try to revise whatever I study every week or, at maximum, within 10 days.\n\nThe second issue is consistency. Sometimes I study consistently for 10–12 days, even putting in more than 11 hours a day, but after that I suddenly feel overwhelmed and my study hours drop significantly, and sometimes I end up studying very little or nothing. I feel I may be approaching my preparation in a way that is difficult to sustain for the long term.\n\nAs of now, I have completed Indian Geography and am doing Economics and History in parallel. I started Polity, and I am planning to begin my Optional as soon as I complete around 50% of Polity, hopefully by mid-October.\n\nI generally try to start my schedule around 7–8 AM, but I want to make my overall routine more sustainable and disciplined.\n\n\n\nMy core focus is very clear: I want to give this attempt everything I have and either clear it	Please go through my advice in the PCB16 Orientation Class (16th July 2026): • 20m: Deadlines to complete syllabus by December-end • 21m: Time management with college/job, too many daily lectures • 28m: Which subject to complete first Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Limit yourself to 5 hours of lectures per day; use the rest for reading and self-study at a steady, repeatable pace — not 11-12 hour sprints followed by a crash. A consistent 7-8 hour routine you can sustain daily till December will get you further than an unsustainable spike-and-crash pattern. Start your optional now in parallel rather than waiting for 50% of Polity — optional is 500 marks and cannot keep getting deferred.

			or, at the very least, be as close to the qualifying/selection score as possible. I don't want to leave any major gap because of poor planning or an unsustainable approach.\n\nPlease guide me on what changes you think I should make at this stage.\n	
27/08/2026 21:08:16	D9748	shivam tomar	sir am from science background studying economics for first time after watching lectures and read lecture notes and handout revision i have completed pillar 1prelims completed whole handout but still i'm still not able to score more then 6/10 question from pyq and yours tests pls help how can i increase my score ... thank you	It is not enough to complete the video classes. You have to memorise the handout also. In the lecture I only give an overview of the topic — the remaining facts need to be memorised from the handout. It takes some time to get used to the way MCQs are formed in UPSC — it involves changing of certain keywords and going to elimination method. Once you get a hang of it, it becomes fast to tick or skip the answers. Those getting poorer scores are usually because of: a) Not revising properly, b) Overthinking / hairsplitting on statements, c) Not reading the words carefully, d) Silly mistakes like flipping correct/incorrect, e) Mind stuck elsewhere while reading.

				After each test: Your Attempts → View Solutions. Identify your specific pattern from the above five and fix that one. When the first four pillars are over, you will automatically see the big picture of how everything fits together. No need to feel demotivated — this is a common phase, science background or not.

Complete the mains economy course (QEP9) first — that gives you grip over one subject's answer writing, which you can then replicate across other subjects. Go subject-wise through PYQs, not paper-wise — paper-wise mixes subjects and obscures the pattern. Pick a PYQ only after completing that specific subtopic; random PYQ practice without topic coverage will keep giving you this "half-half, everything mixed" feeling. 27/08/2026 21:40:01	D9751	Manu Rana	Sir, is newspaper reading compulsory or can one replace it with vision ias monthly magazine (or some other standard magazine available in the market)?	Unacademy Articulate magazine (free) is better than VisionIAS because it doesn't carry unnecessary coverage of low-profile global reports. With VisionIAS, ask yourself: how much of this can you actually memorise, and how much of it is actually asked in the real exam. Newspaper reading isn't compulsory for current affairs coverage itself — that's handled by the course plus the free monthly magazine. But keep the newspaper column habit for at least four months regardless, to build vocabulary — English medium: Indian

A 50:50 English-Hindi handout isn't feasible either — it would unnecessarily increase page length and make revision harder. Important keyword translations are already given in the handout.

				To improve your Hindi vocabulary for Economy Mains, read: Class 11 NCERT, Yojana magazine chief editor's preface, Jansatta, and introductions/conclusions of the Economic Survey in Hindi. As a beginner, do not skip the video lectures — watch them fully rather than trying to read the handout cold. One month attending classes without things clicking yet is normal at this stage; economy has its own vocabulary (repo, CRR, fiscal deficit etc.) that takes a few pillars to become familiar. Keep watching in sequence from Pillar 1, and re-watch the specific lecture again if a topic didn't land the first time — do not move ahead without understanding the basics, since later pillars build on earlier ones.

Since you've already completed prelims economy syllabus elsewhere, you can go straight to the mains economy course (QEP9) — mains assumes prelims-level familiarity with concepts like monetary policy, GST, etc., which you should already have. My mains handout contains all relevant segments — no need to read anything extra separately. To improve your vocabulary further, you can optionally read: Class 11 NCERT India's Economic Development, Economic Surveys from 2022 onwards (just introduction and conclusion of each chapter), and The Hindu book of editorials. One caution: since your prelims preparation was from a different source, do go through a couple of PCB16 prelims handouts/tests once to make sure the concepts you carry into mains match how UPSC-pattern MCQs actually test them — this isn't extra syllabus, just a calibration check.

Sir, this might be the last chance I ever get, so I want to leave no stone unturned this time. Also, my optional subject for CSE is Hindi literature optional and I have written all the mains papers in hindi medium until now. However, I am going to choose english as my medium of exam this time. Please guide me through Sir.	Unacademy Articulate monthly magazine is a practical current-affairs substitute for daily newspaper skimming — download it here: https://unacademy.com/content/upsc/downloads/. It is more efficient than VisionIAS because it avoids unnecessary low-profile global report coverage that's hard to retain and unlikely to be asked. On your UPPSC Upper Subordinate Mains attempts specifically — since the syllabus and current-affairs weightage differ from CSE, my economy course helps with theory, conceptual economy questions, and national/global current affairs (GST, WTO etc.), but not state-specific schemes or micro-level state general knowledge. For UPPSC-specific analysis: https://unacademy.com/content/upsc/uppsc-exam-pyqs-topic-wise/ and the PYQ analysis playlist: https://www.youtube.com/playlist?list=PLAMBum9_RkuPOip6fnIVnpLMKzVH3h3Q5 Switching to English medium this attempt is a reasonable call if you can manage it — material is easier to find, process, and remember

27/08/2026 22:48:01	D9769	Jyoti	Sir, could you please tell me how I can improve my vocabulary? When I read the newspaper, I come across many difficult words and terms. Should I write them down in a separate notebook to improve my English and vocabulary?\n\nMy main problem is that, during my primary education, the focus was mostly on cramming and memorisation rather than understanding and using the language. I am being honest with myself, and I am dedicated to my goal. Please give me the right direction because I am confused about what I should do.\n	Yes, keep a separate small notebook or list for unfamiliar words you encounter while reading — write down the word, its meaning, and try using it in a sentence of your own. Reviewing this list periodically (not just writing and forgetting) is what actually builds vocabulary over time. For UPSC Mains English specifically: read columns in The Hindu/Indian Express, go through Economic Survey chapter introductions and conclusions, and read the Chief Editor's preface in Yojana/Kurukshetra magazines. C. Rajagopalachari's translated Mahabharat is also a good read for language and idiom. For pronunciation and how ideas are phrased, Palki Sharma's News at 9PM on Firstpost YouTube is useful.

date	sr	name	q.	ans.
				You have the entire year ahead — steady daily reading with this notebook habit will fix this gradually. No need to feel behind because of how English was taught earlier; this is a very fixable gap with consistent effort.

Watch the lectures in sequence from Pillar 1; do not try to jump ahead or skip videos given your starting point. On writing in simple English — yes, this is acceptable. UPSC does not require literary English; clear, correct, simple sentences that convey the right content score well. Command over content matters more than vocabulary sophistication at this stage. To build both together: read Class 11 NCERT India's Economic Development for foundational language and concepts side by side, along with Economic Survey introductions/conclusions and columns in The Hindu/Indian Express for phrasing. On sequencing — first build the static concept foundation through the course, then start answer writing on specific completed subtopics, not in parallel from day one on unfamiliar material. 30/08/2026 18:40:09	D9791	Akanksha Bhardwaj	Sir do I have to learn exact definitions and concept line by line or do I write answers in my own words? And sir please tell me how to make notes because if I gonna make notes of every topics it will become very very lengthy?	Write in your own words, not exact memorised definitions — UPSC examiners want to see that you understand the concept and can express it, not that you've reproduced a textbook line. Memorising exact definitions word-for-word is not necessary and wastes revision time. For notes — if you try to make notes on every topic, it will indeed become unmanageable. Be selective: make notes only where you personally struggle to retain something after 2-3 readings, or where you find something not already well-covered in the handout. The handout itself is your primary notes for revision — don't duplicate what's already well-written there.

So far, wrote around 50-60 answers on own.\nFor GPSC Mains how should I approach it because I am in dilemma whether to continue UPSC preparation or Prepare for GPSC Mains as only 1 month is left.	and no mains syllabus completed, GPSC Mains preparation from scratch in this window is a real stretch — but continuing UPSC preparation without focus right now, torn between two things, risks doing neither well. Given you've already written 50-60 answers on your own, you do have some baseline answer-writing ability. My honest take: if GPSC Mains syllabus overlaps meaningfully with what you've already studied for UPSC (GS-heavy exams usually do overlap substantially), it is worth a focused one-month push on GPSC Mains specifically, since this is a live opportunity you've already earned through Prelims — you can resume UPSC Mains prep right after. Do not try to prepare both in parallel this month; pick one and commit fully for these four weeks. I don't have detailed GPSC Mains-specific guidance to offer beyond this — for the exam's own PYQ pattern and paper structure, check GPSC's official previous papers directly.

A 50:50 English-Hindi handout also isn't feasible — it would increase page length unnecessarily and make revision harder. Also consider: whatever Plan-B path you may eventually need (banking, SSC, State PSC) will also require English, so it's better to build that comfort now rather than avoid it. On MCA vs full UPSC focus: since you've already completed BCA and your favourite subjects are Economy and Geography, my honest take is — if your finances and family support allow it, give UPSC your undivided focus rather than splitting attention with a regular MCA. A regular college program will eat into your daily study hours significantly. If you're unsure about full financial/family support for a no-backup year, then MCA (or another qualification) as a parallel Plan-B is reasonable — but treat UPSC as the priority, not something to be fit around college.

The core is: complete the syllabus for Prelims and Mains through the course, give the weekly tests, and memorise the handouts — that is sufficient. Beyond that, a fractional amount of current affairs comes from free monthly magazines (https://unacademy.com/content/upsc/downloads/) and the free annual Win## series — there is no need to separately read newspapers cover-to-cover unless it's for optional/interview/state-specific/Ethics content. For your revision backlog across 3 subjects: don't get pulled into a revision loop before finishing the syllabus once. The trap is spending months revising subject 1, forgetting it, moving to subject 2, and never finishing all subjects. Correct approach: finish all subjects first

				(economy revision starts properly from February onwards for Prelims), and if you haven't been making notes as you go, start now — brief notes in your own words, made while doing your first revision pass, will help far more than trying to redo everything from scratch. Since your first attempt is 2029, you have adequate runway — the pressure you're feeling right now is more about lack of a structured revision plan than about being behind. Follow the staged revision flow (Reading1 → Revision1 before weekly test → Revision2 at Mega Test → Revision3 in April-May) and this will resolve itself. If you have purchased a long duration subscription, there is no need to rush through all the courses because the same courses will keep coming up in the next year also.

Sir, I am primarily preparing for the Indian Forest Service, is it necessary for me to practice detailed answer writing for the GS paper as well, or should I focus mainly on the areas that are more relevant to the IFoS examination?\n	does not allow humanities optionals, focus on your graduation-subject optional. On GS Mains answer writing — yes, you should still practice it; IFoS also has GS papers, and the same answer-writing skills (structuring, prioritising) apply. You don't need to go as deep as a full IAS GS Mains aspirant, but skipping practice entirely will hurt you in the GS papers that IFoS does require.
31/08/2026 16:51:56	D9807	Aarifa	I am planning for upsc 2027, my first attempt..studying in college final year...started prep in july 2026.. my core subjects along with CSAT will b finished by December 2026(evthing learnt and revised properly)and side by side my half of optional that is anthro along with writing practice... MY DOUBT IS HOW AND WHEN SHOULD I START MY GS MAINS PREPARATION? I MEAN ALONG WITH PRELIMS OR AFTER DECEMBER 2026.. I personally feel like being drained doing that simultaneously.	Complete the syllabus of Prelims and Mains first — a good Mains answer requires command over content and vocabulary, which itself needs 2-3 revisions with proper spacing, newspaper reading, and syllabus completion as prerequisites. Starting daily Mains answer writing before finishing the syllabus is not effective; it ends up being mere fact-listing rather than real answer writing. Since your prelims core + CSAT + half your optional will be done by December 2026, that is a good position. Once the syllabus is complete and revised, shift focus to Mains answer writing practice — QEP9 (the live Mains course) will have this built in. Trying to do heavy Mains writing practice in parallel with finishing Prelims syllabus, while also managing college, is what's draining you — sequence it instead of running both fully in parallel.

				I am overwhelmed by lectures, I'm too much worried about current affairs, i've time management problems, i've backlogs, I do not know which subjects to complete first and so forth. All this enquiry, my answer is: Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily

				lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free

				classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist. • Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa
31/08/2026 21:01:26	D9808	Vishnumeghwal527	Sir I shortlisted Anthropology, PubAd, PSIR, SOCIOLOGY as a optional but I'm still in confusion. Im science student with PCB pursuing B.pharm . Give guidance	Since you've already shortlisted four specific subjects (Anthropology, Public Administration, PSIR, Sociology), here is a direct take on each: • Anthropology: a common, well-supported choice for science-background students — good coaching material and notes availability.

				• Public Administration: syllabus overlaps well with GS (polity, governance), reasonably manageable. • PSIR: a large, dynamic syllabus — needs sustained daily effort; less naturally suited to a science background without strong interest. • Sociology: doable, but for a science/B.Pharm background, it isn't a particularly natural fit unless you have a specific pull toward it. Given your PCB/B.Pharm background, Anthropology is generally the most background-friendly of the four. Go through the syllabus and a few PYQs of your top 2 before finalising — Optional Teacher List: https://unacademy.com/content/optional-educators/
31/08/2026 21:39:40	D9809	Anubhav Mishra	Pranam Sir 🙏, \n(Question 1) abhi tak 1A1,1A2,1B1,1B2,1C1,1C2,1C3, 1D1,1D2,1D3, khatam ho chuka hai and Mai bhi 1C1 tak khatam kar chuka hoon due to typhoid mera backlog ho gaya hai kya mai 2A1 se start kar sakta hoo live 3 September 2026 je . Jo mera backlog hai usko main jis din test hota us din class nhi hoti to Mera plan hai ki Mai usko dhere dhere cover kar lunga jis din test hota hai us us din kyon ki mai college jata hoon to 2 video possible nhi hoga karna.\n(Question 2) Sir aapki book kab Tak aayegi and usko kaise aur kaha se buy kar sakte hai.\n	Yes, you can start from 2A1 live on 3rd September — no need to wait until your backlog (from 1C1 onwards) is cleared first. Your plan of covering the backlog gradually on non-class days (when the weekly test happens instead of a fresh lecture) is reasonable, given your college schedule limits you to one video a day. Start with a school-drama level performance, not an Oscar-winning one. Write one short paragraph from whatever you've understood in today's lecture or Madhukar sir's current affairs class — the goal initially is just to convert your understanding into written points, not to produce a great answer. Ratta-marke memorising habits work against answer writing because you're used to recalling exact lines, not organising your own points — that skill will build with practice, not by waiting until you feel ready.

31/08/2026 23:05:03	D9812	VIVEK KARMAKAR	Sir, this will be my first attempt on 2027. Sir mujhe economics ki chije yaad nhi rehti hai even after revision. Aur topics me connectivity ke bhi issues aa rahe hai. \nHow to deal with these problems? \nAlso I want to know ki aapka book kab release hoga kya book lena sahi rahega ya fir handout se hi ho jayega kyuki mujhe screen per reading habit nhi hai.\n\nThank you.	Retention issues after revision usually mean the revision itself needs restructuring, not more repetition. Follow the staged flow: Reading1 (next morning after lecture) → Revision1 (before weekly test) → Revision2 (Mega Test, course end) → Revision3 (April-May) → Revision4 (pre-Prelims, index-glance only). If something still doesn't stick after this, write it down in your own words rather than just re-reading it passively. On connectivity between topics: this typically resolves once more pillars are covered — you'll start seeing how the pieces fit together as the bigger picture forms. Cover your pending backlog lectures gradually on the side (e.g. on days when there's a weekly test instead of a fresh lecture), rather than delaying the live class.

			abhi class le raha hu to kya mujhy 27 m dena chahiye ya nhi please sr help me and clear my doubt 🙏	On 2027: since you're still completing GS (Geography and Environment done; Economy, Polity in progress) and running an optional (History) in parallel, whether 2027 works depends on whether you can realistically finish full syllabus + adequate revision by December 2026. Please go through my advice in the PCB16 Orientation Class (16th July 2026), 20m timestamp (deadlines) and 21m (time management): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R If you can hit those deadlines, go for 2027; otherwise, 2028 is a safer target.
01/09/2026 06:53:33	D9814	Anamika Raghav	sir mujhe Mains handout me problem hoti h mera medium Hindi h mujhe English word samaj aate h lekin jab answer writing katri hu to word translate nhi hote sir please solve my problem. THANKYOU SIR	This is a common gap — understanding English but struggling to translate concepts into Hindi while writing. My mains handout contains translations for important keywords in Hindi, which should help with the core terminology. Beyond that, build your Hindi vocabulary through: Class 11 NCERT India's Economic Development, Yojana magazine's chief editor preface, Jansatta newspaper, and the Economic Survey's Hindi introductions/conclusions.

				Importantly, the goal isn't word-for-word translation of every English sentence — for actual answer writing, you need the ability to express your own understanding in Hindi, built from concepts learnt in English, not a pre-translated script. This ability will develop with practice, not by trying to memorise translations.

On handout reading taking ~2 hours: that's expected in the early phase. It will get faster as you get used to the structure and language. On Mains answer writing (30-second ideation): don't aim for a polished, ready answer in your head first — start with a school-drama level performance, not an Oscar-winning one. Write one short paragraph on whatever you understood from today's lecture, even if it's incomplete. The skill of generating points builds only through repeated attempts, not by waiting until you feel ready. On Hindi writing difficulty despite understanding the concept in

01/09/2026 20:45:47	D9816	Madhur Singh	sir i am a third year BA Economics hons student with pcm in 12 th class so i m not also like have any fear of maths statistics so i was planning to take economics as optional but when i talked to my unacademy mentor she confused me by saying it has very long syllabus with so much variety and unpredictability of questions .she said since i have Public Administration as minor subject in my graduation and it has short syllabus and predictable repetitive questions so u should opt that sir could u guide me more about this and also all my path ahead if i go with economics optional how should i start that if i consider that and what is needed as requirements like i may need to face in economics as optional and if i felt i m ready for that then i will able to finalise my optional selection with final advice from the god of economy in india (Mrunal Sir)	Economics as an optional subject comes with its own thinkers, theories, graphs, and maths — this is a real, separate demand from the GS-level economy content you've already found comfortable in class. Go through the syllabus and PYQs before finalising. That said, given your background — BA Economics Hons, PCM in 12th (no maths fear), and comfort with the subject — Economics is a reasonable fit and not something to abandon just because your mentor raised the syllabus-length concern. Public Administration having a shorter, more predictable syllabus is true, but 'predictable' does not mean 'easier to score' — competition is intense there too, and your own academic strength lies in Economics, not Public Admin as a minor. • if u do MA econmics u can also apply for UPSC's Indian Economic srervice exam- so do think about that utility in plan-B

				also. तो दोनों (pub ad, economics) - syllabus, plan-B etc के अच्छे से तुलना करके निर्णय लीजिए। जल्दबाजी में निर्णय मत लीजिए।

Keep body content mostly in bullets for GS-type economy answers. • Yes, simple English is completely fine — clarity and correct content matter far more than vocabulary. • It is fine to begin Mains answer writing once you've covered a topic's basics from Prelims, even if some Prelims topics/recordings are still pending — you don't need to wait for the entire Prelims syllabus to finish before starting Mains writing practice on topics you've already covered. In conclusion, complete the entire QEP9 course, then it will make more sense to.

Suru kr dena chahiye or ek din m kitne subject krne chahiye \nPls sir guide me \nThank you sir \n	For a 2028 target, no need to rush into CSAT, optional, and current affairs all at once right now — first priority should be your core GS theory subjects (economy, polity, history, geography).

				Once you have a good chunk of GS underway, start your optional in parallel rather than waiting until GS is fully done — optional is 500 marks in Mains and needs consistent time, so don't keep deferring it. Current affairs does not need separate daily attention as a beginner — it is covered within the course itself; free monthly magazine and the annual Win## series handle the rest. On how many subjects per day: limit lectures to 5 hours/day, and use the remaining time for reading and self-study — focus on 2-3 subjects at a time rather than spreading across everything daily.

01/09/2026 23:25:47	D9825	Ankit kumar	namaskar sir , When i see leacture i can wrie define and understand the concept well orally i can explain what is corporate governance and all but when i try to write on plane sheet for active recall i stay blank . eventhough i write then i have to use many helping verbs to make a flow in defination i try to put keywords then again i have to think i remain blank same dusring answer writing i write introduction and take long time to think and write please give me guidance what to do .	This is a very common gap — being able to explain something orally but going blank when writing is usually because oral explanation doesn't require you to commit to a fixed structure, while writing does. Do these five exercises to build the habit: https://youtu.be/vcmcoz1k_14?si=STZdrOEy3YIvswiD Practical fix: before writing, jot down 3-4 keywords/points in rough first (just words, not sentences) — this removes the pressure of finding "helping verbs" and flow while you're still generating ideas. Once the points are down, then convert them into full sentences. Don't try to think and write a polished sentence simultaneously — separate the two steps. This will get faster with repeated practice; it is not something that resolves by more lecture-watching.
