Academic doubts

Most of These are ALL NoT-exam worthy doubts. whoever is having these doubts Needs to change their approach towards UPSC and other competitive exams, if they really want to complete the syllabus in timely fashion.

Pillar	Question	Answer
1A0	Sir aap jis din ho topic padhate hai uska page no. Bhi batadiya karo badme confuse hota hai kyuki hum apki book me se padhte hai	This much spoon feeding and hand holding is not possible. Person needs to make some level of self effort also. This is IAS exam coaching, not School exam teaching ki page number bhi teacher hi btaaye. Person needs to have some level of intellectual depth by himself also to correlate the topics between

		class and the book/notes. ये कड़वी बात है लेकिन मेरा ये बोलना ज़रूरी है तभी व्यक्ति ख़ुद के पैरों पर खड़ा होना सीखेगा जोकि competitive exam के लिए बहुत ज़रूरी है।
1A1	I searched on google and rupee 1 note mentioned as unlimited legal tender. However in your handouts, it is mentioned as limited legal tender	As per RBI, money that is issued under Coinage Act, and technically they are unlimited legal tender only up to certain transaction limits set by the Act — beyond that, they function more like limited tender in practice. Since Rs.1 note is issued under Coinage Act , ergo it is limited legal tender. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.
1A1	I'm outraged that my shopekeeper not accepting ₹10 coin, ₹50 paisa etc.	For MCQs, tick based on the information ginve in your handout. If you are so outraged by this coin matter and have lot of free time then complaint against those shopkeepers in police and Supreme Court, assuming that your syllabus is complete.
1A1	What is Govt wants to issue ₹5 currency note?!	They will have to amend the coinage act and RBI act in the Parliament
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. My handout's phrasing follows this practical UPSC-relevant distinction rather than the loose usage you'll find in generic Google results.

1A1	if NACH is for pvt companies then how can government use it for MGNREGA?	it is not 'exclusively' for pvt companies. More importantly, this contrversy is outdated for the present situation. Therefore, I have deleted it from latest handout.
1A1	difference between UAE's IPP vs AANI	Sufficient to know these digital payment technologies beyond that we are not preparing for the IAS exam of UAE so move forward to nxt topic.
1A1	2026 UPI vs CBDC PYQ mein counter arguments	I have explained this 2026 UPI MCQ both in the lecture and latest handout, read it peacefully. Ultimately, it (CBDC) is in the experiment state, so what RBI said in press release vs what UPSC asked…. There is open to lot of debate depending on interpretation, but thankfully, we have to find the wrong statement and the most wrong statement is that e-rupees the liability of RBI. so mater is settled. I have taught the things as the governor explained in the press release. If you further counter arguments, please call up RBI Governor, and tell him to grab the collar of the UPSC professor who has asked it in different context contradicting what RBI governor has said in the Press release.
1A1	permanent deletion of transaction e-rupee become anonymous but in notes CBDC its imp traceability increase reduce anonymity both are diffrent	Depends on what programming features are added, for what purpose example when government release the money for subsidy, they will add the programming to track it.
1A1	sir in your notes its written that 500 and 1000rs notes are fiat money but when i searched it on google it said no its not because its been demonetized by RBI. SO IS there this criteria also that something which is demonetized will not remain fiat money or there is no such thing???	in the museum if u find a demonetiized ₹500-1000 note it is fiat money yes , bcoz it was issued by RBI under the authority of RBI act. but no longer legal tenders after Dec'2016. that's the interpretation as per theory. If there is an RBI notification that says something different, then there is case for rethinking, otherwise google has tonnes of stuff that will contradict with what we are studying. If aim to complete the syllabus by December. You need to stop this Google search Time waste.
1A2	SIR IN M0 CONCEPT , IF RBI PAYS IN RUPEE FOR DOLLAR TO	"For M0 to M4, What was the important for exam is explained in class.

	FORIGNER SO IT INCREASE CIC/ RUPEE IN FOREIGNER'S HAND , SO IS THAT COUNTED IN M0 OF OUR INDIAN ECONOMY ? "For M0 to M4, What was the important for exam is explained in class.	Beyond that where do we doing X/Y/Z thing/variable or not? = is not important for exam / useless PhD थोड़ा-पढ़ो-आगे-बढ़ो Because then we will have to convert this five month course into 5 years composite BA-MA Economics program and yet that will not increase the probability of getting more marks. "
1A2	M0-M4 you are formula not matching with CDS exam	like i mentioned in HDt that for M0 to M4 RBI vs NCERT formula different and I'm not teaching RBI formula for poor ROI
1A2	M3=CC+DD+TD but in CRR me aap M3 me keval DD add kar rahe hai	Bhai M0 alag cheez hai, M3 alag cheez hai, money multiplier formula alag cheez hai. Why CRR is at one place and not another = because they are different things. Please watch all the five lectures again.. Especially the boat, example of money multiplier.
1A2	sir can you plz explain me m0 m1 m2 m3 m4 concept again it is to confusing	It is explained to the Best of my ability in the live classes. I cannot make it more simpler than what I already done there in a text box. so, Please watch all those lectures and make those notes we made in the live class. If still not understood, then probably one should think of lower level exams and other careers because ultimately IAS Exam also enquiries person to have some level of intellectual depth. 0 se hero nahi bnaa sakta koi coaching-walla.
1A2	1) In monetary economics, Narrow Money (M1) is defined as CU + DD (Currency with Public + Demand Deposits). 2) Does Demand Deposits (DD) include Current Accounts?	1) yes, Narrow bcoz small in size. 2) please check your notes. have we not written that both current account and savings account both are part of demand deposits? Then Why are you having this question? It means you have not studied the things properly. Please watch the lectures again. I cannot provide one on one Tuition like this.

	3) How are Mobile Wallets (like Paytm or Amazon Pay as they are stored in bank under company name), e-RUPI vouchers, e-Rupee (CBDC), and Gift Cards classified within M1? 4) How does the central bank (RBI) estimate the total cash held by the public (CU) in the background?	3) ultimately, that money wallet money is sitting in someone's bank account. It'll get counted there. 4) RBI will Do It by collecting the data and updating their excel sheet. Why should we bother for it? We've studied exam worthy matters and formulas, now plz move to next topic, If you value your time and want to finish the syllabus by December
1A2	when government demontized 500 & 1000 currency note in 2016 money multiplier decrease but when Government withdraw 2000 rs note in 2023 money multiplier increase...why?	We can go into that Phd on timeframe of events, quantum of money issued in those currency notes, compounding effect of GST in 2017 etc, but it is not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	System Deficit liquidity . sir if RBI wants to fight inflation than why he should move towards system deficit liquidity , jbki sir deficit hone ka matlab h ki rbi gave more loan on repo / msf.	Depends on the chain of events, on what has happened and what RBI wants to accomplish. For McQ, we only need to memorise the formula otherwise no end to chicken egg relationship in it
1A2	Good morning Sir, Hope you are doing well. 1. Sir aapne Transaction demand + speculative demand= total demand for money mein inko affect karne wale kuch factor btaye the sir mujhe ye samjh nhi aaya ki wo factors kisko affect karenge kyunki aapne dono ke baare mein btaya tha (TD& SD) , affect to wo total demand of money ko hi karenge at the end. 2. Sir jab govt. RBI ke pass Note chhutte karane jaati hai to wo RBI ki liability kyun hai means RBI ko to badle mein utne hi paise mil rhe hai jitne use dene hai for ex- agar hum kisi shop par exchange karte hai to wo bhi hume 500= 100x5 note de dete hai to vha phir wo shopkeeper ki liability hai ??	(1) Both the topics are explained sufficiently in the class unless person wants to overthink and overcomplicate, then it cannot be helped. जितना पढ़ाया है उस पर एक एक स्लाइड के हिसाब से ग़ौर करिए आगे पीछे पूरी दुनिया में क्या हो रहा है उसका सब जोड़ने मत बैठिए। (2) currency notes are liability of RBI not shopkeeper.
1A2	Sir Now governor of RBI is Sanjay Malhotra but your image showing Shaktikanta Das . Please sir rectify.	I have already issued the clarification on top of 1A2-B handout ke this is the name of the new governor, but it is not possible for me to change so many graphics with the name/face of new governor in PPT and Handouts. I would hope that IAS aspirants are intellectual and mature enough to manage it.

1A2	your M0-M4 formulas not matching with XYZ other books	Stick to formula taught in my course for exam purposes. There are many ways to write the same formula by clubbing certain variables into certain categories, but बाक़ी कौन सी किताब में क्या लिखा है ये सब में compare contrast करने बैठो तो सेलेब्स ख़त्म नहीं होगा it will only increase your stress without increasing your score.
1A2	Sir apne lecture m bola as per ncert and rbi crr slr agr ⬆️ hoga to inflation auto!atic ⬇️ hoga. But at current hardly some cases of being dependent of loans for purchasing basic things like food etc but Asa m agr petrol prices ki bt kru to Hume mtlv gao m jb asa lgta h kisi chiz ka price badh raha h achanak se to hum usko consume krna khud se decrease kr dete h and I genuinely had this doubt relating to real life situations don't take as if I want to bother you unnecessarily and also correct me if I this wasn't valid as it will limit me on how much I have to be within	You are mixing up the concepts of microeconomics regarding the prices and demand of individual products vs the macroeconomics topic of monetary policy. RepoCRR/SLR → inflation relationship works through the credit/liquidity channel: higher CRR/SLR → banks lend less → less money in circulation → demand-pull inflation eases over time. This is a monetary-policy tool and works with a lag, not instantly. Other limitations of the monetary policy are also given in the last part of the 1A2 handout. stick to the repo/CRR/SLR-inflation transmission mechanism as taught in the class If you want to get the McQs correct
1A2	sir, if currency in circulation increased- M0 Increase but at the same time M3 i.e, money supply with also increase , so MM will also increase according to the formula or it depends on the rate ..like kaun zyada change hua .... Is it correct ?	Money multiplier depends not only on the formula, but also on the factors as we learned through the example of the boat speed. So there is no end to what if and but why in X Y and Z situations…please move to next topic, if u value ur time.

1A2	Hello sir. In your Saturday's class, you explained a topic of "Incremental CRR". I just had a question regarding that. In that concept, you said that RBI put an additional 10% CRR on the extra 2000 notes that were being deposited. But if 2000 notes were being deposited, RBI would also be returning the same amount to customers (let's say 200*10 or 500*4), right? so the net amount that the banks had with them would stay the same, wouldn't it? only increase would be because of the black money maybe. I'd be grateful if you could provide more clarity. Thankyou...	What was the important for Exam is already explained. Now How they would calculate it in real life and why x not y and other phd questions are not important for exam after seeing PYQs. थोड़ा-पढ़ो-आगे-बढ़ो.
1A2	Sir I am confused between these simillar words - inflationary, deflationary , tight, easy, expansionary, contrary for monetary supply. So please clear the difference between these words as earlier also in school and college I used to got confused between these words, Concept is clear but words are quite technical	Sufficiently explained in the live-class to best of my ability. I can't simplify it more here in the text.
1A2	Sir as RBI has condition to issue money as ASSET=Liability So is there also any condition for govt to issue coins and 1 rs note ? or is it on will and demand of govt. & Money ?	How much quantity of money can government issue in the form of coins? Well that much analysis of coinage act It is not given in the books, so I did not bother to become James Bond and search for it, after seeing PYQ trend
1A2	1. Any rules for bank that they must keep x% amount for hault cash.? 2. How we say 500 and 1000 rupee note is fiat money ? Recent time they dont have any value .	there would be RBI technical rules for vault cash management . I did not bother to Phd for it after seeing PYq 2) if u find them in museum- what will you call them? Non-fiat money? Despite the fact that they were issued under the RBI act by RBI!
1B2	In Pillar #1B2 (Page no:158) In IBC Code:Appeal structure table for individual or partnership case the appellate authority is given in the handout	14.15.1 1 IBC Code: Appeal Structure page158 table of PCB16 is correct and verified from official manual. there is

	is NCLAT.The appellate authority is Debt Recovery Appellate authority or NCLAT in the case of individual person or partnership firm.which is correct?	no typing mistake in it. individual person or partnership firm- 1st level is DRT, 2nd level is NCLAT, 3rd level is SC.
1B2	ECL framework 2027 ,the amount that the banks require to keep aside for the Defaulter loan,does it count as its own assets? Will the bank if yes then how it is different from SLR n CRR.	This much technical stuff about ECL framework, not important for exam after seeing PYQ
1C	you said tata (ratan tata) is an angel investor, but facebook is not an angel investor, but my doubt is Mark is the founder of facebook, then why we will not consier facebook as an angel investor ??	Angel investor is a specific term for an individual (usually a wealthy person) who personally invests his own money into a very early-stage startup, in exchange for equity or convertible debt — done outside of any formal company structure. Mark Zuckerberg founded Facebook, he did not invest his own personal money into whatsapp. facebook company invested money in whatsapp company— so he does not fit the angel-investor definition for Facebook itself.
1C	SDF (Special Drawing Facility) should be classified as secured loan? Since the State Government keeps Government Securities (G-Secs) as collateral for SDF, you have mentioned it as unsecured in the table.	Page 187 (PCB16)- i've written 'usually unsecured'. not 'always unsecured'. and yes In general sense, all money market loans are unsecured. however, repo, SDF loan to state are very few exceptions where some collateral may be given. so, There is no need to fuzz over this pedantry too much. you've to tick based on what is asked in the options. if MCQ statement says that money market instruments are unsecured in nature, then you have to ticket correctly because they are asking it in general sense. if they specifically ask in context of a particular instrumental, then you have to tick accordingly There is no need to read every line like some kind of Supreme Court lawyer to

		find the faults and exceptions in every word. Otherwise, you will get the answers wrong.

10/09/2026 09:16:37	D9926	Altaf Mantur	Jay hind sir.., sir i am confused for my career i have completed BA and from 3 years i am preparing for upsc and i feel low every time and i think i cant clear upsc or any other state jobs , so on base of BA i cant get any jobs or career growth so I am Thinking to do LLB of 3 years so that i can have back up plane and along with LLB i will study upsc and now my age is 25years so please guide me sir.....	There is no harm in doing LLB alongside UPSC preparation as a genuine backup — Law degree opens Plan-B options like judicial services, specialist officer (legal) roles in Banks/RBI, and corporate/private practice. However, at 25 with 3 years already invested, do not let LLB dilute your UPSC focus. First complete your GS + Optional syllabus per the standard deadlines (see PCB16 Orientation Class, 16th July 2026, 20m timestamp): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R For the low feeling, that is common at this stage — focus on syllabus completion rather than the emotion itself. For broader Plan-B options, watch this from 26 min onwards: https://youtu.be/t4oivH9xI4o?t=1570

			jayega samjh nahi aa raha kya karu sr please guide kijiye.	On English vs Hindi — pick whichever you understand content in better and keep practising the other for writing. No need to overthink this further; complete Geography's pending revision first, then bring Economy and Polity in parallel.

Please go through my advice at the 14m timestamp in the PCB16 Orientation Class (16th July 2026): https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R Key point: beginners should not waste time on daily current affairs lectures — focus on completing theory first (economy, polity, history, geography, environment, science). Majority of MCQs are theory-based or 2-5 year contemporary issues, not fresh daily current affairs. My own economy course already covers the relevant current affairs within it — no need to prepare it separately. Once your static syllabus is complete, the backlog you're worried about becomes far easier to clear because you'll understand the context instantly.
10/09/2026 22:52:47	D9934	Punam Kumari	Sir jo v economic me padhte h uski practice kaha kare	Whatever is taught in the economy lectures is tested in the Wednesday weekly test on that pillar — that itself is your practice. You don't need a separate practice source.

Decide your medium first (based on where you're more comfortable), then work on strengthening that one. 3 hours daily via recorded classes is workable, but the real test is your handout memorisation, not just watching — first do the reading of the handout the next morning after each class, then keep pace with the weekly test. If 3 hours consistently covers this cycle without growing backlog, it is enough for you; if backlog is piling up, either you need to increase the hours or slow the pace at which you're consuming new lectures.
10/09/2026 23:29:16	D9938	Rishav	Sir aapne suggestion Diya tha if my family financial support me then I have to focus only on upsc but sir my financial condition is not too good.so I have to do MCA sir to support my family. I lost my father at early age.sir your teaching skills is outstanding and ur handouts are very beneficial for students u are not only mentor but also a good human being who is always there for their students.	Thank you for your kind words. MCA alongside UPSC prep is a reasonable path if your financial situation requires it — many candidates manage a course/job alongside preparation with discipline, especially once the syllabus and coaching are already substantially covered. Continue focusing on syllabus completion in the time you do get; that consistency matters more than total hours available.

Capital deepening is about physical/productive capital reaching workers; overfinancialisation is about the financial sector itself becoming bloated relative to the real economy, which is a risk (financial instability, resources diverted from productive use) rather than a solution to capital deepening.

(2) On national parks/species-conservation-status MCQs: this level of specific detail (exact IUCN status — vulnerable/endangered — for individual species) is genuinely hard to fully cover and is a low-ROI area to chase exhaustively. This is a very common problem, not just yours — the fix is not to stretch every class into 4-5 hours by chasing full comprehension line by line. Do the first reading of the handout the very next morning after the class — this reinforces what was taught while it's fresh. Do not aim to memorise everything on day one; that happens during your revision rounds before the weekly test, not on the first pass. If you are consistently taking 4-5 hours per 2-hour class, you are likely over-processing each line instead of moving forward — read the full handout section once for overall understanding, then let the revision cycle (before Wednesday test, before Mega Test, etc.) do the memorisation work. For a 2028 target, you have adequate runway — don't panic about being behind; focus on steady daily progress rather than perfection on the first pass.

I am preparing for UPSC CSE from my 2nd year but joined Unacademy this year in the month of May. I am also preparing for CUET PG side by side and planning to pursue PG from JNU/DU because my first attempt of CSE will be in 2028. So, suggest me what should i do pursue PG from reputed institution and give CSE in 2029 or pursue PG from open university like IGNOU and give UPSC in 2028. Sir please guide me because i admire your suggestions.	Given your first attempt is 2028, pursuing PG from a reputed institution (JNU/DU) alongside preparation is worth considering only if it doesn't eat heavily into your daily study hours — reputed university PG programs often have their own coursework load, assignments, and attendance requirements that can compete directly with UPSC prep time. IGNOU (open university), by contrast, gives you far more flexibility to structure your own time around UPSC preparation, since there's minimal class attendance pressure. Given your target is 2028 (not stretching to 2029), IGNOU is the safer choice to protect your preparation time — reserve the reputed-institution PG plan for later, if needed as a Plan-B after your UPSC attempts are done.

Yes — legal tender in India is defined under RBI Act, 1934 (for banknotes) and the Coinage Act, 2011 (for coins). So it is not subjective — it is a specific statutory list, and Bitcoin is not on it; it has no legal tender status in India regardless of what other countries do. 14/09/2026 20:28:04	D9973	Md tarique	Sir mera first attempt 2028 me hoga but Mera subscription 3 june 2027 ko khatm ho jayega.\nIsiliye mai apna geography optional with 2 gs ki classes kr rha hu 1 economics and 2 polity but sir acche se revision nhi ho pa rha h . Time jyda consume ho ja rha h lecture me .give me any good suggestion sir please	Since your subscription ends June 2027 but your attempt is 2028, you do have some runway — but running Optional (Geography) + 2 GS subjects (Economy, Polity) simultaneously while revision isn't keeping pace is a signal to slow down. Pick one GS subject to run alongside Optional. after 2-3 months, you will be able to absorb it faster when you become more familiar with the teaching style of teachers, the structure of the notes and so forth. I am overwhelmed by lectures, I'm too much worried about current affairs, i've time management problems, i've backlogs, I do not know which subjects to complete first and so forth. Please go through Lecture#1 on UPSC Orientation in PCB16 Course (16th July 2026), at following timestamps Class URL: https://unacademy.com/class/upsc-orientation-strategy-roadmap/WV0Z4U9R

				Timestamp: matter covered • 14m: Beginners should not waste time on daily current affairs lectures — focus on theory first. Last one year's trend shows current affairs is not very decisive for clearing cutoffs, because majority of MCQs are either theory-based or 2-5 year contemporary issues. • 20m: Deadlines to complete syllabus — ideally most things should be done by December-end. • 21m: Unable to manage time with college/job, too many daily lectures — includes the batch vs course distinction. • 28m: Which subject to complete first? # Time management ke liye Rule of thumb: • If you can learn a topic in 20 min by reading, skip the 40-min video meant for weaker students. In my economic courses, watch videos for bitcoin, money supply, monetary policy, GST, income tax, currency exchange, and GDP formulas; other topics can be studied from handouts if time is short and you're sharp enough. • Limit lectures to 5 hours/day; use remaining time for reading/self-study. • Beginners should prioritize core theory subjects (history, geography, polity, economy) over daily current affairs videos. Complete these first. • Complete major milestones: optional by Dec 2025, most GS (Prelims+Mains) by Feb 2026. If not possible, especially for non-EWS general category aiming for IAS, consider the next year's attempt. • If you have a paid optional subject subscription, complete it first; other subjects like science can be managed via self-study, free classes, or YouTube. • If struggling with batches, unenroll and focus on 2-3 subjects daily. No extra fees for Unacademy batches; it's like managing a Netflix watchlist.

				• Use free NCERT audiobooks while traveling: https://ciet.ncert.gov.in/audio-books • Use office breaks for newspapers; mornings for subject study. • College students/working professionals should skip daily current affairs videos, focus on theory, and limit newspaper time to 30 min. Unacademy's 1-hour current affairs classes target different students. • Mains: 90 Days Roadmap: https://youtu.be/DRorb5TquXA?si=e4HjB9l4-0imeZSa
14/09/2026 21:05:04	D9974	Alisha	Sir mujh PCB13 mili hai usme mains ke liye kuch bhi content nhi h \n	PCB## targets only prelims. For Mains, you need to separately access the current QEP9 course — Prelims (PCB) and Mains (QEP) have always been separate course lines, so this is not a defect in PCB13 specifically. I have split the material like that, since PCB7 ke prelims alag hai aur mains alag hai.
14/09/2026 21:05:32	D9975	Saniya Almas	Hello sir sir mujhe ye puchna tha actually mere pas apka PCB13 wala handout hai economy ke jo mujhe pichle sal unacademy ki trf se hi aya tha maine iconic ka subscription liya tha to to sir wo bhot zada old hoga kya agr usse pda to ?	It can be updated with free Win## series, plz see table on top. वो उतना पुराना नहीं है कि आपको नया किताब तुरंत लेना पड़े।
14/09/2026 21:10:33	D9976	Vedanshi Barot	SIR , DUE TO MDR , WON'T THE CASH TRANSACTION WILL INCREASE AND SO IT MIGHT ALSO LEAD TO TAX EVASION ?	yes high MDR can push small merchants back toward cash to avoid that cost. This is a valid concern, and yes, it can indirectly encourage cash transactions and the tax evasion risk that comes with cash.
14/09/2026 21:33:41	D9977	Satyam	Are TDS & TCS direct or indirect tax ?\nZero rated import are considered beneficial to traders as they can purchase extra raw material out of	• TDS and TCS are both forms collected by income tax dept so part of Direct Tax . however, they're adjusted against income tax. these are admin.mechanisms not a separate tax type. • Zero-rated exports are beneficial to exporters because they get full ITC refund on inputs while charging 0% GST on the export itself. Weather they utilise the GST refund for buying

			that ? \nWhy Inverted duty structure leads to credit accumulation, here also these credits can be used to purchase raw materials. Kindly explain?	more raw material, yes, that is possible. • Inverted duty structure means tax on inputs is higher than tax on the final output. This creates ITC accumulation because the seller cannot fully utilise the higher input credit against a lower output tax liability — the excess piles up as unutilised/blocked credit, not cash in hand to buy more raw material. That accumulated credit is a working-capital problem for businesses, which is why the Government issues periodic refunds for inverted duty structure cases but merchants, complain that refunds are not given on time.
14/09/2026 23:16:50	D9978	Rishav	Sir aap bahut aacha padhate hai economics and sir aap motivate bhi bahut karte ho students ko. Sir ek baat puuchni thi aapse aap bolte ho 2100 mei se 21 ka hoga upsc next four years baki sb students jinka nhi hoga wo kya karenge sir. State pcs ssc and other exams u mean to say that na sir kahi na kahi preparation jo kr rhe hai unko benefit milega hi , in upsc pr in other government exams.	Thank you for your kind words. My general observation is that if 2100 students in a batch-> 21 will clear upsc in 4 years, and another 200-210 will be in StatePSC, Bank, RBI, NABARD, EPFO, Defense, CAPF at officer level group-A jobs. then remaining students, many will get into group-B, group-C level jobs. The same preparation directly helps in State PCS, SSC, banking, and other government exams, because a large chunk of syllabus and skills overlap. So the effort is never zero-sum; it builds a base useful across multiple exams.
14/09/2026 23:23:47	D9979	Sugata Chakraborty	Sir which exams can i appear in post-mains period of sept-december - whose preparation is similar to upsc (to some extent at least)? apart from armed forces	Sept-se December ke phase mein most of the exam tend to be related to banking so IAS-syllabus will not overlap. then in jan-feb there are officer trainee jobs in the government companies, but most of them require the GATE score. there are few exams like RBI, EPFO, UPPSC, SIDBI upcoming.. but you will have to check that the last date of the form filling is not over.

15/09/2026 03:30:15	D9980	JSR	1. sir agar SDMF and SDRF ke liye rupees financial commision apne disaster management grants se dega to ye 90:10 and 75:25 cost sharing between central and state kya hai.\n\n2.sir jo ye grants hote hai kya vahi paise hai jo har sal sabhi gaaan panchayat or muncipalties ko development ke liye dete hai ?\n\n3. sir agar sector specific grants band ho gye to ASI ko funds kahan se or kese aata hai ?	• Yes, the 90:10 and 75:25 cost-sharing ratios (Centre:State) apply specifically to SDRF/NDRF and SDMF/NDMF grants, as recommended by the Finance Commission. This is separate from other grant categories. • No, these disaster grants are different from the regular development grants given annually to Gram Panchayats/Municipalities. Local body grants are recommended separately by the Finance Commission for basic services and are not the same pool as disaster management grants. • If sector-specific grants are discontinued, bodies like ASI would need to rely on their regular ministry budgetary allocation (Ministry of Culture) rather than a dedicated Finance Commission grant — this is a hypothetical scenario and not something to build an answer around for the exam.
15/09/2026 09:52:45	D9981	Avani Mittal	Sir as per PIB, “Goods and services charged at a 0% (Nil) GST rate—such as specific life and health insurance policies, essential medicines, and basic food items—cost less because no tax is added to the final price.”\n\nBut sir since we learned that nil GST will not lead to ITC for sellers hence they will cover their input cost through forward shifting, hence this PIB statement is not necessarily true that it will lower	in exam, you should still write the benefit as per the PIB/official government line unless the question specifically asks you to critically evaluate GST's benefit, then you can write this concerns about the forward and backward shifting, and ITC refund delays. It will make more sense to you after we have studied pill2's Mains lectures next week.

			down the prices for consumers? Only if backward shifting happens then we can expect actual benefit to consumers which is rare?\n\nIf this is true, in exam still we have to write the benefit of nil gst as per PIB only?	
15/09/2026 15:34:43	D9982	Harshita	Jai hind sir \nDue to some reasons, currently I'm not able to take iconic subscription hence, unable to get some of my mains answers evaluated. I've asked gemini ai to evaluate my answers for now. Will that be good, or should I look for some other alternatives? If so what should be done? \nThank you sir.	You will have to first train the AI model by feeding it the evaluated copies of toppers by downloading it from visionias etc website. AI evaluation is not a substitute for a trained UPSC Mains evaluator — it will not correctly judge things like structure, relevance, and examiner expectation the way a human evaluator with UPSC Mains experience does. But there is no need to rest through purchasing mains test series program etc, if u're in the early stage of ur prep.
15/09/2026 15:51:04	D9983	hena	Sir, please provide the pdf of 1750+ MCQ booklet in the updates section. I know the questions are same as that of the tests but for the learners like me whose subscription will be over by this December will face issue in opening the tests to see our mistakes or to reattempt it. It would be better of we have a copy of the booklet in pdf form.	• Presently the test is embedded inside the quiz portal — there is no direct download, but there is a workaround. On desktop: after giving the test, revisit it, click "Attempt", then "View Solution". 15/09/2026 16:48:55	D9985	Prachi Singh	In 1B2 lecture, you told about how residents and non residents have to pay taxes. What about the citizenship like if someone is citizen of India earning and living outside India permanently e.g Engineers, do they pay tax in India.	Citizenship and tax residency are separate concepts under Indian tax law. Even an Indian citizen is taxed based on residential status not citizenship. An engineer who is an Indian citizen but lives and works outside India for more than X number of days in a year, then he'll treated similar to Rihana and Tom Cruze i.e.their Indian income (if any) will be taxed but foreign income will not be taxed.

Mujhe 2027 mai attempt sir dena hai to kya Indian years book padha ni padegi	• If your optional is PSIR, International Relations is already a core part of the PSIR syllabus itself — you do not need a separate IR course on top of it. • For 2027 attempt, yes you should read the Economic Survey — read from the 2022/2023 edition onwards , not every chapter, just introduction and conclusion of each chapter. • For EPFO exam, - In EPFO exam, they ask a specific legal provision under various labour

15/09/2026 18:45:01	D9987	Janvi Sharma	sir I have received the PCB 13 book from Unacademy via post. And my first attempt will be in 2029, so do I	Since you already have the PCB13 book, no need to buy a fresh book or reprint. Update your PCB13 book with the Win26 series first, then Win27 (Feb 2027) — do not skip Win26 in this chain. Refer to the update-chain table at the bottom of mrunal.org/win26.

			study from online PDFs of handouts you provide or get printouts of only the updated material in the handouts? (Because it is stressful for eyes to study from digital material and physical notes are easier to annotate)\nor if any other solution, please kindly drop it. Because purchasing the book would not be as beneficial. \n\nalso, please guide on how to fetch the updates aka changes in material that u post in PDFs... (like the win27 series u frequently mention in lectures too)\n\ nthankyou.	For day-to-day PCB16 material meanwhile, you may still need the current handout PDFs for the latest content not in your book — printing just the updated/new material from the PDF is a reasonable middle path if eye strain is a concern. Win27 details (page not live yet, it'll come in feb'27) will also be published at mrunal.org/win26 when ready — keep checking that page.
15/09/2026 21:10:02	D9988	Riyaz Mulani	Hello sir,\nI have worked in Accenture for 3.5 years and while preparing in initial years I gaved few attempts but could not clear prelims. Now after arguing much with my parents, I decided to leave the job and take a gap of 1-1.5 yrs to prepare for this exam and give one focused attempt so that I won't regret but lately I am starting to question my decision as I am scared to the thought of "If it doesn't workout then what ?". When I took the decision, I am hoping I can get back to	You have already made the decision, and going back and forth on it now will only cost you focus. You have a fallback (civil engineering exams, GATE-score pe PSU jobs, IES exam, or the option to try returning to corporate) — so this is not a one-way door decision. The real risk is not "what if it doesn't work out" but wasting this dedicated 1-1.5 year window in indecision instead of full-focused preparation.

			corporate carrer - Although, I received various opinion at that time of whether I should leave or not and whether I will get the job back or not- and also I have civil engineering degree so I thought even if I don't get job in worst case, I will give civil engineering exams (which I have to start from scratch) and clear one of the exam or I can start a business. I just want to know, based on your experince, whether I took the right decision ? Am I commiting any mistake by taking such a decision ?	during this phase, Only two decisions one should postpone in my opinion, marriage, and home loan.
15/09/2026 22:47:30	D9989	Riyaz Mulani	Sir, do I need to read economy related news articles in newspaper or can I skip it since you cover it in Win 27 series ? Also, does it apply for current affairs magzine too ? Because already reading newspaper is consuming my time. \n\nSorry If you have answered the question in introduction or orientation classes but I have skipped that class because as a former student I am adjusted to your settings and I am aware of your teaching style	No need to read newspaper separately for economy — the PCB16/QEP9 course already covers theory plus current affairs for the relevant parts of the economy syllabus, and annual updates are covered free every year via the Win## series. Same applies to any current affairs magazine for economy specifically — not needed.
15/09/2026	D9990	Akanksha Bhardwaj	Sir, Mains test ke ans aap hi check krte ho jo abhi pillar 1 ka hua h?	If they have given feedback of good attempt for a given question, then it should be seen only

23:28:29			Actually I was able to answer only 3 questions because I wasted my time in thinking about what to write and what not to write. And the evaluator gave me 14 marks and says good attempt that's why I'm asking is it reliable?	for the given question and not the entire paper. If you have attempted only three questions, then it is normal for those who are writing the mains mock exam for the first time, they struggle to finish the paper on time. Focus on improving the speed and time management in the next test. While I do not check every copy personally, but I will ask the concerned reviewers to look into it.
16/09/2026 11:14:03	D9991	Krish Patel	Sir economics mains mock test kai rite aapvani ? Question kyathi malse ane upload kya karvana?	Economics Mains mock test questions has separate page- plz see links given in handout#1 of mains course ### Mains mock test page https://unacademy.com/test-series/mrunals-economy-for-upsc-mains-2027-test-series-qep9-economy/LZ7W09K8 You have to open the test, then do not close the window until you have finished writing the answers in the page, then take photos, make PDF and upload it.
16/09/2026 15:20:53	D9992	Harshita Gupta	Good afternoon sir, \nCould you please specify the last date for mains ans submission of pillar 1 so that they could get checked by you...	There is 20 days window after the test has started.
16/09/2026 15:25:05	D9993	Harshita Gupta	Good afternoon sir,\nCould you plz let me know a better strategy to go with the mains part.\nStep 1) Watch	This approach is correct. Watch lecture, read HDT, revise, then attempt the pillar-wise test — this sequence is exactly right and does not need any change. Just make sure the revision step is

			your video lect of mains\nStep 2) Read main HDTs\nStep 3) Learn and revise them again\nStep 4) Attempt your Mains Pillarwise test.\n\nIs this way any good or Do I need to change my approach	genuine (own words, not just re-reading) before attempting the test. For economy, the revision flow should be as follows Reading1: morning after the last night class Revision1: before weekly test Revision2: before the mega Test (100 MCQ from all the handouts.) at the end of course Revision3: April-May Revision4: before Prelims- glance over index pages of each chapter. Only you cannot remember something then go through the actual content. If you do more than this number of revision, it is not going to improve your score, but it is going to reduce the time available for finishing other subjects. Make plan for other subjects in similar fashion. So that it fits into the topic wise test, full length test et cetera as well.

16/09/2026 18:10:30	D9994	Sanskar Singh	Sir i am a working professional and going to give attempt for the first time in 2027.\nBy September i completed geography and polity. And attending PCB 16 batch for economy.\n\nSir please guide \n\nBy dec/ jan what subject of gs and what portion of optionnal to be completed and month wise strategy after dec/jan.\n\n\nAnd sir i am confused between sociology and anthropology for optional. Dont have background for either. \nPls guide sir	Complete Geography and Polity are already done — good pace. By Dec/Jan, target completing PCB16 (Economy) fully along with your remaining GS subjects, and for optional, aim to have at least 40-50% of the syllabus covered by then, given you're working alongside a job. Month-wise after Dec/Jan: continue GS subjects not yet started (Science & Tech, Internal Security, etc.) through Feb-March, keep pushing optional syllabus completion, and reserve Feb-May for revision (paced via Win27) alongside finishing any pending GS. For Sociology vs Anthropology — without a background in either, both are comparable, workable optionals with decent coaching and material available. Go through their syllabus and a few PYQs before finalising. Optional Teacher List: https://unacademy.com/content/optional-educators/

16/09/2026 18:43:25	D9996	Axsh Sathwara	When a company imports its goods from other countries but documents indicate that they are from Iran, what is this term referred to? \n\nI am currently working part-time in the logistics industry as an accountant. A party that is engaged in the sale of raw salt imports from	mislabeling of country of origin used to evade customs duty, sanctions, or anti-dumping duty by disguising the actual country of origin. In your example, if Pakistan-origin salt attracts higher duty or restrictions while Iran-origin does not (or attracts lower duty), routing paperwork through Chabahar Port to falsely show Iran as origin is a classic case of this practice.

			Lahore, Pakistan, but indicates the port of loading as Chabahar Port in Iran on the Bill of Lading, commonly known as BL. It is labeled as Rock Salt and Pink Salt. Furthermore, the Certificate of Origin (COC) issued by the Chamber of Commerce also states that the origin is Iran, despite the actual source being Pakistan. Even in Bill of Entry (BOE) its show as Iran. How custom officers are corrupted by this level. \n\nHow does this impact the economy? What is this referred to?\n	Economically, this causes revenue loss to the government (customs duty evasion), distorts genuine trade data (misleading Iran-India or Pakistan-India trade statistics), and can be a route for money laundering or sanctions evasion. This level of case-specific customs fraud detail is beyond UPSC exam scope.
16/09/2026 19:57:09	D9997	Nagaraj Naik	Sir, In Handout in point no 24.2.2 it says PMLA reporting norms to apply on crypto exchanges (2023). Indian Boss is CBDT. Whereas in point no 24.3.2 it says Boss is FIU.	Both statements are correct together, not contradictory. Under PMLA, crypto exchanges are treated as "reporting entities," and they report suspicious transactions to FIU-IND (Financial Intelligence Unit) — so FIU is the nodal body for PMLA-related crypto reporting. CBDT's role is separate — it relates to the taxation (income tax/TDS) side of crypto/VDA transactions, not PMLA reporting. So two different regulatory functions (tax vs anti-money-laundering), each with its own nodal authority. u've to tick based on context of the MCQ options.
